1. IMPORTANT INFORMATION

THIS DOCUMENT IS IMPORTANT. BEFORE YOU PURCHASE ANY OF THE SHARES YOU SHOULD ENSURE THAT YOU FULLY UNDERSTAND THE NATURE OF SUCH AN INVESTMENT, THE RISKS INVOLVED AND YOUR OWN PERSONAL CIRCUMSTANCES. IF YOU ARE IN ANY DOUBT ABOUT THE CONTENTS OF THIS PROSPECTUS YOU SHOULD TAKE ADVICE FROM AN APPROPRIATELY QUALIFIED ADVISOR.

The value of and income from Shares in the Company may go up or down and you may not get back the amount you have invested in the Company.

CENTRAL BANK AUTHORISATION - UCITS

The Company is authorised in Ireland as an undertaking for collective investment in transferable securities pursuant to the European Communities ("Undertakings for Collective Investment in Transferable Securities") Regulations 2011 (S.I. No. 352 of 2011) as amended. **Such authorisation is not an endorsement or guarantee of the Company or any Fund by the Central Bank, nor is the Central Bank responsible for the contents of this Prospectus. The authorisation of Invesco Markets plc (the "Company") by the Central Bank (the "Central Bank") shall not constitute a warranty as to the performance of the Company and the Central Bank shall not be liable for the performance or default of the Company.**

THIS PROSPECTUS

Information applicable to the Company generally is contained in this Prospectus. Shares constituting each Fund offered by the Company are described in the Supplements to this Prospectus.

The Company is an umbrella investment company with segregated liability between Funds and with variable capital incorporated on 16 October 2008. The Company is structured as an umbrella investment company, in that different Funds may be established from time to time by the Directors with the prior approval of the Central Bank.

The particulars of each Fund will be set out in a separate Supplement. Any such Supplement shall list all of the existing Funds. Shares of more than one Class may be issued in relation to a Fund. Information contained within the Supplements is selective and should be read in conjunction with this Prospectus. The creation of any new Classes of Shares must be notified to and cleared in advance by the Central Bank. On the introduction of any new Class of Shares, the Company will prepare and the Directors will issue documentation setting out the relevant details of each such Class of Shares. A separate portfolio of assets shall be maintained for each Fund and shall be invested in accordance with the investment objective applicable to such Fund.

Shares in any of the Funds may be subscribed for or redeemed in cash or on an in-specie (in-kind) basis. Shares may also be bought or sold on the secondary market (as described below).

The Company may decline any application for Shares in whole or in part without assigning any reason therefor and will not accept an initial subscription for Shares of any amount which is less than the Minimum Initial Subscription as set forth in the Supplement for the relevant Fund, unless the Minimum Initial Subscription is waived by the Directors.

After the initial issue, Shares will be issued and redeemed at the Net Asset Value per Share plus or minus duties and charges (as the case may be) including any Subscription Charge, Redemption Charge specified in the relevant Supplement. The Net Asset Value of the Shares of each Class and the Issue and Repurchase Prices will be calculated in accordance with the provisions summarised under the heading "**Issue and Repurchase Prices/Calculation of Net Asset Value/Valuation of Assets**" in this Prospectus.

The Shares of each Fund may be listed on one or more Relevant Stock Exchanges and are fully transferable by Shareholders. It is envisaged that Shares will be bought and sold by private and professional investors in the secondary market like the ordinary shares of a listed company. However, the Company cannot guarantee that a liquid secondary market will develop in relation to the Shares of any particular Fund.

Details of Dealing Days in respect of each Fund are set out in the relevant Supplement.

A Redemption Charge of up to 3% of the Repurchase Price of any Class of Shares of a Fund may be charged by the Company. The amount of Redemption Charge (if any) will be set out in the relevant Supplement.

Before investing in the Company, you should consider the risks involved in such investment. Please see "**Risk Factors**" below and where applicable to each Fund in the relevant Supplement.

Shares are offered only on the basis of the information contained in the current Prospectus and the latest annual report and audited financial statements and any subsequent semi-annual report and unaudited financial statements. Such reports and this Prospectus together form the prospectus for the issue of Shares in the Company.

All Shareholders are entitled to the benefit of, are bound by and are deemed to have notice of, the provisions of the Constitution, copies of which are available upon request.

MIFID II PRODUCT GOVERNANCE RULES – UCITS AS NON-COMPLEX FINANCIAL INSTRUMENTS

Article 25 of MiFID II sets out requirements in relation to the assessment of suitability and appropriateness of financial instruments for clients. Article 25(4) contains rules relating to the selling of financial instruments by a MiFID-authorized firm to clients in an execution only manner. Provided the financial instruments are comprised from the list contained in Article 25(4)(a) (referred to broadly as non-complex financial instruments for these purposes), a MiFID-authorized firm selling the instruments will not be required to also conduct what is referred to as an "appropriateness test" on its clients. An appropriateness test would involve requesting information on the client's knowledge and experience on the type of investment offered and, on this basis, assessing whether the investment is appropriate for the client. If the financial instruments fall outside the list contained in Article 25(4)(a) (i.e. are categorised as complex financial instruments), the MiFID-authorized firm selling the instruments will be required to also conduct an appropriateness test on its clients.

UCITS (other than structured UCITS) are specifically referenced in the list in Article 25(4)(a). Accordingly, each Fund is deemed to be a non-complex financial instrument for these purposes.

DISTRIBUTION AND SELLING RESTRICTIONS

The distribution of this Prospectus and the offering of Shares in certain jurisdictions may be restricted. Persons into whose possession this Prospectus comes are required by the Company to inform themselves of and to observe any such restrictions. This Prospectus does not constitute an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation.

The Constitution of the Company gives powers to the Directors to impose restrictions on the holding of Shares by any person who appears to be in breach of the laws or requirements of any country or government authority or by any person or persons in circumstances (whether directly or indirectly affecting such person or persons, and whether taken alone or in conjunction with any other persons, connected or not, or any other circumstances appearing to the Directors to be relevant) which, in the opinion of the Directors, might result in the Company or the relevant Fund incurring any liability to taxation or suffering any other pecuniary, regulatory, legal or material administrative disadvantage which the Company or the relevant Fund might not otherwise have incurred or suffered. "Benefit Plan Investors", as defined in the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), will not be permitted to subscribe for Shares. The Constitution also permits the Directors where necessary to redeem and cancel Shares (including fractions thereof) held by a person who is an Irish Taxable Person on the occurrence of a chargeable event for Irish taxation purposes as described under "Taxation" below (together "Prohibited Persons").

Potential subscribers and purchasers of Shares should consult a stockbroker, bank manager, solicitor, accountant or other financial advisor and inform themselves as to (a) the possible tax consequences, (b) the legal requirements, (c) any foreign exchange restrictions or exchange control requirements and (d) any other requisite governmental or other consents or formalities which they might encounter under the laws of the countries of their incorporation, citizenship, residence or domicile and which might be relevant to the subscription, purchase, holding or disposal of Shares.

This Prospectus may be translated into other languages. Any such translation shall only contain the same information and have the same meanings as this English language document. Where there is any inconsistency between this English language document and the document in another language, this English language document shall prevail except to the extent (but only to the extent) required by the laws of any jurisdiction where the Shares are sold so that in an action based upon disclosure in a document of a language other than English, the language of the document on which such action is based shall prevail, solely for the purposes of such action and to the extent so required.

Any information given, or representations made, by any dealer, salesman or other person not contained in this Prospectus or in any reports and accounts of the Company forming part hereof must be regarded as unauthorised and accordingly must not be relied upon. Neither the delivery of this Prospectus nor the offer, issue or sale of Shares shall under any circumstances constitute a representation that the information contained in this Prospectus is correct as of any time subsequent to the date of this Prospectus. To reflect

material changes, this Prospectus may from time to time be updated and intending subscribers should enquire of the Administrator or the Manager as to the issue of any later Prospectus or as to the issue of any reports and accounts of the Company.

Investment in the Company should be regarded as a long-term investment. There can be no guarantee that the objective of the Company or any Funds will be achieved. Potential investors must review the section "Risk Factors" of this Prospectus.

UNITED KINGDOM INVESTOR INFORMATION

The Company is a recognised collective investment scheme ("CIS") for the purposes of promotion into the United Kingdom ("UK") pursuant to section 264 of the Financial Services and Markets Act 2000 ("FSMA") of UK. Prospectus will be distributed in the United Kingdom by or on behalf of the Company and is approved by Invesco UK Services Limited, which is regulated by Financial Conduct Authority.

This Prospectus is issued in the UK by Invesco UK Services Limited, which is authorised and regulated in the conduct of its investment business by the Financial Conduct Authority (the "FCA"). Prospective investors in the UK are advised that all, or most, of the protections offered by the UK regulatory system will not apply to an investment in the Company and that compensation will not be available under the UK Financial Services Compensation Scheme.

Invesco UK Services Limited is acting for the Company in relation to the Prospectus and all matters relating to it and Invesco UK Services Limited or any of its associates may have an interest or position in Shares of the Company. It is not acting for, or advising or treating as its customer, any other person (unless other arrangements apply between Invesco UK Services Limited and such person) in relation to investment in the Company.

Important

A United Kingdom investor who enters into an investment agreement with the Company to acquire Shares in response to the Prospectus will not have the right to cancel the agreement under the cancellation rules made by the FCA in the United Kingdom because that investor will not have received any advice in relation to an investment in a Fund of the Company. The agreement will be binding upon acceptance of the order by the Company.

The Company does not carry on any regulated activities from a permanent place of business in the United Kingdom and United Kingdom investors are advised that most of the protections afforded by the United Kingdom regulatory system will not apply to an investment in a Fund of the Company. Shareholders in the Company may not be protected by the Financial Services Compensation Scheme established in the United Kingdom.

Any investor wishing to make a complaint regarding any aspect of the Company or its operations may do so directly to the Company or to Invesco UK Services Limited.

Potential investors should note that the investments of a Fund are subject to normal market fluctuations and other risks inherent in investing in shares and other securities, in addition to the additional risks associated with investment in certain of the Funds, as described under the "Investment Objectives and Policies" and "Risk Factors" sections of the Prospectus and in the Supplements for the relevant Funds.

The value of investments and the income from them, and therefore the value of, and income from, Shares of each Class relating to each Fund can go down as well as up and an investor may not get back the amount he invests. Changes in exchange rates between currencies may also cause the value of the investment to diminish or increase.

Application and Redemption Procedures

The attention of investors is drawn to the application and redemption procedures contained in the Prospectus and the relevant Supplement in particular with regard to the deadlines for the relevant Funds. Any person wishing to obtain information in relation to prices of Shares and any Shareholder wishing to arrange for repurchase of Shares may do so at the address below. Application and redemption requests should be sent to the Administrator in Ireland details of which are contained on the Application Form.

UNITED STATES

The offering and sale of the Shares to persons that are not United States Persons will be exempt from registration pursuant to Regulation S promulgated under the United States Securities Act of 1933 Act, as amended (the "1933 Act").

The Shares have not been and will not be registered under the 1933 Act, nor have they been registered for sale under the laws of any state of the United States and, therefore, the Shares may not be sold, offered or otherwise transferred to a United States Person. The Shares offered hereby have not been approved or disapproved by the United States Securities and Exchange Commission ("**SEC**"), by the securities regulatory authority of any U.S. state, or by any similar authority of any other country or jurisdiction, and neither the SEC nor any such authority will do so. The Funds have not been and will not be registered under the United States Investment Company Act of 1940, as amended (the "**1940 Act**").

CANADA

The distribution of Shares is being made primarily outside Canada and will only be made in Canada only on a private placement basis to the residents of Canada, excluding residents of the Yukon, Northwest Territories and Nunavut, pursuant to section 2.3 (the "Accredited Investor Exemption") of National Instrument 45-106 – Prospectus and Registration Exemptions, of the Canadian Securities Administrators ("NI 45-106"). Accordingly, the distribution is exempt from the requirements in Canada that the Manager prepare and file a prospectus with the relevant securities regulatory authorities. No securities regulatory authority in Canada has reviewed or in any way passed upon this Prospectus or merits of the securities described in this Prospectus. Any representation to the contrary is an offence.

Resale Restrictions

Any resale of Shares in Canada must be made in accordance with applicable Canadian securities laws, which will vary depending on the relevant jurisdiction, and which may require resales to be made in accordance with exemptions from registration and prospectus requirements. Investors in Canada are advised to seek legal advice prior to any resale of the Shares.

Representations of Investors

An investor in Shares who is resident in Canada must provide written certification to the Fund, the Company and any dealer with whom the order was placed in their subscription agreement that such investor (a) is an "accredited investor" as defined in section 1.1 of NI 45-106 (other than a person described in paragraph (m) of such definition that was created or is used solely to purchase or hold Shares as an accredited investor); (b) is purchasing Shares as principal; and (c) is either (i) purchasing Shares from a dealer that is registered with the securities regulatory authority of the applicable province or territory of Canada, as an investment dealer or an exempt market dealer, each as defined in National Instrument 31-103 – Registration Requirements, Exemptions and Ongoing Registrant Obligations ("**NI 31-103**"), or (ii) a "Canadian Permitted Client" and is purchasing the Shares from a person or company who is entitled to rely upon the International Dealer Exemption provided for in section 8.18 of NI 31-103.

The Manager is required to, and will, in accordance with NI 45-106, deliver to the applicable securities regulatory authorities in Canada personal information ("personal information") pertaining to the purchaser as required to be disclosed in Schedule I of Form 45-106F1 (including its name, address, telephone number and the number and value of the Shares purchased), which form is required to be filed by the Manager under NI 45-106. In Ontario, such information is being collected indirectly by the Ontario Securities Commission (the "**OSC**") under the authority granted to it under securities legislation of Ontario and is being collected for the purposes of the administration and enforcement of securities legislation in Ontario. The public official in Ontario who can answer questions about the OSC's indirect collection of such personal information is the Administrative Assistant to the Director of Corporate Finance at the OSC, Suite 1903, Box 55, 20 Queen Street West, Toronto, Ontario M5H 3S8, Telephone: (416) 593-8086. The investor's name, address, telephone number and other specified information, including the number of the Shares it has purchased and the aggregate purchase price to the investor, may be disclosed to other Canadian securities regulatory authorities and may become available to the public in accordance with the requirements of applicable laws. By placing an order to purchase Shares, the purchaser consents to the disclosure of such information.

Language

By purchasing the Shares, each investor in Canada is deemed to acknowledge that its express wish is that all documents evidencing or relating in any way to the sale of the Shares be drafted in the English language only.

Taxation and Eligibility for Investment

Any discussion of taxation and related matters contained in this Prospectus does not address Canadian tax considerations. Canadian investors should consult with their own legal and tax advisers with respect to the

tax consequences of an investment in the Shares in their particular circumstances and with respect to the eligibility of the Shares for investment by such investor under relevant Canadian legislation and regulations.

Rights of Action for Damages or Rescission

Securities legislation in certain of the provinces and territories of Canada provides purchasers with rights of rescission or damages, or both, where an offering memorandum or any amendment to it contains a misrepresentation. In certain provinces and territories of Canada, this Prospectus may be considered an "offering memorandum". A "misrepresentation" is an untrue statement of a material fact or an omission to state a material fact that is required to be stated or that is necessary to make any statement not misleading or false in the light of the circumstances in which it was made. These remedies must be commenced by the purchaser within the time limits prescribed and are subject to the defences contained in the applicable securities legislation. Purchasers should refer to the applicable provisions of the securities legislation of their province for the particulars of these rights or consult with a legal adviser.

The following is a summary of the statutory rights of rescission or damages, or both, under securities legislation in those of the provinces of Canada where such summary is required to be disclosed under the relevant securities legislation, and as such, is subject to the express provisions of the legislation and the related regulations and rules. The rights described below are in addition to, and without derogation from, any other right or remedy available at law to purchasers of the securities.

Ontario Purchasers

Ontario securities legislation provides that where an offering memorandum is delivered to a purchaser and contains a misrepresentation, the purchaser will, except as provided below, have a statutory right of action for damages or for rescission against the issuer, without regard to whether the purchaser relied on the misrepresentation. If the purchaser elects to exercise the right of rescission, the purchaser will have no right of action for damages against the issuer. No such action shall be commenced more than, in the case of an action for rescission, 180 days after the date of the transaction that gave rise to the cause of action, or, in the case of any action other than an action for rescission, the earlier of: (i) 180 days after the purchaser first had knowledge of the facts giving rise to the cause of action, or (ii) three years after the date of the transaction that gave rise to the cause of action. The Ontario legislation provides a number of limitations and defences to such actions, including: (a) the issuer is not liable if it proves that the purchaser purchased the securities with knowledge of the misrepresentation; (b) in an action for damages, the issuer shall not be liable for all or any portion of the damages that the issuer proves do not represent the depreciation in value of the securities as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which the securities were offered.

These rights are not available for a purchaser that is: (a) a Canadian financial institution, meaning either: (i) an association governed by the *Cooperative Credit Associations Act* (Canada) or a central cooperative credit society for which an order has been made under section 473(1) of that Act; or (ii) a bank, loan corporation, trust company, trust corporation, insurance company, treasury branch, credit union, caisse populaire, financial services cooperative, or league that, in each case, is authorized by an enactment of Canada or a province or territory of Canada to carry on business in Canada or a province or territory of Canada; (b) a Schedule III bank, meaning an authorized foreign bank named in Schedule III of the Bank Act (Canada); (c) the Business Development Bank of Canada incorporated under the Business Development Bank of Canada Act (Canada); or (d) a subsidiary of any person referred to in clauses (a), (b) or (c), if the person owns all of the voting securities of the subsidiary, except the voting securities required by law to be owned by directors of that subsidiary.

New Brunswick Purchasers

New Brunswick securities legislation provides that where any information relating to an offering that is provided to a purchaser of the securities contains a misrepresentation, a purchaser who purchases the securities shall be deemed to have relied on the misrepresentation if it was a misrepresentation at the time of purchase. Such purchaser has a right of action for damages against the issuer or a selling security holder on whose behalf the distribution is made, or may elect to exercise a right of rescission against the issuer or any selling security holder, in which case the purchaser shall have no right of action for damages. No such action shall be commenced more than, in the case of an action for rescission, 180 days after the date of the transaction that gave rise to the cause of action or, in the case of any action, other than an action for rescission, the earlier of (i) one year after the purchaser first had knowledge of the facts giving rise to the cause of action, and (ii) six years after the date of the transaction that gave rise to the cause of action. The New Brunswick legislation provides a number of limitations and defences to such actions, including: (a) the issuer or a selling security holder is not liable if it proves that the purchaser purchased the securities with

knowledge of the misrepresentation; (b) in an action for damages, the issuer or a selling security holder shall not be liable for all or any portion of the damages that it proves do not represent the depreciation in value of the securities as a result of the misrepresentation relied upon; and (c) in no case shall the amount recoverable exceed the price at which the securities were offered.

Nova Scotia Purchasers

Nova Scotia securities legislation provides that in the event that an offering memorandum or a record incorporated by reference in an offering memorandum, together with any amendments thereto, or any advertising or sales literature (as defined in the Nova Scotia securities legislation) contains a misrepresentation, a purchaser who purchases the securities referred to in it is deemed to have relied upon such misrepresentation if it was a misrepresentation at the time of purchase. Such purchaser has a statutory right of action for damages against the seller (which includes the issuer) and, subject to certain additional defences, the directors of the seller. Alternatively, the purchaser while, still an owner of the securities, may elect instead to exercise a statutory right of rescission against the issuer, in which case the purchaser shall have no right of action for damages against the seller or the directors. No such action shall be commenced to enforce the right of action for rescission or damages more than 120 days after the date payment was made for the securities (or after the date on which initial payment was made for the securities where payments subsequent to the initial payment are made pursuant to a contractual commitment assumed prior to, or concurrently with, the initial payment). The Nova Scotia legislation provides a number of limitations and defences, including: (a) no person or company is liable if the person or company proves that the purchaser purchased the securities with knowledge of the misrepresentation; (b) in the case of an action for damages, no person or company is liable for all or any portion of the damages that it proves do not represent the depreciation in value of the securities as a result of the misrepresentation; and (c) in no case will the amount recoverable in any action exceed the price at which the securities were offered to the purchaser.

A person or company, other than the issuer, is not liable with respect to any part of the offering memorandum or any amendment to the offering memorandum not purporting (a) to be made on the authority of an expert or (b) to be a copy of, or an extract from, a report, opinion or statement of an expert, unless the person or company (i) failed to conduct a reasonable investigation to provide reasonable grounds for a belief that there had been no misrepresentation or (ii) believed that there had been a misrepresentation.

A person or company, other than the issuer, will not be liable if that person or company proves that: (a) the offering memorandum or any amendment to the offering memorandum was sent or delivered to the purchaser without the person's or company's knowledge or consent and that, on becoming aware of its delivery, the person or company gave reasonable general notice that it was delivered without the person's or company's knowledge or consent; (b) after delivery of the offering memorandum or any amendment to the offering memorandum and before the purchase of the securities by the purchaser, on becoming aware of any misrepresentation in the offering memorandum or any amendment to the offering memorandum, the person or company withdrew the person's or company's consent to the offering memorandum or any amendment to the offering memorandum, and gave reasonable general notice of the withdrawal and the reason for it; or (c) with respect to any part of the offering memorandum or any amendment to the offering memorandum purporting (i) to be made on the authority of an expert, or (ii) to be a copy of, or an extract from, a report, an opinion or a statement of an expert, the person or company had no reasonable grounds to believe and did not believe that (A) there had been a misrepresentation, or (B) the relevant part of the offering memorandum or any amendment to the offering memorandum did not fairly represent the report, opinion or statement of the expert, or was not a fair copy of, or an extract from, the report, opinion or statement of the expert.

Saskatchewan Purchasers

Saskatchewan securities legislation provides that in the event that an offering memorandum, together with any amendments thereto, contains a misrepresentation, a purchaser who purchases such securities has, without regard to whether the purchaser relied on the misrepresentation, a right of action for damages against: (a) the issuer and the selling security holder on whose behalf the distribution is made; (b) every promoter and director of the issuer or the selling security holder, as the case may be, at the time the offering memorandum or any amendment to it was sent or delivered; (c) every person or company whose consent has been filed respecting the offering, but only with respect to reports, opinions or statements that have been made by them; (d) every person who or company that, in addition to the persons or companies mentioned in clauses (a) to (c), signed the offering memorandum or the amendment to the offering memorandum; and (e) every person who or company that sells securities on behalf of the issuer and the

selling security holder under the offering memorandum or amendment to the offering memorandum. If such purchaser elects to exercise a statutory right of rescission against the issuer or selling security holder, it shall have no right of action for damages against that person or company. No such action for rescission or damages shall be commenced more than, in the case of a right of rescission, 180 days after the date of the transaction that gave rise to the cause of action or, in the case of any action, other than an action for rescission, before the earlier of (i) one year after the purchaser first had knowledge of the facts giving rise to the cause of action, and (ii) six years after the date of the transaction that gave rise to the cause of action.

The Saskatchewan legislation provides a number of limitations and defences, including: (a) no person or company will be liable if the person or company proves that the purchaser purchased the securities with knowledge of the misrepresentation; (b) in the case of an action for damages, no person or company will be liable for all or any portion of the damages that it proves do not represent the depreciation in value of the securities as a result of the misrepresentation; and (c) in no case will the amount recoverable in any action exceed the price at which the securities were offered to the purchaser.

No person or company, other than the issuer, will be liable if the person or company proves that: (a) the offering memorandum or any amendment to it was sent or delivered without the person's or company's knowledge or consent and that, on becoming aware of it being sent or delivered, that person or company gave reasonable general notice that it was so sent or delivered; (b) after the filing of the offering memorandum or any amendment to it and before the purchase of securities by the purchaser, on becoming aware of any misrepresentation in the offering memorandum or any amendment to it, the person or company withdrew the person's or company's consent to it and gave reasonable general notice of the person's or company's withdrawal and the reason for it; (c) with respect to any part of the offering memorandum or any amendment to it purporting to be made on the authority of an expert, or purporting to be a copy of, or an extract from, a report, an opinion or a statement of an expert, that person or company had no reasonable grounds to believe and did not believe that (i) there had been a misrepresentation, or (ii) the part of the offering memorandum or any amendment to it did not fairly represent the report, opinion or statement of the expert or was not a fair copy of, or an extract from, the report, opinion or statement of the expert; (d) with respect to any part of the offering memorandum or any amendment to it purporting to be made on the person's or company's own authority as an expert or purporting to be a copy of or an extract from the person's or company's own report, opinion or statement as an expert that contains a misrepresentation attributable to failure to represent fairly his, her or its report, opinion or statement as an expert, (i) the person or company had, after reasonable investigation, reasonable grounds to believe, and did believe, that the part of the offering memorandum or any amendment to it fairly represented the person's or company's report, opinion or statement, or (ii) on becoming aware that the part of the offering memorandum or of any amendment to it did not fairly represent the person's or company's report, opinion or statement as an expert, the person or company immediately advised the Saskatchewan Securities Commission and gave reasonable general notice that such use had been made of it and that the person or company would not be responsible for that part of the offering memorandum or of the amendment to it; or (e) with respect to a false statement purporting to be a statement made by an official person or contained in what purports to be a copy of or extract from a public official document, the statement was a correct and fair representation of the statement or copy of or extract from the document and the person or company had reasonable grounds to believe, and did believe, that the statement was true.

The Saskatchewan legislation also provides that where an individual makes a verbal statement to a prospective purchaser that contains a misrepresentation relating to the security purchased and the verbal statement is made either before or contemporaneously with the purchase of the security, the purchaser has, without regard to whether the purchaser relied on the misrepresentation, a right of action for damages against the individual who made the verbal statement.

The Saskatchewan legislation provides a purchaser with the right to void the purchase agreement and to recover all money and other consideration paid by the purchaser for the securities if the securities are sold in contravention of Saskatchewan securities legislation, regulations or a decision of the Saskatchewan Financial Services Commission.

The Saskatchewan legislation also provides a right of action for rescission or damages to a purchaser of securities to whom an offering memorandum or any amendment to it was not sent or delivered prior to or at the same time as the purchaser enters into an agreement to purchase the securities, as required by the Saskatchewan legislation.

The Saskatchewan legislation also provides that a purchaser who has received an amended offering memorandum that was amended and delivered in accordance with such legislation has a right to withdraw from the agreement to purchase the securities by delivering a notice to the person who or company that is

selling the securities, indicating the purchaser's intention not to be bound by the purchase agreement, provided such notice is delivered by the purchaser within two business days of receiving the amended offering memorandum.

Enforcement of Legal Rights

Some of the Company's directors and officers, as well as certain experts named in the Prospectus, are located outside of Canada and, as a result, it may not be possible for purchasers in Canada to effect service of process within Canada upon the issuer or such persons. All or a substantial portion of the assets of the Company and of such persons may be located outside of Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the issuer or such persons outside of Canada.

SINGAPORE

The offer or invitation of the Shares of the Company, which is the subject of this Prospectus, does not relate to a CIS which is authorised under Section 286 of the Securities and Futures Act, Chapter 289 of Singapore (the "**SFA**") or recognised under Section 287 of the SFA. The Company is not authorised or recognised by the Monetary Authority of Singapore (the "**MAS**") and the Shares are not allowed to be offered to the retail public. This Prospectus and any other document or material issued in connection with the offer or sale is not a prospectus as defined in the SFA and accordingly, statutory liability under the SFA in relation to the content of prospectuses does not apply, and you should consider carefully whether the investment is suitable for you.

This Prospectus has not been registered as a prospectus with the MAS. UCITS Requirements	means the legislative and regulatory framework for the authorisation and supervision of UCITS, pursuant to the Regulations, in place in Ireland from time to time, whether under the terms of UCITS IV, UCITS V or otherwise.
UCITS IV	means Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities including any supplementing European Commission delegated regulations in force from time to time.
UCITS V	means Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities as regards depositary functions, remuneration and sanctions as amended from time to time and including any supplementing European Commission delegated regulations in force

from time to time.

Umbrella Cash Account

subscription monies received in respect of a Fund in advance of the issue of Shares will be held in an umbrella cash account in the name of the Company and will be treated as a general asset of the relevant Fund. Pending redemptions and distributions, including blocked redemptions or distributions, will, pending payment to the relevant investor, be held in the Umbrella Cash Account in the name of the Company.

United Kingdom or UK

means the United Kingdom of Great Britain and Northern Ireland.

United States or U.S. or US

means the United States of America, its territories, possessions and all areas subject to its jurisdiction (including the Commonwealth of Puerto Rico).

United States Person or U.S. Person

means a person that is: (a) a US person (as defined in Regulation S promulgated under the United States Securities Act of 1933, as amended); and (b) a non-United States person (as defined in the Commodity Futures Trading Commission Rule 4.7(a)(1)(iv).

Valuation Point

means the point in time by reference to which the Net Asset Value of a Fund is calculated as is specified in the Supplements for the relevant Fund.

Voting Shares

means the Shares of a particular Class that carry the right to vote at general meetings of the Company and the relevant Fund.

Website

means the website for each Fund as set out in the relevant Supplement, on which the Net Asset Value per Share and the capitalisation of the relevant Fund in its Base Currency will be published and on which this Prospectus, the Supplements, the key investor information document, including any relevant translation thereof, the Constitution, the latest financial reports and any other information in respect of the Company or any of the Funds, including various shareholder communications may be published.

In this Prospectus references to "**Euro**" and "**€**" are references to the lawful currency of Ireland, references to "**Sterling**" or "**£**" are to the lawful currency of the United Kingdom and references to "**US\$**" or "**US Dollars**" are to the currency of the United States. All references to the foregoing currencies shall include any successor currency.

4. INVESTMENT OBJECTIVE & POLICIES

The Constitution provides that the investment objective and policies for each Fund will be formulated by the Directors at the time of the creation of the Fund.

The investment objective of each Fund will be to seek to provide Shareholders with a Target Performance linked to the performance of a Reference Index or Reference Asset by directly or indirectly purchasing a portfolio of Transferable Securities that may (but is not obliged to) comprise all or a representative sample of the constituent securities of that Reference Index or Reference Asset. The selection of such Transferable Securities is based on the suitability of the securities, such as the geographical location of such securities (i.e. emerging or developed market securities), capitalisation or the liquidity of the components, to achieve the particular Target Performance of a Fund as described in the relevant Supplement. Each Fund may also use financial derivative instruments ("FDIs") and transactions and/or OTC derivatives to achieve the Target Performance.

In such Funds, the return that the Shareholder will receive will be dependent on the performance of the Transferable Securities, FDIs including OTC derivatives and the performance of any techniques used to link the FDIs, Transferable Securities, and OTC derivatives to the Reference Index or Reference Asset and thus the return Shareholders receive may not wholly correspond to the performance of the Reference Index or Reference Asset, depending on the structure of the relevant Fund as set out in the relevant Supplement. There is no assurance that the investment objective of any Fund whose performance is linked to the Reference Index or Reference Asset will actually be achieved.

The Directors may decide, if they consider it to be in accordance with the Investment Restrictions and the Regulations and in the interest of the Company or any relevant Fund, to change or substitute the existing Reference Index or Reference Asset of a Fund with another Reference Index or Reference Asset.

The Directors may, for instance decide to substitute such a Reference Index or Reference Asset in the following circumstances, as applicable:

- (a) the accuracy and availability of data of a particular Reference Index or Reference Asset has deteriorated;
- (b) the components of the Reference Index or Reference Asset would cause the Fund (if it were to follow the Reference Index or Reference Asset closely) to be in breach of the limits set out under "**Investment Restrictions**" and/or materially affect the taxation or fiscal treatment of the Company or any of its Shareholders;
- (c) the particular Reference Index or Reference Asset ceases to exist or, in the determination of the Directors, there is a material change in the formula for, or the method of, calculating a component of the Reference Index or Reference Asset or there is a material modification of a component of the Reference Index or Reference Asset;
- (d) the swap and other techniques or instruments described under "**Investment Restrictions**" which may be necessary for the implementation of the relevant Fund's Investment Objective cease to be available in a manner which is regarded as acceptable by the Directors;
- (e) the counterparty of swap agreements or other derivative instruments notifies the Company that there is limited liquidity in a portion of the component securities of the Reference Index or Reference Asset or it becomes impractical to invest in the components of the Reference Index or Reference Asset;
- (f) the Index Provider increases its licence fees to a level which the Directors consider excessive;
- (g) any successor Index Provider is not considered acceptable by the Directors;
- (h) a change of ownership of the relevant Index Provider and/or a change of name of the Relevant Index; or
- (i) a new index becomes available which supersedes the existing Reference Index;
- (j) a new index becomes available which is regarded as the market standard for investors in the particular market and/or would be regarded as of greater benefit to the Shareholders than the existing Index;

- (k) a liquid futures market in which a particular Fund is investing ceases to be available; or
- (l) an Index Provider or Reference Index ceases to be compliant with applicable provisions of the Benchmark Regulation.

The above list is indicative only and cannot be understood as being exhaustive or limiting the ability of the Directors to change the Reference Index or Reference Asset in any other circumstances as they consider appropriate. Any proposal by the Directors to change a Reference Index or Reference Asset is subject to the prior approval of the Shareholders of the relevant Fund by ordinary resolution. The Prospectus will be updated in case of substitution or change of the existing Reference Index or Reference Asset of a Fund for another Reference Index or Reference Asset in accordance with the requirements of the Central Bank.

The Investment Manager will rely solely on each Index Provider for information as to the composition and/or weighting of the securities that constitute each Reference Index. If the Investment Manager is unable to obtain or process such information in relation to any Reference Index on any Business Day, the most recently published composition and/or weighting of that Reference Index will be used for the purpose of all adjustments.

Any change in the investment objective or any material change to the investment policies of a Fund may only be made with the approval of an ordinary resolution of the Shareholders of the Fund. Subject and without prejudice to the preceding sentence of this paragraph, in the event of a change of investment objective and/or policies of a Fund, a reasonable notification period must be given to each Shareholder of the Fund to enable a Shareholder to have its Shares repurchased prior to the implementation of such change.

Further details of the investment objective and policies for each Fund are set out in the relevant Supplement.

REFERENCE TO BENCHMARKS

The Reference Indices used by the Funds are each provided by an administrator (as defined in the Benchmark Regulation) which is either included on the ESMA Register that maintained in accordance with Article 36 of the Benchmark Regulation, or is in the process applying for inclusion on the ESMA Register.

As of the date hereof, the benchmark administrators of the Funds' Reference Indices that are included on the ESMA Register are:

- FTSE International Ltd. (the administrator of the FTSE and Russell benchmarks)
- MSCI Limited (the administrator of the MSCI benchmarks)

As of the date hereof, the following benchmark administrators of the Funds' Reference Indices are yet to be included on the ESMA Register:

- Bloomberg Finance L.P. / UBS Securities LLC (provider of the Bloomberg Commodity indices)
- Goldman Sachs International (provider of the Goldman Sachs Equity Factor Index series)
- Morningstar UK Limited (provider of the Morningstar MLP indices)
- NASDAQ Inc. (provider of the KBW NASDAQ index)
- NASDAQ OMX (provider of the NASDAQ indices)
- Nikkei Inc / Tokyo Stock Exchange (provider of the JPX-Nikkei indices)
- Solactive AG (provider of the Solactive indices)
- Standard & Poor's Financial Services LLC (provider of the S&P indices)
- STOXX Limited (provider of the EURO STOXX, STOXX Europe and STOXX Japan indices)
- Wiener Börse AG (provider of the Russian Depository index)

In accordance with Article 51 of the Benchmark Regulation, the benchmark administrators listed above that are not yet included on the ESMA Register can avail of the transitional provisions afforded under the Regulation. On that basis they can continue to make such Reference Indices available for use in the European Union until 1 January 2020.

The Company is monitoring the ESMA Register on a continuous basis. Any updates that impact the benchmark administrators of the Funds' Reference Indices shall be reflected in the Prospectus at the next opportunity.

5. INVESTMENT RESTRICTIONS AND PERMITTED INVESTMENTS

The investment restrictions specific to a Fund will be formulated by the Directors at the time of the creation of such Fund. The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interest of the Shareholders, in order to comply with the laws and regulations of the countries where Shares of the Fund are placed and any such additional investment restrictions specific to a Fund will appear in the Supplement for the relevant Fund. Unless otherwise specified in the relevant Supplement, a Fund shall not invest more than 10% of its net assets in other UCITS or other open or closed ended CIS.

In accordance with the changes introduced in the German Investment Tax Act, 2018 which are effective from 1 January 2018, please note that all of the Funds of the Company have a Minimum Equity Ratio of 85%, unless otherwise listed below. Please note that the actual equity ratios will be published by our financial data service provider in Germany, WM Daten.

List of Funds which have a Minimum Equity Ratio less than 85%

Invesco Commodity Composite UCITS ETF;

Invesco Bloomberg Commodity UCITS ETF; and

Invesco Bloomberg Commodity Ex-Agriculture UCITS ETF.

Each of the foregoing Funds has a Minimum Equity Ratio of 0%.

APPENDIX II OF THIS PROSPECTUS OUTLINES THE PERMITTED INVESTMENTS AND GENERAL INVESTMENT RESTRICTIONS APPLYING TO EACH FUND.

PLEASE SEE THE RELEVANT SUPPLEMENT FOR EACH FUND FOR DETAILS OF ANY INVESTMENT RESTRICTIONS SPECIFIC TO THAT FUND.

FOR THE AVOIDANCE OF DOUBT, ANY ADDITIONAL FUND SPECIFIC INVESTMENT RESTRICTIONS OUTLINED IN THE RELEVANT SUPPLEMENT FOR THAT FUND MAY BE MORE RESTRICTIVE THAN THE INVESTMENT RESTRICTIONS SET OUT IN APPENDIX II TO THIS PROSPECTUS.

The permitted investments and general investment restrictions applying to each Fund set out in Appendix II beneath the heading "Investment Restrictions" are in accordance with the Regulations and the Central Bank Regulations.

Each of the Funds' investments will be limited to investments permitted by the Regulations. The limits on investments shall apply at the time of the purchase of the investments. If the limits referred to in the Supplement or Appendix II (where relevant) are exceeded for reasons beyond the control of the Company, or as a result of the exercise of subscription rights, the Company shall ensure that the Fund will adopt as a priority objective for its sales transactions the remedying of that situation taking due account of the interests of Shareholders.

INDEX TRACKING FUNDS

- (a) Notwithstanding the provisions of paragraph 2.3 of Appendix II, a Fund may, in accordance with the Constitution, invest up to 20% of its net assets in shares and/or debt securities issued by the same body where the investment policy of the Fund is to replicate or reference an index. The index must be recognised by the Central Bank in accordance with the Central Bank Regulations.
- (b) The limit in paragraph (a) may be raised to 35%, and applied to a single issuer, where this is justified by exceptional market conditions as disclosed in the relevant Supplement.
- (c) The reference in paragraph (a) to replication of the composition of a shares or debt securities index shall be understood as replication of the composition of the underlying assets of the index, including the use of derivatives or other techniques as referred to in Regulation 48A.

TRACKING ERROR

The "Tracking Error" of each Fund (being the standard deviation of the difference in returns between the Fund and the Reference Index) will be set out in the Supplement for the relevant Fund.

The annual and half-yearly reports will state the size of the Tracking Error at the end of the period under review. The annual report will provide an explanation of any divergence between the anticipated and realised Tracking Error for the relevant period.

Exposure to the Reference Index may be affected by rebalancing costs, in particular where the Reference Index undergoes significant rebalancing or where constituents are not very liquid or have restrictions in terms of accessibility. Rebalancing costs are a factor of the rebalancing frequency of the underlying Reference Index, the constituents' weighting adjustments and/or the number of constituents being replaced on each rebalancing day, and the transaction costs incurred to implement such changes. High rebalancing costs will generally deteriorate the relative performance between the Fund and the Reference Index. The rebalancing frequency and any rebalancing costs are detailed for each Fund in the relevant supplement.

EFFICIENT PORTFOLIO MANAGEMENT

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank, employ techniques and instruments relating to Transferable Securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the relevant Fund and the general provisions of UCITS V. These techniques and instruments may include investments in swaps (which may be used to manage currency risk and interest rate risk). More information on the use of FDI and efficient portfolio management is set out in Appendix III. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject to the Central Bank's requirements) may employ such techniques and instruments.

A Fund may enter into securities lending, repurchase and/or reverse repurchase agreements for the purposes of efficient portfolio management only in accordance with the requirements and subject to any relevant regulations of the Central Bank.

HEDGED CLASSES

The Company may (but is not obliged to) enter into certain currency-related transactions in order to hedge the currency exposure of the assets of a Fund attributable to a particular Class into the currency of denomination of the relevant Class for the purposes of efficient portfolio management.

Where a Class of Shares is to be hedged, this will be disclosed in the Supplement for the Fund in which such Class is issued. Any currency exposure of a Class may not be combined with or offset against that of any other Class of a Fund. The currency exposure of the assets attributable to a Class may not be allocated to other Classes. Where the Investment Manager seeks to hedge against currency fluctuations, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value and hedged positions will be kept under review to ensure that over-hedged positions do not exceed the permitted level. This review will also incorporate a procedure to ensure that positions in excess of 100% of Net Asset Value will not be carried forward from month to month. To the extent that hedging is successful for a particular Class, the performance of the Class is likely to move in line with the performance of the underlying assets, with the result that investors in that Class will not gain/ lose if the Class currency falls/ rises against the Base Currency.

In addition, a Class designated in a currency other than the Base Currency may be hedged against exchange rate fluctuation risks between the designated currency of the Class and the Base Currency. Any financial instruments used to implement such strategies with respect to one or more Classes shall be assets/liabilities of the Fund as a whole but will be attributable to the relevant Class(es) and the gains/losses on, and the costs of, the relevant financial instruments will accrue solely to the relevant Class. However, investors should note that there is no segregation of liability between Share Classes.

The Company may also (but is not obliged to) enter into certain currency-related transactions in order to hedge the currency exposure of a Fund where the Fund invests in assets denominated in currencies other than the Base Currency.

LEVERAGE

It is not the intention of the Company that any Fund be leveraged however where a Fund is leveraged it will be disclosed, as appropriate, in the relevant Supplement for the relevant Fund.

BORROWING AND LENDING POWERS

The Company may borrow up to 10% of a Fund's net assets at any time for the account of any Fund and the Depositary may charge the assets of such Fund as security for any such borrowing, provided that such borrowing is only for temporary purposes. Any particular borrowing restrictions for a Fund will appear in the Supplement for the relevant Fund. Without prejudice to the powers of the Fund to invest in Transferable Securities, the Company may not lend cash to, or act as guarantor on behalf of, third parties. A Fund may acquire debt securities and securities which are not fully paid.

SETTLEMENT OF SUBSCRIPTIONS AND REDEMPTIONS

The Directors have resolved that Shares in the Funds may be issued in dematerialised (or uncertificated) form and that the Funds may apply for admission for clearing and settlement through a Recognised Clearing and Settlement System. To facilitate this arrangement, the Depositary (or its delegate) will maintain an Umbrella Cash Account at the relevant Recognised Clearing and Settlement System. Settlement of subscriptions for Shares by an Authorised Participant will take place on a delivery versus payment ("DVP") basis at the relevant Recognised Clearing and Settlement System. An Authorised Participant will arrange for delivery of the subscription monies to the Umbrella Cash Account maintained by the Depositary (or its delegate) who, in turn, will arrange for the simultaneous delivery to the Authorised Participant of the Shares for which it has subscribed.

Upon a redemption of Shares by an Authorised Participant, such transaction will also take place on a DVP basis at the relevant Recognised Clearing and Settlement System. The Authorised Participant will arrange for the delivery of Shares to the Depositary's (or its delegate's) Umbrella Cash Account who, in turn, will arrange for the simultaneous credit of the Umbrella Cash Account with the redemption proceeds.

TIMING OF PAYMENT

Payment in respect of subscription must be received in cleared funds into the relevant Umbrella Cash Account on the Settlement Date as outlined in the Supplement for the relevant Fund.

6. RISK FACTORS

GENERAL

The discussion below is of general nature and is intended to describe various risk factors which may be associated with an investment in the Shares of a Fund to which the attention of investors is drawn. See also the section of the relevant Supplement for a discussion of any additional risks particular to Shares of that Fund. However, these are not intended to be exhaustive and there may be other considerations that should be taken into account in relation to an investment. Investors should consult their own advisors before considering an investment in the Shares of a particular Fund. What factors will be of relevance to the Shares of a particular Fund will depend upon a number of interrelated matters including, but not limited to, the nature of the Shares, the Reference Index or Reference Asset (if applicable), the investments and assets of the Fund and the techniques used to link the investments and assets of the Fund to the Reference Index or Reference Asset (if applicable).

No investment should be made in the Shares of a particular Fund until careful consideration of all those factors has been made.

The investments of the Company in securities are subject to normal market fluctuations and other risks inherent in investing in securities. The value of investments and the income from them, and therefore the value of and income from Shares relating to each Fund can go down as well as up and an investor may not get back the amount he invests. Changes in exchange rates between currencies or the conversion from one currency to another may also cause the value of the investments to diminish or increase. **Due to the Subscription Charge and/or Redemption Charge which may be payable on the Shares, an investment in Shares (where such charges are levied) should be viewed as medium to long term.** An investment in a Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. In certain circumstances, Shareholders' rights to redeem Shares may be deferred or suspended.

Investors should note that in certain market conditions, securities held by the Funds may not be as liquid as they would be in normal circumstances. If a security cannot be sold in a timely manner, then it may be harder to obtain a reasonable price and there is a risk that the price at which the security is valued may not be realisable in the event of sale. The Funds may therefore be unable to readily sell such securities.

Risk factors may occur simultaneously and/or may compound each other resulting in an unpredictable effect on the value of the Shares. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Shares.

Achievement of Investment Objective: There is no assurance that any Fund will achieve its investment objective. The following are some, but not necessarily all, of the factors which may result in the value of the Shares varying from the value of the Reference Index or Reference Asset: investments in assets other than the constituents of the Reference Index or Reference Asset may give rise to delays or additional costs and taxes or a divergence in the return compared to an investment in the constituents of the Reference Index or Reference Assets, investment or regulatory constraints may affect the Company but not the constituents of the Reference Index or Reference Asset; the fluctuation in value of Fund's assets; and the existence of a cash position held by a Fund.

Segregation of Liability: Under the provisions of the Companies Act, the Directors shall maintain for each Fund a separate portfolio of assets. As between Shareholders, each portfolio of assets shall be invested for the exclusive benefit of the relevant Fund. The Shareholders shall only be entitled to the assets and profits of that Fund in which they participate. The Company shall be considered one single legal entity. With regard to third parties, in particular towards the Company's creditors, the Company shall be responsible for all liabilities incurred by a Fund exclusively based on the assets of this relevant Fund. Among the Shareholders, the liabilities of each Fund shall only be incurred to the respective Fund. While the provisions of the Companies Act provide for segregated liability between Funds, these provisions have yet to be tested in foreign courts, in particular, in satisfying local creditors' claims. Accordingly, it is not free from doubt that the assets of any Fund of the Company may not be exposed to the liabilities of other Funds of the Company. As at the date of this Prospectus, the Directors are not aware of any existing or contingent liability of any Fund of the Company.

Exchange Rates: An investment in the Shares may directly or indirectly involve exchange rate risk. Because the Net Asset Value of the Fund will be calculated in its Base Currency, the performance of any of its constituents denominated in another currency other than the Base Currency will also depend on the strength of such currency against the Base Currency. Equally, the currency denomination of any Fund asset in another currency than the Base Currency will involve exchange risk for the Fund. Furthermore, an investor

will be subject to exchange risk where he invests in a Fund whose Base Currency is different to the day to day functional circumstances of the investor.

Legal and Regulatory: The Company must comply with regulatory constraints or changes in the laws affecting it, the Shares, or the Investment Restrictions, which might require a change in the investment policy and objectives followed by a Fund. A Fund's assets may also be subject to change in laws or regulations and/or regulatory action which may affect their value. The Company and the Investment Manager may be or may become subject to unduly burdensome and restrictive regulation. In particular, in response to significant recent events in international financial markets, governmental intervention and certain regulatory measures which have been or may be adopted in certain jurisdictions. Two examples in particular are (1) The European Union (Short Selling) Regulations 2012 (SI No. 340/2012) implementing the Regulation (EU) No. 236/2012 of the European Parliament and of the Council of 14 March 2012, on short selling and certain aspects of credit default swaps (the "SSR") and (2) the recently enacted US piece of legislation, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act."). The SSR aims to address certain systemic risk concerns with naked or uncovered short selling by providing for, amongst other things, enhanced transparency relating to significant net short positions in specific financial instruments. Please refer to the section entitled "Short Selling Risk" in this prospectus for further information. The Dodd-Frank Act contains a range of measures designed to address systemic risk in the financial services sector and will significantly increase US regulation of investment funds and managers of investment funds. These and other significant changes in global financial regulation may present the Company with significant challenges and could result in losses to the Company.

Cash Position Risk: A Fund may hold a significant portion of its assets in cash or cash equivalents at the Investment Manager's discretion. If a Fund holds a significant cash position for an extended period of time, its investment returns may be adversely affected.

Concentration Risk: A Fund may invest a relatively large percentage of its assets in issuers located in a single country, a small number of countries, or a particular geographic region. In these cases, the Fund's performance will be closely tied to the market, currency, economic, political, or regulatory conditions and developments in that country or region or those countries, and could be more volatile than the performance of more geographically-diversified funds.

In addition, a Fund may concentrate its investments in companies in a particular industry, market or economic sector. When a Fund concentrates its investments in a particular industry, market or economic sector, financial, economic, business, and other developments affecting issuers in that industry, market or sector will have a greater effect on the Fund than if it had not concentrated its assets in that industry, market or sector.

Further, investors may buy or sell substantial amounts of a Fund's shares in response to factors affecting or expected to affect a particular country, industry, market or sector in which the Fund concentrates its investments, resulting in abnormal inflows or outflows of cash into or out of the Fund. These abnormal inflows or outflows may cause the Fund's cash position or cash requirements to exceed normal levels, and consequently, adversely affect the management of the Fund and the Fund's performance.

Proprietary Investments/Seed Money: The assets under management at any time during the life of a Fund may include proprietary money (or "seed money") invested by one or more interested parties (such as Authorised Participants and Approved Counterparties) and such investment may constitute a significant portion of such assets under management. Investors should be aware that such an interested party may (i) hedge any of its investments in whole or part, thereby reducing or removing its exposure to the performance of the Fund; and (ii) redeem its investment in the Fund at any time, without notice to Shareholders. Such an interested party is under no obligation to take the interests of other Shareholders into account when making its investment decisions. There is no assurance that any such monies will continue to be invested in a Fund by an interested party for any particular length of time. As many of the expenses of the Fund are fixed, a higher amount of assets under management may reduce a Fund's expenses per Share and a lower amount of assets under management may increase a Fund's expenses per Share. As with any other redemption representing a material portion of a Fund's assets under management, a significant redemption of any such proprietary investment may affect the management and/or performance of a Fund and may, in certain circumstances (i) cause remaining investors' holdings to represent a higher percentage of a Fund's Net Asset Value, (ii) cause other investors in a Fund to redeem their investment, and/or (iii) lead the Directors, on consultation with the Investment Manager, to determine that a Fund has become unmanageable and to consider taking exceptional measures, such as terminating a Fund in accordance with the "Termination of a Fund" section, in which case Shareholders' investments would be redeemed in their entirety.

Currency Risk: A Fund may invest in securities that are denominated in currencies that differ from the Base Currency. Changes in the values of those currencies relative to the Base Currency may have a positive or negative effect on the values of the Fund's investments denominated in those currencies. A Fund may, but will not necessarily, invest in currency exchange contracts to help reduce exposure to different currencies, however there is no guarantee that these contracts will successfully do so. Also, these contracts may reduce or eliminate some or all of the benefit that a Fund may experience from favourable currency fluctuations.

Inaction by the Common Depositary and/or an International Central Securities Depositary: Investors that settle or clear through an ICSD will not be a registered Shareholder in the Company, they will hold an indirect beneficial interest in such Shares and the rights of such investors, where such person is a Participant in the ICSD, shall be governed by the terms and conditions applicable to the arrangement between such Participant and their ICSD and where the holder of the indirect beneficial interests in the Shares is not a Participant, shall be governed by their arrangement with their respective nominee, broker or Central Securities Depositary (as appropriate) which may be a Participant or have an arrangement with a Participant. The Company will issue any notices and associated documentation to the registered holder of the Shares i.e. the Common Depositary's Nominee, with such notice as is given by the Company in the ordinary course when convening general meetings. The Common Depositary's Nominee has a contractual obligation to relay any such notices received by the Common Depositary's Nominee to the Common Depositary which, in turn, has a contractual obligation to relay any such notices to the applicable ICSD, pursuant to the terms of its appointment by the relevant ICSD. The applicable ICSD will in turn relay notices received from the Common Depositary to its Participants in accordance with its rules and procedures. The Common Depositary is contractually bound to collate all votes received from the applicable ICSDs (which reflects votes received by the applicable ICSD from Participants) and the Common Depositary's Nominee is obligated to vote in accordance with such instructions. The Company has no power to ensure the applicable ICSD or the Common Depositary relays notices of votes in accordance with their instructions. The Company cannot accept voting instructions from any persons other than the Common Depositary's Nominee.

Payments: With the authorisation and upon the instruction of the Common Depositary's Nominee, any dividends declared and any liquidation and mandatory redemption proceeds are paid by the Company or its authorised agent (for example, the Paying Agent) to the applicable ICSD. Investors, where they are Participants, must look solely to the applicable ICSD for their share of each dividend payment or any liquidation or mandatory redemption proceeds paid by the Company or, where they are not Participants, they must look to their respective nominee, broker or Central Securities Depositary (as appropriate, which may be a Participant or have an arrangement with a Participant of the applicable ICSD) for any share of each dividend payment or any liquidation or mandatory redemption proceeds paid by the Company that relates to their investment.

Investors shall have no claim directly against the Company in respect of dividend payments and any liquidation and mandatory redemption proceeds due on Shares represented by the Global Share Certificate and the obligations of the Company will be discharged by payment to the applicable ICSD with the authorisation of the Common Depositary's Nominee.

Derivatives and Securities Financing Transactions Risk

General: The use of derivatives and Securities Financing Transactions may result in greater returns but may entail greater risk for your investment. Derivatives may be used as a means of gaining indirect exposure to a specific asset, rate or index and/or as part of a strategy designed to reduce exposure to other risks, such as interest rate or currency risk. Use of derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other investments. They also involve the risk of mispricing or improper valuation and the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index.

Investing in a derivative instrument could cause the relevant Fund to lose more than the principal amount invested. Also, suitable derivative transactions may not be available in all circumstances and there can be no assurance that such Fund will engage in these transactions to reduce exposure to other risks when that would be beneficial.

The prices of derivative instruments are highly volatile. Price movements of derivative contracts are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programmes and policies of governments, national and international political and economic events, changes in local laws and policies. In addition, governments from time to

time intervene, directly and by regulation, in certain markets, particularly markets in currencies and interest rate related futures and options. Such intervention often is intended directly to influence prices and may, together with other factors, cause all of such markets to move rapidly in the same direction because of, among other things, interest rate fluctuations. The use of derivatives also involves certain special risks, including (1) dependence on the ability to predict movements in the prices of securities being hedged and movements in interest rates; (2) imperfect correlation between the hedging instruments and the securities or market sectors being hedged; (3) the fact that skills needed to use these instruments are different from those needed to select a Fund's securities; and (4) the possible absence of a liquid market for any particular instrument at any particular time.

Securities Financing Transactions create several risks for the Company and its investors, including counterparty risk if the counterparty to a Securities Financing Transaction defaults on its obligation to return assets equivalent to the ones provided to it by the relevant Fund and liquidity risk if such Fund is unable to liquidate collateral provided to it to cover a counterparty default.

Securities Lending Risk: As with any extensions of credit, there are risks of delay and recovery. Should the borrower of securities fail financially or default in any of its obligations under any securities lending transaction, the collateral provided in connection with such transaction will be called upon. A securities lending transaction will involve the receipt of collateral. However there is a risk that the value of the collateral may fall and the relevant Fund suffer loss as a result.

Repurchase Agreements: A Fund may enter into repurchase arrangements. Accordingly, such Fund will bear a risk of loss in the event that the other party to the transaction defaults on its obligation and the Fund is delayed or prevented from exercising its rights to dispose of the underlying securities. Such Fund will, in particular, be subject to the risk of a possible decline in the value of the underlying securities during the period in which the Fund seeks to assert its right to them, the risk of incurring expenses associated with asserting those rights and the risk of losing all or a part of the income from the agreement.

Collateral Risk: Collateral or margin may be passed by a Fund to a counterparty or broker in respect of OTC FDI transactions or Securities Financing Transactions. Assets deposited as collateral or margin with brokers may not be held in segregated accounts by the brokers and may therefore become available to the creditors of such brokers in the event of their insolvency or bankruptcy. Where collateral is posted to a counterparty or broker by way of title transfer, the collateral may be re-used by such counterparty or broker for their own purpose, thus exposing the relevant Fund to additional risk.

Risks related to a counterparty's right of re-use of any collateral include that, upon the exercise of such right of re-use, such assets will no longer belong to the relevant Fund and such Fund will only have a contractual claim for the return of equivalent assets. In the event of the insolvency of a counterparty, the relevant Fund shall rank as an unsecured creditor and may not recover its assets from the counterparty. More broadly, assets subject to a right of re-use by a counterparty may form part of a complex chain of transactions over which the relevant Fund or its delegates will not have any visibility or control.

Portfolio Turnover Risk: Portfolio turnover generally involves a number of direct and indirect costs and expenses to the relevant Fund, including, for example, brokerage commissions, dealer mark-ups and bid/offer spreads, and transaction costs on the sale of securities and reinvestment in other securities. Nonetheless, a Fund may engage in frequent trading of investments in furtherance of its investment objective. The costs related to increased portfolio turnover have the effect of reducing a Fund's investment return, and the sale of securities by a Fund may result in the realisation of taxable capital gains, including short-term capital gains.

Listing: There can be no certainty that a listing on any stock exchange applied for by the Company will be achieved and/or maintained or that the conditions of listing will not change. Further, trading in Shares on a Relevant Stock Exchange may be halted pursuant to that Relevant Stock Exchange's rules due to market conditions and investors may not be able to sell their Shares until trading resumes.

Nominee Arrangements: Where an investor holds Shares via an Authorised Participant or other nominee or intermediary such Shareholder will typically not appear on the Register of the Company and may not therefore be able to exercise voting or other rights available to those persons appearing on the Register.

Political Factors, Emerging Market and Non-OECD Member State Assets: The performance of the Shares and/or the possibility to purchase, sell, or repurchase the Shares may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, the imposition of restrictions on the transfer of capital and changes in regulatory requirements. Such risks can be heightened in investments in, or relating to, emerging markets or non-OECD member states. In addition,

local custody services remain underdeveloped in many non-OECD and emerging market countries and there is a transaction and custody risk involved in dealing in such markets. In certain circumstances, a Fund may not be able to recover or may encounter delays in the recovery of some of its assets. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in emerging markets or non-OECD member states, may not provide the same degree of investor information or protection as would generally apply to major markets.

Fund Expenses: Returns on Shares will be net of all fees and expenses incurred in the establishment and ongoing running of the relevant Fund and may not be directly comparable to the yields which could be earned if any investment were instead made directly in the assets of the relevant Fund or the constituents of the Reference Index or directly in the Reference Asset.

Delivery Failure: In some securities markets, deliveries of securities and other Fund Assets and payments therefor may not be or are not customarily made simultaneously. Further due to the nature of the investment policy and structuring of transactions involving the Fund Assets the deliveries of securities and payments may not be made simultaneously. The Depositary or a sub-custodian may make or accept payment for or delivery of Fund Assets in such form and manner and shall not be contrary to the customs prevailing in the relevant market or among securities dealers or in accordance with the terms of the Depositary Agreement. The Company shall bear the risk that:-(i) the recipient of Fund Assets delivered by the Depositary or any sub-custodian may fail to make payment, for or return such Fund Assets or hold such Fund Assets or the proceeds of their sale in trust for the Depositary or the Company; and (ii) the recipient of payment for Fund Assets made by the Depositary or any sub-custodian including without limitation amounts paid as premium or margin on derivatives contracts may fail to deliver the Fund Assets (such failure to include, without limitation, delivery of forged or stolen Fund Assets) or to return such payment, or hold such payment in trust for the Depositary or the Company in each case whether such failure is total or partial or merely a failure to perform on a timely basis. Neither the Depositary nor any sub-custodian shall be liable to the Company for any loss resulting from any of the foregoing events or from the liquidation, insolvency or bankruptcy of such recipient.

Securities Lending Arrangements and Repurchase Transactions: The Company may engage in securities lending or repurchase/reverse repurchase agreements over a period of time with one or more counterparties (as further described in the section above headed "Repurchase/Reverse Repurchase Agreements and Securities Lending"). Collateral which meets the requirements of the Collateral Policy will be posted by the relevant counterparty. A default by the counterparty to such a securities lending arrangement or repurchase/reverse repurchase agreements, or a fall in the value of the collateral posted in connection with such transactions below that of the value of the securities lent or the cash leg of the repurchase/reverse repurchase agreements may result in a reduction in the value of the relevant Fund and the Fund may suffer loss as a result. The Company will use reasonable endeavours to ensure that any Collateral transferred to it in connection with such transactions will be segregated from the bankruptcy estate of the counterparty and not available to the creditors of the counterparty. Shareholders are advised, however, that third parties may seek to challenge such segregation which, if successful, would result in a total loss of both the collateral and the assets of the Fund that were lent or otherwise transferred. In the case of cash collateral, as a matter of applicable law, such cash Collateral might not be held in a segregated manner in favour of the Company, which may result in a total loss of cash Collateral upon insolvency of the relevant counterparty.

Reinvestment of Cash Collateral Risk: As a Fund may reinvest cash Collateral received, subject to the conditions and within the limits laid down by the Central Bank, a Fund reinvesting cash Collateral will be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

Short Selling Risk: UCITS are permitted to create synthetic short positions through the use of FDIs. A short sale means any sale of a security which the seller does not own at the time of entering into the agreement to sell including such a sale where at the time of entering into the agreement to sell the seller has borrowed or agreed to borrow the security for delivery at settlement. The seller sells the borrowed or agreed to be borrowed securities in anticipation of a decline in price of the relevant security. The benefit to the seller where the value of the security declines is the difference between the price at which the security is sold and the cost of repurchasing the borrowed security in order to return it to the person from whom it was borrowed. A synthetic short position allows a Fund to achieve a similar economic outcome without short selling the physical securities. Synthetic short selling may be achieved through the use of a variety of FDIs including contracts for differences, futures and options. Please refer to Appendix III for further details in relation to the risks attached to trading each of these FDIs.

Short Selling Regulations

Pursuant to the European Union (Short Selling) Regulations 2012 (SI No. 340/2012) implementing the Regulation (EU) No. 236/2012 of the European Parliament and of the Council of 14 March 2012, on short selling and certain aspects of credit default swaps (the “SSR”), information on net short positions, in shares admitted to trading on a trading venue in the EU (except where the principal trading venue of that instrument is outside the EU) or sovereign debt issued by a Member State or the EU, is required to be notified to the relevant competent authority as prescribed in the SSR and the delegated regulations adopted by the European Commission to supplement the SSR. In brief, under the SSR, a short position may be generated either by the short selling of physical shares or sovereign debt or by entering into a transaction relating to a financial instrument, other than shares or sovereign debt, where the effect is to confer a financial advantage on the person entering in to the transaction in the event of a decrease in the price or value of the relevant share or sovereign debt instrument. The term ‘financial instrument’ is defined by reference to Section C of Annex I to Directive 2004/39/EC (“MiFID”) and includes Transferable Securities, Money Market Instruments, units in collective investment schemes and a broad range of derivatives referencing various underlying investments. Accordingly, the SSR notification requirements cover net short positions created by the use of FDIs such as options, futures, index-related instruments, contracts for differences and spread bets relating to shares or sovereign debt.

The SSR and the delegated regulations set out the deadlines by which notifications of net short positions must be made to the relevant competent authority and the thresholds at which a notification requirement is triggered. The thresholds, in the case of shares, are set by reference to the value of the short position relative to the issued share capital of the issuer and, in the case of sovereign debt, by reference to the total amount of outstanding issued sovereign debt. Depending on the value of the short position, notifications may constitute private notifications to the relevant competent authority or public disclosure where information on net short positions notified will be available to the public.

In order to comply with the SSR, where a Fund is engaging in synthetic shorting of shares or sovereign debt, the Company must be aware of the notification and disclosure obligations under the SSR. Failure to adhere to the notification and disclosure requirements under the SSR could result in losses to the Company.

Compliance with the SSR and the delegated regulations may represent a significant increase in the administrative burden on the Company in respect of Funds impacted by the SSR with inevitable adverse cost implications.

Cybersecurity Risk: As part of their business, the Company's delegates process, store and transmit electronic information, including information relating to the transactions of the Company and its Funds and personally identifiable information of the Shareholders. The Company's delegates have procedures and systems in place to protect such information and prevent data loss and security breaches. However, such measures cannot provide absolute security. The techniques used to obtain unauthorised access to data, disable or degrade service, or sabotage systems change frequently and may be difficult to detect for long periods of time. Hardware or software acquired from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Network connected services provided by third parties to the Company's delegates may be susceptible to compromise, leading to a breach of the Company's delegates' networks. The systems or facilities of the Company's delegates may be susceptible to employee error or malfeasance, government surveillance, or other security threats. Online services provided by the Company's delegates to Shareholders may also be susceptible to compromise. Breach of the Company's delegates' information systems may cause information relating to the transactions of the Company and its Funds and personally identifiable information of the Shareholders or other persons to be lost or improperly accessed, used or disclosed. The Company's delegates' service providers may be subject to the same electronic information security threats as the Company's delegates. If a service provider fails to adopt or adhere to adequate data security policies, or in the event of a breach of its networks, information relating to the transactions of the Company and its Funds and personally identifiable information of the Shareholders or other persons may be lost or improperly accessed, used or disclosed. The loss or improper access, use or disclosure of the Company's delegates' proprietary information may cause the Company's delegates and the Company and its Funds to suffer, among other things, financial loss, the disruption of its business, liability to third parties, regulatory intervention or reputational damage. Any of the foregoing events could have a material adverse effect on the Company, its Funds and Shareholders' investments therein.

Changes in the UK Political Environment: Changes in the UK political environment following the UK's decision by referendum to exit from the EU may lead to political, legal, tax and economic uncertainty. This may impact general economic conditions in the UK. It is not clear whether and to what extent EU regulations

generally would apply with respect to the Investment Manager in the case of a UK exit, but it is possible that investors would be subject to fewer regulatory protections than would otherwise be the case. A UK exit may adversely affect the Investment Manager's ability to access markets, make investments, attract and retain employees or enter into agreements (on its own behalf or on behalf of the Company or the Funds) or continue to work with non-UK counterparties and service providers, all of which could result in increased costs to the Company and/or the Funds.

RISK IN USING DERIVATIVES

General: As a Fund whose Target Performance is linked to a Reference Index or Reference Asset will often be invested in securities which differ from the constituents of the Reference Index or Reference Asset, derivative techniques will be used to achieve the Target Performance. While the prudent use of such derivatives can be beneficial, derivatives also involve risks which, in certain cases, can be greater than the risks presented by investing directly in the constituents of the Reference Index or Reference Asset. If so provided in their investment policies, the Funds may engage in various strategies in view of reducing certain of their risks and for attempting to enhance return. These strategies may include the use of derivative instruments such as options, warrants, swaps and/or futures. Such strategies may be unsuccessful and incur losses for the Funds. The following is a general discussion of important risk factors and issues concerning the use of derivatives that investors should understand before investing in a Fund. There may be transaction costs associated with the use of derivatives.

Control and Monitoring: Derivative products are highly specialised instruments that require investment techniques and risk analysis different from those associated with equity and fixed income securities. The use of derivative techniques requires an understanding not only of the relevant Reference Index or Reference Asset but also of the derivative itself. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to a Fund and the ability to forecast the relative price, interest rate or currency rate movements correctly.

Liquidity Risk: Liquidity risk exists when a particular instrument is difficult to purchase or sell. If a derivative transaction is particularly large or if the relevant market is illiquid as is the case with many privately negotiated derivatives, it may not be possible to initiate a transaction or liquidate a position at an advantageous price, or at all.

Credit Risk and Counterparty Risk: The Company on behalf of a Fund may enter into transactions in over-the-counter markets, which will expose the Fund to the credit of its counterparties. The Company on behalf of the Fund may enter into an OTC transaction, which exposes the Fund to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of the bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating the position and significant losses, including declines in the value of its investment during the period in which the Company seeks to enforce its rights, inability to realise any gains on its investment during such period and fees and expenses incurred in enforcing its rights. There is also a possibility that such OTCs are terminated due, for instance, to bankruptcy, supervening illegality or change in the tax or accounting laws relative to those at the time the agreement was originated. In such circumstances, investors may be unable to recover any losses incurred as such derivative contracts involve credit risk that could result in a loss to the relevant Fund.

In general, there is less government regulation and supervision of transactions in the OTC than of transactions entered into on recognised exchanges. OTC derivatives lack transparency as they are privately negotiated contracts and any information concerning them is usually only available to the contracting parties.

Although a Fund may enter into derivative transactions with one or more counterparties, there is no requirement for the Fund to execute transactions with more than one counterparty and consequently counterparty risk may be concentrated in a single counterparty or a small number of counterparties. Further, there is no agreement between counterparties and the Fund for any counterparty to substitute themselves for a counterparty which defaults under a derivative agreement or to make good any losses which a Fund may incur as a result of a counterparty default.

Legal Risk: The Company must comply with regulatory constraints or changes in the laws affecting it, the Shares, or the Investment Restrictions, which might require a change in the investment policy and objectives followed by a Fund. The Fund Assets, the Reference Index or Reference Asset and the derivative techniques used to link the two may also be subject to changes in law or regulations and/or regulatory action which may affect their value.

Market Risk: This is a general risk that applies to all investments meaning that the value of a particular derivative may change in a way which may be detrimental to a Fund's interests.

Settlement Risk: Delays in settlement may result from disputes over the terms of the contract (whether or not *bona fide*) since such markets may lack the established rules and procedures for swift settlement of disputes among market participants found in "exchange-based" markets.

Correlation Risk: The prices of financial derivative instruments may be imperfectly correlated to the prices of the underlying securities, for example, because of transaction costs and interest rate movements. The prices of exchange traded financial derivative instruments may also be subject to changes in price due to supply and demand factors.

Other Risks: Other risks in using derivatives include the risk of differing valuations of derivatives arising out of different permitted valuation methods and the inability of derivatives to correlate perfectly with underlying securities, rates and indices. Many derivatives, in particular OTC derivatives, are complex and often valued subjectively and the valuation can only be provided by a limited number of market professionals which often are acting as counterparties to the transaction to be valued. Inaccurate valuations can result in increased cash payment requirements to counterparties or a loss of value to a Fund. The value of any OTC derivatives shall be the value obtained from the counterparty or the Administrator and shall be valued daily. Such valuations will be approved or verified at least weekly by a party independent of the counterparty who shall either be the Administrator or sourced by the Administrator as appropriate and who has been approved for such purpose by the Depository. Derivatives do not always perfectly or even highly correlate or replicate the value of the securities, rates or indices they are designed to replicate. Consequently, a Fund's use of derivative techniques may not always be an effective means of, and sometimes could be counterproductive to, following such Fund's investment objective.

EPM Risk: The Company on behalf of a Fund may employ techniques and instruments relating to Transferable Securities, Money Market Instruments and/or other financial instruments in which it invests for efficient portfolio management purposes. Many of the risks attendant in utilising derivatives, as disclosed in the section entitled "Use of Derivatives" above, will be equally relevant when employing such efficient portfolio management techniques. In addition, particular attention is drawn to the sub-sections entitled "Credit Risk and Counterparty Risk" and "Securities Lending Arrangements and Repurchase Transactions". Investors should also be aware that from time to time, a Fund may engage with repurchase/reverse repurchase agreements counterparties and/or securities lending agents that are related parties to the Depository or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depository or other service provider in respect of the Company. Please refer to section "Potential Conflicts of Interest" for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

EMERGING MARKETS RISK

Where a Fund invests in securities in emerging markets, additional risks may be encountered. These include:

Accounting Standards: in emerging markets there is an absence of uniform accounting, auditing and financial reporting standards and practices.

Business Risks: in some emerging markets, for example Russia, crime and corruption, including extortion and fraud, pose a risk to businesses. Property and employees of underlying investments may become targets of theft, violence and/or extortion.

Country Risk: the value of the Fund's assets may be affected by political, legal, economic and fiscal uncertainties. Existing laws and regulations may not be consistently applied.

Currency Risk: the currencies in which investments are denominated may be unstable, may be subject to significant depreciation and may not be freely convertible.

Custody Risk: depositaries may not be able to offer the level of service and safe-keeping, settlement and administration of securities that is customary in more developed markets and there is a risk that the Fund will not be recognised as the owner of securities held on its behalf by a sub-custodian. As some of the Funds may invest in markets where the trading, settlement and custodial systems are not fully developed, the assets of a Fund which are traded in such markets and which have been entrusted to sub-custodians in such markets may be exposed to risk in circumstances in which the Depository will have no liability. This would be considered to be the case in emerging or frontier markets and countries such as Russia or China. Rules

regulating corporate governance are undeveloped and therefore may offer little protection to shareholders.

Disclosure: less complete and reliable fiscal and other information may be available to investors.

Legal: the legal infrastructure and accounting, auditing and reporting standards in certain countries in which investment may be made may not provide the same degree of investor protection or information to investors as would generally apply in major securities markets. Risks associated with many emerging market legal systems (for example the Russian legal system) include (i) the untested nature of the independence of the judiciary and its immunity from economic, political or nationalistic influences; (ii) inconsistencies among laws, presidential decrees and governmental and ministerial orders and resolutions; (iii) the lack of judicial and administrative guidance on interpreting applicable laws; (iv) a high degree of discretion on the part of government authorities; (v) conflicting local, regional and federal laws and regulations; (vi) the relative inexperience of judges and courts in interpreting new legal norms; and (vii) the unpredictability of enforcement of foreign judgements and foreign arbitration awards. There is no guarantee that further judicial reform aimed at balancing the rights of private and governmental authorities in courts and reducing grounds for re-litigation of decided cases will be implemented and succeed in building a reliable and independent judicial system.

Market Characteristics/ Liquidity and Settlement Risks: in general, emerging markets are still in the early stages of their development, have less volume, are less liquid and experience greater volatility than more established markets and many emerging markets are not highly regulated. When seeking to sell emerging market securities, little or no market may exist for the securities. The combination of price volatility and the less liquid nature of securities markets in emerging markets may, in certain cases, affect a Fund's ability to acquire or dispose of securities at the price and time it wishes to do so, and consequently may have an adverse impact on the investment performance of the Fund. Settlement of transactions may be subject to delay and administrative uncertainties.

Political Risk: the risk of government intervention is particularly high in the emerging markets because of both the political climate in many of these countries and the less developed character of their markets and economies. Government actions in the future could have a significant effect on economic conditions in such countries, which could affect private sector companies and the value of securities in a Fund's portfolio.

Tax: The taxation system in some emerging market countries is subject to varying interpretations, frequent changes and inconsistent enforcement at the federal, regional and local levels. Tax laws and practices in some emerging market countries are at an initial stage of development and are not as clearly established as in more developed countries.

Frontier Markets Risk: Investing in the securities of issuers operating in frontier emerging markets carries a high degree of risk and special considerations not typically associated with investing in more traditional developed markets. In addition, the risks associated with investing in the securities of issuers operating in emerging market countries are magnified when investing in frontier emerging market countries. These types of investments could be affected by factors not usually associated with investments in more traditional developed markets, including risks associated with expropriation and/or nationalisation, political or social instability, pervasiveness of corruption and crime, armed conflict, the impact on the economy of civil war, religious or ethnic unrest and the withdrawal or non-renewal of any licence enabling a Fund to trade in securities of a particular country, confiscatory taxation, restrictions on transfers of assets, lack of uniform accounting, auditing and financial reporting standards, less publicly available financial and other information, diplomatic development which could affect investment in those countries and potential difficulties in enforcing contractual obligations. These risks and special considerations make investments in securities in frontier emerging market countries highly speculative in nature and, accordingly, an investment in a Fund's shares must be viewed as highly speculative in nature and may not be suitable for an investor who is not able to afford the loss of their entire investment. To the extent that a Fund invests a significant percentage of its assets in a single frontier emerging market country, a Fund will be subject to heightened risk associated with investing in frontier emerging market countries and additional risks associated with that particular country.

SECONDARY MARKET RISK

Trading Risk: Even though the Shares are to be listed on one or more Relevant Stock Exchanges, there can be no certainty that there will be liquidity in the Shares on any Relevant Stock Exchange or that the market price at which the Shares may be traded on a Relevant Stock Exchange will be the same as or approximately equal to the Net Asset Value per Share. As the Shares may be dealt in by means of subscription and redemption, the Directors consider that large discounts or premiums in the Net Asset Value

of a Fund would not be sustainable. There can be no guarantee that once the Shares are listed on a Relevant Stock Exchange they will remain listed or that the conditions of listing will not change.

Trading in Shares on a Relevant Stock Exchange may be halted or suspended due to market conditions or for the reason that, in the Relevant Stock Exchange's view, trading in the Shares is inadvisable, or otherwise pursuant to the Relevant Stock Exchange's rules. If trading on a Relevant Stock Exchange is halted, investors in Shares may not be able to sell their Shares until trading resumes however such investors should be able to apply to the Company to redeem Shares in accordance with the provisions set out below.

Costs Of Buying Or Selling Shares: Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges determined and imposed by the applicable broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares. In addition, secondary market investors will incur the cost of the difference between the price that an investor is willing to pay for Shares (the "bid" price) and the price at which an investor is willing to sell Shares (the "ask" price). This difference in bid and ask prices is often referred to as the "spread" or "bid/ask spread." The bid/ask spread varies over time for Shares based on trading volume and market liquidity, and is generally lower if a Fund's Shares have more trading volume and market liquidity and higher if Shares have little trading volume and market liquidity. Further, increased market volatility may cause increased bid/ask spreads. Due to the costs of buying or selling Shares, including bid/ask spreads, frequent trading of Shares may significantly reduce investment results and an investment in Shares may not be advisable for investors who wish to trade regularly in relatively small amounts.

FATCA RISK

The United States and Ireland have entered into an intergovernmental agreement to implement FATCA (the "**Inter-Governmental Agreement**"). Under the Inter-Governmental Agreement, an entity classified as a Foreign Financial Institution (an "**FFI**") that is treated as resident in Ireland is expected to provide the Irish tax authorities with certain information on Shareholders. The Inter-Governmental Agreement provides for the automatic reporting and exchange of information in relation to accounts held in Irish "financial institutions" by US persons, and the reciprocal exchange of information regarding US financial accounts held by Irish residents. The Company will be treated as an FFI and provided it complies with the requirements of the Inter-Governmental Agreement and the Irish legislation, it should not be subject to FATCA withholding on any payments it receives and should not be subject to withholding on payments which it makes.

Although the Company will attempt to satisfy any obligations imposed on it to avoid the imposition of the FATCA withholding tax, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a withholding tax as a result of the FATCA regime, the value of the Shares held by all Shareholders may be materially affected.

All prospective investors / shareholders should consult with their own tax advisors regarding the possible implications of FATCA on an investment in the Company.

OECD COMMON REPORTING STANDARD

Ireland has provided for the implementation of the Common Reporting Standard (the "**CRS**") through section 891F of the TCA and the enactment of the Returns of Certain Information by Reporting Financial Institutions Regulations 2015 (the "**CRS Regulations**").

The CRS, effective in Ireland from 1 January 2016, is a global OECD tax information exchange initiative which is aimed at encouraging a coordinated approach to disclosure of income earned by individuals and organisations. Ireland introduced CRS Regulations in December 2015 and implementation of CRS among early adopting countries (44 countries including Ireland) occurred with effect from 1 January 2016. Failure of the Company to comply with the requirements under the CRS could result in penalties.

TAXATION

Investors in the Shares should be aware that they may be required to pay income tax, withholding tax, capital gains tax, wealth tax, stamp taxes or any other kind of tax on distributions or deemed distributions of the Fund, capital gains within the Fund, whether or not realised, income received or accrued or deemed received within the Fund etc., and this will be according to the laws and practices of the country where the Shares are purchased, sold, held or redeemed and in the country of tax residence or nationality of the Shareholder.

Investors should be aware of the fact that they might have to pay taxes on income or deemed income received by or accrued within a Fund. Taxes might be calculated based on income received and/or deemed to be received and/or accrued in the Fund in relation to the assets of a Fund, whereas the

performance of the Fund, and subsequently the return investors receive after redemption of the Shares, might partially or fully depend on the performance of the Reference Index or Reference Asset. This can have the effect that the investor has to pay taxes for income and/or a performance which he does not, or does not fully, receive.

Investors who are in any doubt as to their tax position should consult their own independent tax advisors. In addition, investors should be aware that tax regulations and their application or interpretation by the relevant taxation authorities' change from time to time. Accordingly, it is not possible to predict the precise tax treatment, which will apply at any given time.

CONSEQUENCES OF WINDING-UP PROCEEDINGS

If the Company fails for any reason to meet its obligations or liabilities, or is unable to pay its debts, a creditor may be entitled to make an application for the winding-up of the Company. The commencement of such proceedings may entitle creditors (including Approved Counterparties) to terminate contracts with the Company (including Fund's assets) and claim damages for any loss arising from such early termination. The commencement of such proceedings may result in the Company being dissolved at a time and its assets (including the assets of all Funds) being realised and applied to pay the fees and expenses of the appointed liquidator or other insolvency officer, then in satisfaction of debts preferred by law and then in payment of the Company's liabilities, before any surplus is distributed to the Shareholders of the Company. In the event of proceedings being commenced, the Company may not be able to pay the full amounts anticipated by the Supplement in respect of any Fund.

DISRUPTION EVENTS

Upon the occurrence of a Disruption Event (including an Index Disruption and Adjustment Event and without limitation to the Directors' personal powers as further described herein):

- a) to the extent that the Fund has entered into FDIs, an Approved Counterparty (whether acting as the relevant Calculation Agent or otherwise) may either (i) terminate one or more of the relevant FDIs, or (ii) adjust the terms of the relevant FDIs held by the Fund to account for such event, including adjustment to or substitution of the Reference Index, the calculation of the Reference Index level or the valuation of the FDI (and, in the cases of (ii), (iii) and (iv) below, provided that the Investment Manager (and where appropriate the Approved Counterparty) considers that it is commercially reasonable to do so, the relevant Fund may continue to operate by using such formula for and method of calculating the Reference Index level last in effect prior to the occurrence of any such event with such adjustments as the Investment Manager may deem necessary for the purpose of continuing the operation of the relevant Fund), and such adjustment(s) may have a positive or negative impact on the Net Asset Value of the relevant Fund; and/or
- b) the Directors may temporarily suspend the calculation of the Net Asset Value and any subscription, redemption and exchange of Shares and payment of redemption proceeds in accordance with the provisions under the section "Suspension of Calculation of Net Asset Value"; and/or
- c) if the Directors shall have resolved that it is impracticable or inadvisable for a Fund to continue to operate having regard to the market conditions (taking into account such disruption or adjustment event and the best interests of the Shareholders), the Directors shall terminate the Fund.

Any change of a Reference Index shall be subject to (i) the prior approval of the Shareholders of the relevant Fund by ordinary resolution; or (ii) shall be notified to Shareholders in the circumstances set out in section "Investment Objectives and Policies" above.

Certain events ("Index Disruption and Adjustment Events") may occur with respect to a Reference Index or the ability of an Approved Counterparty to perform its obligations under one or more derivative contracts. These events include, but are not limited to, those items in section "Investment Objectives and Policies" above and the events below:

- (i) the Reference Index is deemed to be inaccurate or does not reflect actual market developments;
- (ii) the Reference Index is permanently cancelled by the Index Provider;
- (iii) the Index Provider fails to calculate and announce the Reference Index level;
- (iv) the Index Provider makes a material change in the formula for or the method of calculating the Reference Index (other than a modification prescribed in that formula or method to

maintain the calculation of the Reference Index level in the event of changes in the constituent components and weightings and other routine events);

- (v) the licence to use and reference the Reference Index by the Company is terminated;
- (vi) it becomes impossible or commercially unreasonable, in the determination of the Investment Manager, for the Approved Counterparty to continue to perform its obligations under the derivatives;
- (vii) to the extent the Fund has entered into FDIs, and / or options or futures contracts on the Reference Index where (a) the costs associated with the Approved Counterparty hedging its liability and obligations under the relevant FDIs and / or options or futures contracts on the Reference Index increase; or (b) the ability of the Approved Counterparty to hedge its liability becomes impaired or commercially unreasonable or impracticable; or
- (viii) if any law shall be passed or change in law is implemented which renders it illegal, impracticable or inadvisable to (a) continue to reference or replicate the relevant Reference Index; or (b) for the Approved Counterparty to continue to perform its obligations under one or more derivative contracts.

The provisions in this apply to Reference Assets in the same way as they apply to a Reference Index.

Further details of any risk factors which are applicable to a particular Fund are set out in the relevant Supplement. The risk factors set out in this Prospectus do not purport to be an exhaustive or complete explanation of all the risks. Investors should seek professional advice before investing.

7. SHARE DEALING

The Funds are exchange traded funds which means that the Shares of the Funds are listed and or admitted to trading on one or more stock exchanges. Certain brokers are authorised by the Company to subscribe and redeem Shares of the Funds directly with the Company in the Primary Market and they are referred to as "Authorised Participants". Such Authorised Participants generally have the capability to deliver the Shares of the Funds within the Recognised Clearing and Settlement System relevant to the stock exchanges on which the Shares are listed. Authorised Participants usually sell the Shares they subscribe on one or more stock exchanges, the Secondary Market, where such Shares become freely tradable. Potential investors who are not Authorised Participants can purchase and sell the Shares of the Funds on the Secondary Market through a broker/dealer on a recognised stock exchange or OTC. For further details of such brokers please visit <https://etf.invesco.com>.

The section titled "Share Dealing on the Primary Market" relates to subscriptions and redemptions between the Company and Authorised Participants. Investors who are not Authorised Participants should refer to the section below titled "Share Dealing on the Secondary Market".

CLEARING AND SETTLEMENT

The settlement of trading in Shares of the Funds is centralised in an ICSD structure. Shares in the Funds will not generally be issued in Dematerialised Form and no temporary documents of title or share certificates will be issued, other than the Global Share Certificate issued to the Common Depositary's Nominee which is required for the ICSD settlement model (the ICSD being the Recognised Clearing and Settlement Systems through which the Funds' Shares will be settled). The Funds will apply for admission for clearing and settlement through the applicable ICSD. The ICSD for the Funds will be Euroclear and Clearstream, Luxembourg.

Under the ICSD settlement model, all Shares in the Funds will ultimately settle in an ICSD but investors may have their holdings within Central Securities Depositories which will be Participants. All Shares in issue will be represented by a Global Share Certificate and the Global Share Certificate will be deposited with a Common Depositary and registered in the name of the Common Depositary's Nominee on behalf of Euroclear and Clearstream, Luxembourg and accepted for clearing through Euroclear and Clearstream, Luxembourg. The applicable ICSD for an investor is dependent on the market in which the Shares are traded.

A purchaser of interests in Shares in the Funds will not be a registered Shareholder in the Company, but will hold an indirect beneficial interest in such Shares. Legal title to the Shares of the Funds will be held by the Common Depositary's Nominee. The rights of the holder of the indirect beneficial interests in the Shares, where such person is a Participant in the ICSD, shall be governed by the terms and conditions applicable to the arrangement between such Participant and their ICSD and where the holder of the indirect beneficial interests in the Shares is not a Participant, shall be governed by their arrangement with their respective nominee, broker or Central Securities Depository (as appropriate) which may be a Participant or have an arrangement with a Participant. The extent to which, and the manner in which, Participants may exercise any rights arising under the Shares will be determined by the respective rules and procedures of their ICSD. All references herein to actions by holders of the Global Share Certificate will refer to actions taken by the Common Depositary's Nominee as registered Shareholder following instructions from the applicable ICSD upon receipt of instructions from its Participants. All distributions, notices, reports, and statements issued to such Shareholder by the Company shall be distributed to the Participants in accordance with such applicable ICSD's procedures.

Interests in the Shares represented by the Global Share Certificate will be transferable in accordance with applicable laws, any rules and procedures issued by the ICSDs and this Prospectus. Beneficial interests in such Shares will only be transferable in accordance with the rules and procedures for the time being of the relevant ICSD and this Prospectus.

INTERNATIONAL CENTRAL SECURITIES DEPOSITARY

Each Participant must look solely to its ICSD for documentary evidence of the amount of such Participant's interests in any Shares. Any certificate or other document issued by the relevant ICSD, as to the interest in such Shares standing to the account of any person shall be conclusive and binding as accurately representing such records. Each Participant must look solely to its ICSD for such Participant's (and therefore any person with an interest in the Shares) portion of each payment or distribution made by the Funds to or on the instructions of a Common Depositary's Nominee and in relation to all other rights arising under the Shares.

Participants shall have no claim directly against the Company, the Funds, any Paying Agent or any other person (other than their ICSD) relating to payments or distributions due in respect of the Shares which are made by the Company or the Funds to or on the instructions of the Common Depository's Nominee and such obligations of the Company shall be discharged thereby. The ICSD shall have no claim directly against the Company, the Funds, any Paying Agent or any other person (other than the Common Depository).

The Company or its duly authorised agent may from time to time require the holder of the indirect beneficial interest in the Shares to provide them with information relating to: (a) the capacity in which they hold an interest in Shares; (b) the identity of any other person or persons then or previously interested in such Shares; (c) the nature of any such interests; and (d) any other matter where disclosure of such matter is required to enable compliance by the Company with applicable laws or the constitutional documents of the Company.

The Company or its duly authorised agent may from time to time request the applicable ICSD to provide the Company with certain details in relation to Participants that hold interests in Shares in each Fund including (but not limited to): ISIN, ICSD Participant name, ICSD Participant type (e.g. fund/bank/individual), residence of ICSD Participants, number of ETFs and holdings of the Participant within Euroclear and Clearstream, Luxembourg, as appropriate including which Funds, types of Shares and the number of such interests in the Shares held by each such Participant, and details of any voting instructions given and the number of such interests in the Shares held by each such Participant. Euroclear and Clearstream, Luxembourg Participants which are holders of interests in Shares or intermediaries acting on behalf of such account holders will provide such information upon request of the ICSD or its duly authorised agent and have been authorised pursuant to the respective rules and procedures of Euroclear and Clearstream, Luxembourg to disclose such information to the Company of the interest in Shares or to its duly authorised agent. Similarly, the Company or its duly authorised agent may from time to time request any Central Securities Depository to provide the Company with details in relation to Shares in each Fund or interests in Shares in each Fund held in each Central Securities Depository and details in relation to the holders of those Shares or interests in Shares, including (without limitation) holder types, residence, number and types of holdings and details of any voting instructions given by each holder. Holders of Shares and interests in Shares in a Central Securities Depository or intermediaries acting on behalf of such holders agree to the Central Securities Depository, pursuant to the respective rules and procedures of the relevant Central Securities Depository, disclosing such information to the Company or its duly authorised agent.

The holder of the indirect beneficial interest in the Shares may be required to agree to the applicable ICSD providing the identity of a Participant or investor to the Company upon their request.

NOTICES OF MEETINGS AND THE EXERCISE OF VOTING RIGHTS THROUGH THE INTERNATIONAL CENTRAL SECURITIES DEPOSITARIES

Notices of general meetings and associated documentation will be issued by the Company to the registered holder of the Shares i.e. the Common Depository's Nominee. Each Participant must look solely to its ICSD and the rules and procedures for the time being of the relevant ICSD governing onward delivery of such notices to the Participants and the Participant's right to exercise voting rights. Investors who are not Participants in the relevant ICSD would need to rely on their broker, nominee, custodian bank or other intermediary which is a Participant, or which has an arrangement with a Participant, in the relevant ICSD to receive any notices of Shareholder meetings of the Company and to relay their voting instructions to the relevant ICSD.

The Common Depository's Nominee has a contractual obligation to promptly notify the Common Depository of any Shareholder meetings of the Company and to relay any associated documentation issued by the Company to the Common Depository, which, in turn, has a contractual obligation to relay any such notices and documentation to the relevant ICSD. Each ICSD will, in turn, relay notices received from the Common Depository to its Participants in accordance with its rules and procedures. In accordance with their respective rules and procedures, each ICSD is contractually bound to collate and transfer all votes received from its Participants to the Common Depository and the Common Depository is, in turn, contractually bound to collate and transfer all votes received from each ICSD to the Common Depository's Nominee, which is obligated to vote in accordance with the Common Depository's voting instructions.

8. SHARE DEALING ON THE PRIMARY MARKET

The Primary Market is the market on which Shares of the Funds are issued by the Company to Authorised Participants or redeemed by the Company from Authorised Participants. Only Authorised Participants are able to subscribe or redeem Shares on the Primary Market, except in exceptional circumstances as detailed below.

APPLICATIONS FOR SHARES

An investor (generally only an Authorised Participant) can subscribe for or redeem their Shares (i) for cash and/or (ii) at the discretion of the Directors in-kind on the relevant date. The details on the specific cash and in-kind subscription and redemption procedures are set out below under the headings "**Cash Subscriptions and Redemptions**" and "**In-kind Subscriptions and Redemptions**". A Subscription Charge of up to 5% of the Initial Issue Price or the Net Asset Value per Share, as appropriate, may be charged by the Company for payment to the Manager on the issue of Shares, out of which the Manager may, for example, pay commission to any Authorised Participants and other financial intermediaries. The amount of the Subscription Charge, if any, will be set out in the relevant Supplement.

After the initial issue, Shares of all Classes will be issued at a price corresponding to the Net Asset Value per Share (plus any Subscription Charge) of the relevant Class. The Net Asset Value per Share of each Class in each Fund will be published in its respective Base Currency. Details of the Minimum Initial Subscriptions for each Fund and any charges are set out in the relevant Supplement.

Initial applications for Shares must be made in writing to the Company care of the Administrator using the Application Form. Application Forms may be obtained from the Company or the Administrator. Subsequent applications may be made in writing using a Subscription Form obtainable from the Company or the Administrator, by fax or by telephone provided that in the case of subsequent applications by telephone that the Shareholder has elected for this facility and all ongoing anti-money laundering and client identification checks are complete. The Directors have also decided that initial and subsequent subscription applications may be made by electronic or other means (provided that a duly completed Application Form is received for initial subscription applications and such electronic or other means are in accordance with the requirements of the Central Bank).

Shares may be subscribed at the Net Asset Value thereof together with associated Duties and Charges which may be varied to reflect the cost of execution. Authorised Participants subscribing for Shares in exchange for in kind assets would need to deliver a basket of underlying securities and a cash component (both as determined by the Investment Manager based on the underlying portfolio held, and to be held, by the relevant Fund) to the relevant Fund as part of its settlement obligations.

Joint applicants must each sign the Application Form unless an acceptable power of attorney or other written authority is provided.

The Directors may restrict or prevent the ownership of Shares by any person, firm or corporate body, if in the opinion of the Directors such holding may be detrimental to the Company, if it may result in a breach of any law or regulation, whether Irish or foreign, or if as a result thereof the Company may become exposed to tax disadvantages or other financial disadvantages that it would not have otherwise incurred (such persons, firms or corporate bodies to be determined by the Directors being herein referred to as "**Prohibited Persons**"). In particular, the Directors have resolved to prevent the ownership of Shares by any United States Person.

Persons who are "Benefit Plan Investors", as defined in Section 3(42) of ERISA, will not be permitted to subscribe for Shares.

The Directors retain the right to offer only one Class of Shares for purchase by investors in any particular jurisdiction in order to conform to local law, custom or business practice. The Directors also reserve the right to adopt standards applicable to classes of investors or transactions that permit or require the purchase of a particular Class of Shares.

Activities which may adversely affect the interests of the Shareholders (for example, activities that disrupt the Company's investment strategies or impact expenses for the Company) are not permitted. The Directors may, in their discretion, if they deem such activities adversely affect the interests of the Shareholders, take action as appropriate to deter such activities.

As with other Irish companies limited by shares, the Company is required to maintain a register of Shareholders. The Directors have resolved that Shares in the Funds may be issued in dematerialised (or uncertificated) form and that the Funds may apply for admission for clearing and settlement through a

Recognised Clearing and Settlement System. As the Company is an Irish company, the operation of a clearing system in respect of these Shares is governed by the Companies Act 2014.

The Depositary (or its delegate) will maintain an Umbrella Cash Account at the relevant Recognised Clearing and Settlement System. Settlement of subscriptions for Shares by an Authorised Participant will take place on a DVP basis at the relevant Recognised Clearing and Settlement System. An Authorised Participant will arrange for delivery of the subscription monies to the Umbrella Cash Account maintained by the Depositary (or its delegate) who, in turn, will arrange for the simultaneous delivery to the Authorised Participant of the Shares for which it has subscribed.

REDEMPTION OF SHARES

Shareholders wishing to have all or some of their Shares redeemed by the Company may make an application for redemption in writing, by fax using a Redemption Form obtainable from the Company or the Administrator, or by telephone, provided that (i) payment shall be made to the account on record (any changes to the account on record may only be made upon receipt of original written instructions) (ii) an original Application Form has been received and all anti-money laundering and client identification checks are complete and (iii) that the Shareholder has requested this facility, or as the Directors have also decided, by electronic or other means to the Administrator. Applications must include details of the name of the Fund, Class of Share, the number of Shares or the amount the Shareholder wishes to have redeemed, the Shareholder's details, the Shareholder's account number and any other information required by the Redemption Form. Failure to provide any of this information may result in delay of the application for redemption whilst verification (which may be requested in writing) is sought from the Shareholder.

Written confirmations may be required by the Company and must be duly signed by all registered Shareholders, unless in the case of joint registered Shareholders, each such Shareholder has sole signing authority.

The Company is entitled to limit the number of Shares of any Fund redeemed on any Dealing Day to Shares representing not more than 10% of the Net Asset Value of that Fund on that Dealing Day. In this event, the limitation will apply pro rata, so that all Shareholders wishing to redeem their shareholding in that Fund on the relevant Dealing Day will realise the same proportion of their redemption request. Shares not redeemed but which would otherwise have been redeemed, will be carried forward for repurchase on the next Dealing Day and will be dealt with on a pro rata basis (as detailed above) together with redemption requests received subsequently. If requests for redemptions are so carried forward, the Administrator will inform the Shareholders affected.

The Constitution contains special provisions with respect to a redemption request received from a Shareholder which would result in Shares representing more than 5% of the Net Asset Value of any Fund being redeemed by the Company on any Dealing Day. In such a case the Company, at the discretion of the Directors, may satisfy the redemption request in whole or in part by a distribution of investments of the relevant Fund in specie, provided that such a distribution would not be prejudicial to the interests of the remaining Shareholders of that Fund. The assets to be transferred shall be selected at the discretion of the Investment Manager, subject to the approval of the Depositary, and taken at their value used in determining the repurchase price of the Shares being repurchased. Where a Shareholder requesting such repurchase receives notice of the Company's intention to elect to satisfy the repurchase request by such a distribution of assets, the Shareholder may require that the Company, instead of transferring those assets, arrange for their sale and the payment of the net proceeds of sale to that Shareholder.

Upon a redemption of Shares by an Authorised Participant, such transaction will also take place on a DVP basis at the relevant Recognised Clearing and Settlement System. The Authorised Participant will arrange for the delivery of Shares to the Depositary's (or its delegate's) Umbrella Cash Account who, in turn, will arrange for the simultaneous credit of the Umbrella Cash Account with the redemption proceeds.

CASH SUBSCRIPTIONS AND REDEMPTIONS

An investor (generally only an Authorised Participant) may subscribe for or redeem Shares for cash on each Dealing Day (except during any period in which the calculation of the Net Asset Value is suspended) as described below.

- (a) Procedures for Subscriptions or Redemptions for Cash: Applications for cash subscriptions or redemptions will be made with effect from a Dealing Day in respect of applications received on or prior to the Dealing Deadline. Dealing Days, Dealing Deadlines and the relevant Minimum Initial Subscription and Minimum Redemption Amount relating to each Fund are specified in the relevant Supplement. Applications received after the Dealing

Deadline for the relevant Dealing Day shall, unless the Manager shall otherwise agree and provided they are received before the Valuation Point for the relevant Dealing Day, be deemed to have been rejected by the Manager and the applicant will be required to submit the application for subscription prior to the Dealing Deadline of the next Dealing Day. Applications for subscription will be irrevocable unless the Directors, or a delegate, otherwise agree. If requested, the Directors may, in their absolute discretion and subject to the prior approval of the Depositary, agree to designate additional Dealing Days and Valuation Points in respect of those Dealing Days for the purchase of Shares relating to any Fund which will be open to all Shareholders. Shareholders will be notified in advance of any such additional Dealing Days.

Shareholders wishing to subscribe or redeem Shares for cash may do so by notifying the Company or the Administrator of (i) the Shareholder's wish to subscribe or redeem in cash; and (ii) details of the Shareholder's bank account in which the subscription amount or redemption proceeds, denominated either in the Base Currency of the Fund or the local currency (at a competitive exchange rate provided by the Administrator), are to be debited or credited, respectively. Delivery instructions are available from the Administrator upon written request. Normally Shareholders wishing to make a cash redemption must also make arrangement for the transfer of their Shares into the Company's account at a Recognised Clearing and Settlement System. On a redemption, the Depositary will release cash at the instruction of the Administrator.

Cash subscriptions must be received by the relevant Settlement Date. The Company and the Manager reserve the right, in their sole discretion, to require the applicant to indemnify the Company against any losses, costs or expenses arising as a result of a Fund's failure to receive payment by the relevant Settlement Date.

- (b) Payment Procedures for Redemptions for Cash: Payment for Shares redeemed will be effected by the Settlement Date as specified in the Supplement for the relevant Fund (assuming the Shares have been transferred into the account maintained by the Depositary (or its delegate) on behalf of the Company at a Recognised Clearing and Settlement System). Redemption proceeds in either the Base Currency of the Fund or other local currency (at a competitive rate provided by the Administrator) may also be paid by electronic transfer to the appropriate bank account as notified by the redeeming Shareholder. The cost of any transfer of proceeds by electronic transfer will be deducted from such proceeds.

The redemption proceeds will be paid net of any Redemption Charge and any electronic transfer costs. Shareholders are reminded that, because of market fluctuations, transaction fees and other factors, the redemption proceeds can be higher or lower than the initial subscription amount.

IN-KIND SUBSCRIPTION

At the discretion of the Directors, investors may subscribe, via an Authorised Participant, for Shares in-kind on each Dealing Day except during any period in which the calculation of the Net Asset Value is suspended. For the avoidance of doubt the Minimum Initial Subscription as set out in the Supplement for the relevant Fund shall apply in relative terms to in-kind subscriptions. "In-kind" means that, rather than receiving cash in respect of a subscription and delivering cash proceeds in respect of a redemption, the Fund will receive securities (or predominantly securities) acceptable to the Investment Manager.

Securities delivered in connection with in-kind subscription requests must be securities which the Fund may acquire pursuant to its investment objective and policies and will be reviewed and the value of such securities contributed verified by the Depositary. A report will be issued detailing the securities transferred, their respective market value on the day of the transfer and the number of Shares issued. Any costs resulting from such a subscription in-kind will be borne exclusively by the relevant investor. The value attributed to securities delivered in connection with in-kind subscription or redemption requests will be equivalent to that for cash subscriptions/redemptions, and no Shares shall be issued until all securities and cash payable to the Depositary (or a permitted collateral amount) are in the possession of, or properly credited to the account of, the Depositary.

- (a) Applications for Subscription: Applications for in-kind subscriptions will be made with effect from a Dealing Day in respect of applications received on or prior to the Dealing Deadline. Dealing Days and Dealing Deadlines relating to each Fund are specified in the relevant

Supplement. Applications received after the Dealing Deadline for the relevant Dealing Day shall, unless the Manager shall otherwise agree and provided they are received before the Valuation Point for the relevant Dealing Day, be deemed to have been rejected by the Manager and the applicant will be required to submit the application for subscription prior to the Dealing Deadline of the next Dealing Day. Applications for subscriptions will be irrevocable unless the Directors, or a delegate, otherwise agree. If requested, the Directors may, in their absolute discretion and subject to the prior approval of the Depositary, agree to designate additional Dealing Days and Valuation Points in respect of those Dealing Days for the purchase of Shares relating to any Fund which will be open to all Shareholders. Shareholders will be notified in advance of any such additional Dealing Days.

- (b) Settlement Period: The standard settlement period for in-kind subscriptions is generally two Business Days following the Business Day on which the application for subscription is accepted, but this may vary depending upon the standard settlement periods of the different stock exchanges on which the shares are traded and the nature of the securities but shall not (in the absence of appropriate collateral being posted) in any event exceed ten Business Days from the relevant Dealing Deadline. No Shares will be issued to the applicant until all the securities being subscribed in kind have been received by the Depositary and the In-Kind Transaction Fee and, if applicable, Transfer Taxes have been received by the Depositary.
- (c) Failure to Deliver Securities: In the event that an applicant fails to deliver to the Depositary one or more of the securities by the designated time, the Company may reject the application for subscription, or may require the applicant to pay to it a collateral sum at least equal to 115% of the closing value of such undelivered securities as at the Valuation Point for the relevant Dealing Day, marked to market until the date of delivery of such undelivered securities or the date on which the Company acquires such securities in the open market, plus any costs or expenses and, if applicable, Transfer Taxes associated with the purchase by the Company of those securities or may require a letter of credit acceptable to it for such purpose. On the payment of such amounts, the Shares will be issued. In the event that the actual cost to the Company of acquiring the securities (including costs or expenses and any Transfer Taxes) exceeds the aggregate of the value of such securities as at the Valuation Point for the relevant Dealing Day, the In-Kind Transaction Fee and, if applicable, the Transfer Taxes paid by the applicant, the applicant will be required to promptly reimburse the Company the difference on demand. The Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund (or any other Fund) in order to meet some or all of these charges.

PROCEDURES FOR REDEMING SHARES IN-KIND

- (a) Applications for Redemption: At the discretion of the Directors, investors may redeem via an Authorised Participant, Shares in-kind. Applications for in-kind redemptions of Shares will be made with effect from a Dealing Day in respect of applications received on or prior to the Dealing Deadline and asset allocation is subject to the approval of the Depositary. Dealing Days, Dealing Deadlines and the relevant Minimum Initial Subscription and Minimum Redemption Amount relating to each Fund are specified in the relevant Supplement. Applications received after the Dealing Deadline for the relevant Dealing Day shall, unless the Manager shall otherwise agree and provided they are received before the Valuation Point for the relevant Dealing Day, be deemed to have been received by the next Dealing Deadline. Applications will be irrevocable unless the Directors, or a delegate, otherwise agree. If requested, the Directors may, in their absolute discretion and subject to the prior approval of the Depositary, agree to designate additional Dealing Days and Valuation Points in respect of those Dealing Days for the purchase of Shares relating to any Fund which will be open to all Shareholders. Shareholders will be notified in advance of any such additional Dealing Days.

The redemption proceeds will be paid net of any Redemption Charge and any electronic transfer costs. Shareholders are reminded that because of market fluctuations, transaction fees and other factors, the redemption proceeds can be higher or lower than the initial subscription amount.

No delivery instructions will be issued by the Administrator to the Depositary in relation to the securities or cash until the Administrator has accepted the application for redemption in

relation to all Shares being redeemed (such day, the "Cancellation Day"). Delivery of securities will be on a free delivery settlement basis. The cost of any settlement, including but not limited to, by electronic transfer will be charged to and payable by the applicant for redemption.

- (b) Settlement Period: The standard settlement period for in-kind redemptions is three Business Days following the Business Day on which the application for redemption is accepted but may vary depending upon the standard settlement periods of the different stock exchanges on which the Shares are traded and the in-kind securities. Any cash to be paid in respect of an in-kind redemption will be for value on the same day as settlement of the securities.
- (c) Partial Cash Settlement: The Company may, in its absolute discretion, satisfy part of the application for in-kind redemption in cash, for example in cases in which it believes that a security held by a Fund is unavailable for delivery or where it believes that an insufficient amount of that security is held for delivery to the applicant for redemption in-kind.

Investors should note that they may be unable to redeem Shares via an Authorised Participant on days that any such Authorised Participant is not open for business.

DIRECTED CASH DEALINGS

If any request is made by an Authorised Participant to execute underlying security trades and/or foreign exchange with respect to Share dealings in a way that is different than normal and customary convention, the Investment Manager will use reasonable endeavours to satisfy such request if possible but the Investment Manager will not accept any responsibility or liability if the execution request is not achieved in the way requested for any reason whatsoever.

If any Authorised Participant making a cash subscription or redemption wishes to have the underlying securities relating to their subscription or redemption traded with a particular designated broker (i.e. a directed cash subscription or redemption), the Authorised Participant would need to specify such instructions in its dealing request. The Investment Manager may at its sole discretion (but shall not be obliged to) transact for the underlying securities with the designated broker for the purpose of the subscription or redemption. Authorised Participants that wish to select a designated broker are required, prior to the Investment Manager transacting the underlying securities, to contact the relevant portfolio trading desk of the designated broker to arrange the trade.

If an application resulting in a creation is accepted as a directed cash subscription, as part of the Authorised Participant's settlement obligations, the Authorised Participant would be responsible for (i) ensuring that the designated broker transfers to the Fund (via the Depositary) the relevant underlying securities, and (ii) paying the fees and costs charged by the designated broker for selling the relevant underlying securities to the Fund plus any associated taxes and charges, including foreign exchange costs, to reflect the cost of execution.

If a dealing request resulting in a redemption is accepted as a directed cash redemption, the Authorised Participant is responsible for ensuring that the designated broker purchases the relevant underlying securities from the Fund. The Authorised Participant will receive the price paid by the designated broker for purchasing the relevant underlying securities from the Fund, less any associated taxes and charges, including foreign exchange costs, to reflect the cost of execution.

The Company and/or the Investment Manager will not be responsible, and shall have no liability, if the execution of the underlying securities with a designated broker and, by extension, an Authorised Participant's subscription or redemption order, is not carried out due to an omission, error, failed or delayed trade or settlement on the part of the Authorised Participant or the designated broker. Should an Authorised Participant or the designated broker to which the Authorised Participant directed the underlying securities transaction default on, delay settlement of, or change the terms of, any part of the underlying securities transaction, the Authorised Participant shall bear all associated risks and costs, including costs incurred by the Company and/or the Investment Manager as a result of the delay to the underlying securities transaction. In such circumstances, the Company and the Investment Manager have the right to transact with another broker and to amend the terms of the Authorised Participant's subscription or redemption, including the subscription price and/or redemption proceeds, to take into account the default, delay and/or the change to the terms.

FORM OF THE SHARES AND REGISTER

The Shares shall be issued in the form of Registered Shares. Registered Shares may be represented by a Global Share Certificate.

- (a) Registered Shares: The Shares can be issued in registered form and the Shareholders' register is conclusive evidence of the ownership of such Shares. In respect of Registered Shares, fractions of Shares will be issued and rounded up or rounded down to the nearest whole Share unless otherwise provided in the relevant Supplement. Any rounding may result in a benefit for the relevant Shareholder or Fund.

Registered Shares shall be issued without share certificates. The uncertified form enables the Company to effect redemption instructions without undue delay.

- (b) Registered Shares represented by Global Share Certificates: Such Global Share Certificates will be issued in the name of the Company and deposited with the Clearing Agents or alternatively directly registered in the name of the relevant Clearing Agent. Global Share Certificates will be transferable in accordance with applicable laws and any rules and procedures issued by any Clearing Agent concerned with such transfer. Such Registered Shares represented by a Global Share Certificate are freely transferable subject to and in accordance with the rules of the relevant Clearing Agent. Shareholders who are not participants in such systems will only be able to transfer such Registered Shares represented by a Global Share Certificate through a financial intermediary who is a participant in the settlement system of the relevant Clearing Agent.

GENERAL PROVISIONS

The Directors reserve the right to reject any application in whole or in part. Furthermore, the Directors reserve the right at any time, without notice, to discontinue the issue and sale of Shares of any Fund of the Company.

No Shares will be issued during any period when the calculation of the Net Asset Value per Share of the relevant Fund is suspended pursuant to the Constitution and as discussed herein under "Suspension of Calculation of Net Asset Value".

Notice of any such suspension will be given to applicants for Shares and applications made or pending during such suspension may be withdrawn by notice in writing received by the Company prior to the end of such suspension. Applications which are not withdrawn will be considered on the first Dealing Day following the end of the suspension period.

Measures provided for in Criminal Justice (Money Laundering and Terrorist Financing) Act 2010 (as amended and supplemented from time to time) and the and the Criminal Justice Act 2013 which are aimed towards the prevention of money laundering may require detailed verification of each applicant's identity; for example an individual may be required to produce a duly certified copy of his passport or identification card together with evidence of his address such as a utility bill or bank statement and his date of birth. In the case of corporate applicants this may require production of a certified copy of the certificate of incorporation (and any change of name), constitutional document (or equivalent), the names, occupations, dates of birth and residential and business address of the directors of the company. The Manager and the Administrator each reserve the right to request such information as is necessary to verify the identity of an applicant and where applicable, the beneficial owner pursuant to the Beneficial Ownership Regulations 2016 (SI 560 of 2016) or as otherwise required.

Depending on the circumstances of each application, a detailed verification may not be required where; (a) the investor makes payment from an account held in the applicant's name at a recognised financial institution, or (b) the application is made through a recognised intermediary, or (c) investment is made by a recognised intermediary or financial institution. These exceptions will only apply if the financial institution or intermediary referred to above is located in a country which has equivalent anti money laundering legislation to that in place in Ireland.

The Administrator reserves the right to request such information as is necessary to verify the identity of an applicant. In the event of delay or failure by the applicant to produce any information required for verification purposes, the Administrator may refuse to accept the application and subscription monies.

COMPULSORY REDEMPTION

The Company may compulsorily repurchase all of the Shares of any Fund if the Net Asset Value of the relevant Fund is less than the Minimum Fund Size (if any) specified in the relevant Supplement.

The Company reserves the right to repurchase any Shares which are or become owned, directly or indirectly, by any individual under the age of 18 (or such other age as the Directors think fit) or if the holding of the Shares by any person is in breach of any law or requirement of any country or governmental authority or by virtue of which such person is not qualified to hold such Shares or might result in the Company or the relevant Fund incurring any liability to taxation or suffering other pecuniary legal or material administrative disadvantages which the Company or the relevant Fund might not otherwise have incurred, suffered or breached.

The Directors of each Fund will compulsorily redeem Shares held by a U.S. Person.

To the extent the Shares are not held in a Recognised Clearing and Settlement System, where Irish Taxable Persons acquire and hold Shares, the Company shall, where necessary for the collection of Irish tax, repurchase and cancel Shares held by a person who is or is deemed to be an Irish Taxable Person or is acting on behalf of an Irish Taxable Person on the occurrence of a chargeable event for taxation purposes and to pay the proceeds thereof to the Irish Revenue Commissioners.

EXCHANGE OF SHARES

Where provided for in the relevant Supplement, Shareholders will be able to apply to exchange on any Dealing Day all or part of their holding of Shares of any Class of one Fund (the "**Original Class**") for Shares of another Class in a separate Fund which is being offered at that time (the "**New Class**") provided that all the criteria for applying for Shares in the New Class have been met, by giving notice to the Administrator on behalf of the Company on or prior to the Dealing Deadline for the relevant Valuation Point. The Manager however may at its sole discretion agree to accept requests for exchange received after that time provided they are received prior to the relevant Valuation Point. The Manager may not be able to exercise this discretion in all circumstances, for example where requests for exchanges of Shares are made via dealing platforms or other electronic means. In such cases, requests for exchange received after the Dealing Deadline may be rejected. Shareholders making requests for exchanges via dealing platforms or other electronic means are reminded that they must refer to the provider of the dealing platform or electronic means for the procedures that apply to such trading arrangements.

The general provisions and procedures relating to redemptions will apply equally to exchanges. All exchanges will be treated as a redemption of the Shares of the Original Class and application of the net proceeds to the purchase of Shares of the New Class, based upon the then current issue and Repurchase Prices of Shares in each Fund. The Constitution allows for an exchange fee of up to 3% of the total Repurchase Price of the Shares of the Original Class redeemed to be charged, and the Directors, in their sole discretion, reserve the right to impose such fee within this limit as shall be set out in the Supplement in respect of each Fund.

The number of Shares of the New Class to be issued will be calculated in accordance with the following formula:

$$S = \frac{[Rx(RPxER)] - F}{SP}$$

where:

- R = the number of Shares of the Original Class to be exchanged;
- S = the number of Shares of the New Class to be issued;
- RP = the Repurchase Price per Share of the Original Class as at the Valuation Point for the relevant Dealing Day;
- ER = in the case of an exchange of Shares designated in the same Base Currency is 1. In any other case, it is the currency conversion factor determined by the Directors on or about the Valuation Point for the relevant Dealing Day as representing the effective rate of exchange applicable to the transfer of assets relating to the Original and New Classes of Shares after adjusting such rate as may be necessary

to reflect the effective costs of making such transfer;

SP = the issue price per Share of the New Class as at the Valuation Point for the relevant Dealing Day; and

F = the exchange charge, if any payable to the Company, or as it may direct, on the exchange of Shares.

Where there is an exchange of Shares, Shares of the New Class will be allotted and issued in respect of and in proportion to the Shares of the Original Class in the proportion S to R.

Shares may not be exchanged for Shares in a different Fund during any period when the calculation of the Net Asset Value of either of the relevant Funds is suspended in the manner described under "**Suspension of Calculation of Net Asset Value**" below. Applicants for exchange of Shares will be notified of such postponement and, unless withdrawn, their applications will be considered as at the next Dealing Day following the ending of such suspension.

When requesting the exchange of Shares as an initial investment in a Fund, Shareholders should ensure that the value of the Shares exchanged is equal to or exceeds the Minimum Initial Subscription for the relevant New Class specified in the relevant Supplement. In the case of an exchange of a partial holding only, the value of the remaining holding must also be at least equal to the Minimum Holding for the Original Class.

Where an exchange of Shares is permitted, further details will be outlined in the relevant Supplement.

The Administrator will at the discretion of the Fund arrange for any necessary currency transaction, at prevailing exchange rates, required if there is an exchange of Shares of any Class of a Fund for Shares of the same Class in another Fund. Any such currency transaction may be effected with the Depositary and will be at the applicant's cost. Currency exchange transactions may delay any dealing in Shares as any foreign exchange transaction may be delayed until cleared funds have been received. This foreign exchange transaction will be arranged by the Administrator at the risk of the relevant investor.

9. SHARE DEALING ON THE SECONDARY MARKET

Shares may be purchased or sold on the Secondary Market by all investors through a relevant recognised stock exchange on which the Shares are admitted to trading, or OTC.

All investors wishing to purchase or sell Shares of a Fund on the Secondary Market should place their orders via their broker. Investors who invest in a Fund through a broker/dealer may not, from a clearing perspective, be recorded as a Shareholder on the register of Shareholders as the Shares may be held in a nominee name. Such investors will, however, have rights as a beneficial holder of the relevant Shares. Orders to purchase Shares in the Secondary Market through the recognised stock exchanges, or OTC, may incur brokerage and/or other costs which are not charged by the Company and over which the Company and the Manager has no control. Such charges are publicly available on the recognised stock exchanges on which the Shares are listed or can be obtained from stock brokers.

Investors may redeem their Shares through an Authorised Participant by selling its Shares to the Authorised Participant (directly or through a broker).

ON EXCHANGE

It is the intention of the Company that certain of its Funds, through the listing and/or admittance to trading of its Shares on one or more Relevant Stock Exchanges, will be ETFs. Upon such listings there is an expectation that members of the Relevant Stock Exchanges will act as market makers and provide offer and bid prices at which the Shares can be purchased or sold, respectively, by investors in accordance with the requirements of the Relevant Stock Exchange. The spread between such bid and offer prices is typically monitored by the Relevant Stock Exchanges. Certain Authorised Participants who subscribe for Shares may act as market makers; other Authorised Participants are expected to subscribe for Shares in order to be able to offer to buy Shares from or sell Shares to their customers as part of their broker/dealer business. Through such Authorised Participants being able to subscribe for or redeem Shares, a liquid and efficient secondary market may develop over time on one or more Relevant Stock Exchanges and/or other stock exchanges as they meet secondary market demand for such Shares. Through the operation of such a secondary market, persons who are not Authorised Participants will be able to buy Shares from or sell Shares to other secondary market investors or market makers, broker/dealers, or other Authorised Participants at prices which should approximate, after currency conversion, the Net Asset Value of the Shares. Investors should be aware that on days other than Business Days or Dealing Days of a Fund when one or more markets are trading Shares but the underlying Market(s) on which the Reference Index or Reference Asset of the Fund are traded are closed, the spread between the quoted bid and offer prices in the Shares may widen and the difference between the market price of a Share and the last calculated Net Asset Value per Share may, after currency conversion, increase. The settlement of trades in Shares on Relevant Stock Exchanges will be through the facilities of one or more Recognised Clearing and Settlement Systems following applicable procedures which are available from the Relevant Stock Exchanges. Investors should also be aware that on such days the Reference Index or Reference Asset value would not necessarily be calculated and available for investors in making their investment decisions because prices of Reference Index or Reference Asset securities in the underlying Market(s) would not be available on such days. Nonetheless, one or more Relevant Stock Exchanges may provide a calculation of such Reference Index or Reference Asset based upon trading, if any, of such Reference Index or Reference Asset securities on marketplaces other than the underlying Market(s). Further details of the Relevant Stock Exchanges for each Fund are set out in the relevant Supplement.

INTRA-DAY PORTFOLIO VALUE

The Manager may at its discretion make available, or may designate other persons to make available on its behalf, on each Business Day, an intra-day portfolio value or "iNAV" for one or more Funds. If the Manager makes such information available on any Business Day, the iNAV will be calculated based upon information available during the trading day or any portion of the trading day, and will ordinarily be based upon the current value of the assets/exposures of the Fund in effect on such Business Day, together with any cash amount in the Fund as at the previous Business Day. The Manager will make available an iNAV if this is required by any Relevant Stock Exchange.

Any iNAV is not, and should not be taken to be or relied on as being, the value of a Share or the price at which Shares may be subscribed for or redeemed or purchased or sold on any Relevant Stock Exchange. In particular, any iNAV provided for any Fund where the constituents of the Reference Index or Reference Asset are not actively traded during the time of publication of such iNAV may not reflect the true value of a Share, may be misleading and should not be relied on. The inability of the Manager or its designee to provide an iNAV, on a real-time basis, or for any period of time, will not in itself result in a halt in the trading of

the Shares on a Relevant Stock Exchange, which will be determined by the rules of the Relevant Stock Exchange in the circumstances. Investors should be aware that the calculation and reporting of any iNAV may reflect time delays in the receipt of the relevant constituent securities prices in comparison to other calculated values based upon the same constituent securities including, for example, the Reference Index or Reference Asset itself or the iNAV of other ETFs based on the same Reference Index or Reference Asset. Investors interested in subscribing for or redeeming Shares on a Relevant Stock Exchange should not rely solely on any iNAV which is made available in making investment decisions, but should also consider other market information and relevant economic and other factors (including, where relevant, information regarding the Reference Index or Reference Asset, the relevant constituent securities and financial instruments based on the Reference Index or Reference Asset corresponding to the relevant Fund). None of the Company, the Directors, the Manager, any Authorised Participant and the other service providers shall be liable to any person who relies on the iNAV.

PORTFOLIO TRANSPARENCY

Information on the calculation methodology, including the exact details of each Fund's Reference Index is available on the Website.

SECONDARY MARKET REDEMPTIONS

Shares in the relevant Fund which are purchased on the Secondary Market cannot usually be redeemed directly from the Company. Investors normally sell their Shares on the Secondary Market with the assistance of an intermediary (e.g. a stockbroker or other investment broker) and may incur fees for investing in this manner. In addition, please note that such investors may pay more than the current Net Asset Value per Share when purchasing Shares on the secondary market and may receive less than the current Net Asset Value when selling their shareholding.

However where the value of the Shares quoted on the Secondary Market significantly differs or varies from the current Net Asset Value per Share, investors who hold their shares through a Secondary Market will be permitted to redeem their shareholding directly from the Company. For example, this may apply in cases of market disruption such as the absence of a market maker.

In such situations, information will be communicated to the regulated market indicating that the Company is open for direct redemptions from Secondary Market investors. Such Secondary Market investors should refer to section 8 above of the Prospectus ("Share Dealing on the Primary Market") for details on how to process such redemption requests.

Only the actual costs of providing this facility (i.e. those costs associated with liquidating any underlying positions) will be charged to such Secondary Market investors and in any event, the fees in respect of any such redemptions shall not be excessive. However any such Secondary Market investor requesting buyback of its Shares may be subject to taxes as applicable, including any capital gains taxes or transaction taxes. Therefore it is recommended that prior to making such a request, the Shareholder seeks professional tax advice in relation to the implications of the buyback under the laws of the jurisdiction in which they may be subject to tax.

Shares bought back from investors who are not Authorised Participants will be redeemed in cash. Payment is subject to the investor having first completed any required identification and anti-money laundering checks. In kind redemptions may be available at the investor's request at the Manager's absolute discretion.

10. ISSUE AND REPURCHASE PRICES/CALCULATION OF NET ASSET VALUE/VALUATION OF ASSETS

The Initial Issue Price for Shares of each Fund shall be the amount(s) set out in the Supplement for the relevant Fund.

The price at which Shares of any Fund will be issued on a Dealing Day, after the initial issue, is calculated by ascertaining the Net Asset Value of the relevant Fund (i.e. the value of the assets of the Fund having deducted the liabilities of the Fund therefrom) as at the Valuation Point for that Fund for the relevant Dealing Day. The Net Asset Value per Share of the relevant Fund is calculated by dividing the Net Asset Value of the relevant Fund by the total number of Shares in issue in the Fund at the relevant Valuation Point and rounding the result to up to four decimal places. Where applicable, the Net Asset Value per Share of each Class in a Fund is calculated by determining that portion of the Net Asset Value of the Fund which is attributable to the relevant Class and by dividing this sum by the total number of Shares of the relevant Class in issue at the relevant Valuation Point and rounding the resulting amount to up to four decimal places. If a Fund has more than one Class of Share, additional fees may be charged against certain Classes, and details of such fees will be set forth in the Supplement for the relevant Fund. This may result in the Net Asset Value per Share of each Class being different. The Valuation Point for each Fund is set out in the Supplement for the relevant Fund.

The price at which Shares will be issued on a Dealing Day is, subject as hereinafter provided, the Net Asset Value per Share of the relevant Class which is calculated in the manner described above. The Company may, in calculating the issue price, include in the issue price in respect of each Fund, for its own account, a charge sufficient to cover stamp duties and taxation (if any) in respect of the issue of Shares. The Company may also add a charge in respect of fiscal and purchase charges. Applicants may also be charged a Subscription Charge as specified in the relevant Supplement.

The price at which Shares will be redeemed on a Dealing Day is subject as hereinafter provided, the Net Asset Value per Share of the relevant Class which is calculated in the manner described above. The Company may, in calculating the Repurchase Price, deduct from the Net Asset Value per Share a charge in respect of fiscal and sales charges. Applicants may also be charged a Redemption Charge as specified in the Supplements hereof.

The Company may, in calculating the Repurchase Price, deduct such sum as the Directors consider fair and which is approved by the Depositary in respect of redemption requests which necessitate the need for borrowing, the breaking of deposits at a penalty or the realisation of investments at a discount.

The Constitution provides for the method of valuation of the assets and liabilities of each Fund.

In particular, the Constitution provides that the value of any investments listed or dealt in on a Market shall be the closing price on the relevant Market at the relevant Valuation Point unless otherwise disclosed in the relevant Supplement, provided that only one method of valuation in respect of the closing or last known market price may be used by a Fund in accordance with the requirements of the Central Bank. Where any investment is listed or dealt in on more than one Market the Directors shall select the Market which constitutes the main Market for such investment or which they determine provides the fairest criteria in a value for the security.

The value of any investment which is not listed or dealt in on a Market or of any investment which is normally listed or dealt in on a Market but in respect of which the closing price ((or applicable closing or last known market price disclosed in the relevant Supplement) is currently unavailable or the current price of which does not in the opinion of the Directors represent fair market value, shall be the probable realisation value thereof estimated with care and in good faith by the Directors or by a competent person appointed by the Directors and approved for such purpose by the Depositary. In determining the probable realisation value of any such investment, a certified valuation thereof provided by a competent independent person or in the absence of any independent person, the Investment Manager, who in each case shall have been approved for such purposes by the Depositary, shall be sufficient.

Cash and other liquid assets will be valued at their face value plus interest accrued, where applicable.

The value of any prepaid expenses, cash dividends and interest declared or accrued and not yet received as at a Valuation Point shall be deemed to be the face value thereof unless in any case the Directors are of the opinion that the same is unlikely to be paid or received in full in which case the value thereof shall be arrived at after making such discount as the Directors may consider appropriate in such case to reflect the true value thereof as at any Valuation Point.

The value of any demand notes, promissory notes and accounts receivable shall be deemed to be the face value or full amount thereof after making such discount as the Directors may consider appropriate to reflect the true current value thereof as at any Valuation Point.

Certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments shall be valued at the closing price, or if unavailable, the last known market price for such certificates of deposit, treasury bills, bank acceptances, trade bills and other negotiable instruments.

Forward foreign exchange contracts shall be valued by reference to freely available market quotations as at the Valuation Point or if unavailable in accordance with the provisions for off-exchange derivative contracts below.

The value of any exchange traded futures contracts, share price index futures contracts and options shall be based on the settlement price as determined by the Market in question as at the Valuation Point. Where the settlement price is not available the value of such contract shall be its probable realisation value which must be estimated with care and in good faith by a competent person appointed by the Directors and approved for the purpose by the Depositary or any other means provided the value is approved by the Depositary.

The value of any OTC derivative contracts shall be valued in accordance with Article 11 of Regulation (EU) No. 648/2012 on OTC derivatives, central counterparties and trade repositories ("EMIR").

The valuation of units or shares or other similar participations in any CIS which provides for the units or shares or other similar participations therein to be redeemed at the option of the Shareholder out of the assets of that undertaking shall be the last available net asset value per unit or share or other relevant participation as published by the scheme as at the relevant Valuation Point, or (if bid and offer prices are published), at the last bid price.

If in any case a particular value is not ascertainable as provided above, the method of valuation of the relevant investment shall be such as the Directors, with the approval of the Depositary, shall decide.

Any value expressed otherwise than in the Base Currency of the relevant Fund (whether of any investment or cash) and any non-base currency borrowing shall be converted into the Base Currency at the rate (whether official or otherwise) which the Administrator shall determine to be appropriate in the circumstances.

Notwithstanding the generality of the foregoing, the Directors may with the approval of the Depositary adjust the value of any investment if taking into account currency, marketability and/or such other considerations as they may deem relevant, such as, applicable rate of interest, anticipated rate of dividend, maturity or liquidity, they consider that such adjustment is required to reflect the fair value thereof.

In calculating the Net Asset Value and Net Asset Value per Share, the Administrator shall not be responsible for the accuracy of information provided by any third party pricing service that the Administrator is directed to use by the Company or liable for any loss suffered by the Company by reason of any error in the calculation of the Net Asset Value resulting therefrom. Subject to the terms of the Administration Agreement, the Administrator may obtain and rely on the advice or opinion of professional advisers. The Administrator has not been retained to act as the Company's independent valuation agent.

SUSPENSION OF CALCULATION OF NET ASSET VALUE

The Company may at any time temporarily suspend the calculation of the Net Asset Value of any Fund and the subscription, redemption or exchange of Shares and the payment of repurchase proceeds of any Class during (i) any period when any of the principal Markets on which a substantial part of the direct or indirect investments of the relevant Fund are quoted is closed, otherwise than for ordinary holidays, or during which dealings therein are restricted or suspended; (ii) any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of investments of the relevant Fund is not reasonably practicable without this being seriously detrimental to the interests of Shareholders of the relevant Fund or if, in the opinion of the Directors, the Net Asset Value of the Fund cannot fairly be calculated; (iii) any period when, as a result of adverse market conditions, the payment of repurchase proceeds may, in the opinion of the Directors, have an adverse impact on the relevant Fund or the remaining shareholders in the relevant Fund; (iv) any period (other than ordinary holiday or customary weekend closings) when any market or exchange which is the main market or exchange for a significant part of the instruments or positions is closed, or in which trading thereon is restricted or suspended; (v) any period when proceeds of any sale or repurchase of the shares cannot be transmitted to or from the account of the relevant Fund; (vi) any period in which the repurchase of the shares would, in the opinion of the Directors, result in a violation of applicable laws; (vii) any

breakdown in the means of communication normally employed in determining the price of any of the relevant Fund's investments and other assets or when for any other reason the current prices on any Market of any assets of the relevant Fund cannot be promptly and accurately ascertained; (viii) any period during which the Company is unable to repatriate funds required for the purpose of making payments due on redemption of Shares of any Class in the relevant Fund or during which the transfer of funds involved in the acquisition or realisation of investments or payments due on redemption of Shares cannot, in the opinion of the Directors, be effected at normal prices or normal rates of exchange; (ix) any period where in the opinion of the Directors such suspension is justified having regard to the interests of the Company and/or the relevant Fund; (x) any period in which it is or becomes impossible or impractical, for example from a cost, risk or operational perspective to enter into, continue with or maintain FDIs relating to the Reference Index for the relevant Fund or to invest in securities comprised within the particular Reference Index; or (xi) following the circulation to the relevant Shareholders of a notice of a general meeting at which a resolution proposing to wind-up the Company or terminate the relevant Fund is to be considered. The Company will, whenever possible, take all reasonable steps to bring any period of suspension to an end as soon as possible.

Shareholders who have requested issue or redemptions of Shares of any Class or exchanges of Shares of one Fund to another will be notified of any such suspension in such manner as may be directed by the Directors and their requests will be dealt with on the first Dealing Day after the suspension is lifted. Any such suspension shall be notified immediately, and in any event within the same Business Day, to the Central Bank, to the competent authorities in any jurisdiction where the Company (and its relevant Funds) are registered for sale and to the Relevant Stock Exchanges (if any) where the Shares of the relevant Fund are listed. Details of any such suspension will also be notified to all Shareholders and will be published in a newspaper circulating in an appropriate jurisdiction, to the extent required by law or practice.

LISTING ON A STOCK EXCHANGE

It is the intention of the Company certain of its Funds through having its Shares listed on one or more Relevant Stock Exchanges will qualify as an ETF. As part of those listings there is an obligation on one or more members of the Relevant Stock Exchange to act as market makers offering prices at which the Shares can be purchased or sold by investors. The spread between those purchase and sale prices may be monitored and regulated by the relevant stock exchange authority.

Unless otherwise stated in the Supplement for the relevant Fund, it is contemplated that application will be made to list the Shares of each Fund on Relevant Stock Exchanges.

The Company does not charge any transfer fee for purchases of Shares on the secondary market.

Orders to buy Shares through the Relevant Stock Exchanges can be placed via a member firm or stockbroker. Such orders to buy Shares may incur costs over which the Company has no control.

The approval of any listing particulars pursuant to the listing requirements of the Relevant Stock Exchange does not constitute a warranty or representation by such Relevant Stock Exchange as to the competence of the service providers or as to the adequacy of information contained in the listing particulars or the suitability of the Shares for investment or for any other purpose.

If the Directors decide to create additional Funds or Classes it may in its discretion apply for the Shares of such Funds to be listed on the Relevant Stock Exchange. For so long as the Shares of any Fund are listed on any Relevant Stock Exchange, the Fund shall endeavour to comply with the requirements of the Relevant Stock Exchange relating to those Shares. For the purposes of compliance with the national laws and regulations concerning the offering and/or listing of the Shares outside Ireland this document may have attached to it one or more documents setting out information relevant for the jurisdictions in which the Shares are offered for subscription.

Each Class of Shares of a Fund may be listed on one or more Relevant Stock Exchanges, further details of which will be set out in the relevant Supplement.

The secretary of the Manager is MFD Secretaries Limited.

The Directors of the Manager are Feargal Dempsey, Gary Buxton, Barry McGrath and Anne-Marie King.

All Directors of the Manager are also Directors of the Company and descriptions are set out above under the section entitled "DIRECTORS OF THE COMPANY".

INVESTMENT MANAGER

The Manager has appointed the Investment Manager, Assenagon Asset Management S.A. ("Assenagon"), to provide investment management and advisory services to the Company. The Investment Manager is a public limited liability company (société anonyme), incorporated on 3 July 2007. The Investment Manager is authorised as a management company pursuant to chapter 15 of the Luxembourg Act of 17 December 2010 on undertakings for collective investment, as amended and as alternative investment fund manager within the meaning of the Act of 12 July 2013. The Investment Manager is not registered as an investment adviser with the SEC or any U.S. state regulatory authority and the investors in the Funds will not have the benefit of the protections of the Investment Advisers Act of 1940, as amended (the "**Advisers Act**").

Details of any sub-investment manager appointed by the Investment Manager will be provided to Shareholders on request and will be disclosed in the periodic reports issued by the Company.

DEPOSITARY

The Company has appointed Northern Trust Fiduciary Services (Ireland) Limited as depositary of the Company pursuant to the Depositary Agreement with responsibility for acting as depositary and trustee of the assets of each Fund. The Depositary is regulated by the Central Bank. It is a private limited liability company incorporated in Ireland on 5 July 1990. The registered office of Northern Trust Fiduciary Services (Ireland) Limited is Georges Court, 54-62 Townsend Street, Dublin 2, Ireland. The Depositary and its subsidiaries comprise the Northern Trust Group, one of the world's leading providers of global custody and administration services to institutional and personal investors. Its main activity is the provision of custodial and depositary services to collective investment schemes. As at 31 March 2019, the Northern Trust Group's assets under custody totalled in excess of US\$8.2 trillion.

The Depositary shall carry out functions in respect of the Company including but not limited to the following:

- (i) the Depositary shall hold in custody all financial instruments capable of being registered or held in a financial instruments account opened in the Depositary's books within segregated accounts opened in the name of the Company, or the Manager on behalf of the Company, which are clearly identified as belonging to the Company and hold in custody all financial instruments capable of being physically delivered to the Depositary;
- (ii) the Depositary shall verify the Company's ownership of all any assets (other than those referred to in (i) above) and maintain and keep up-to-date a record of such assets it is satisfied are owned by the Company;
- (iii) the Depositary shall ensure effective and proper monitoring of the Company's cash flows (which function includes ensuring that cash of the Company has been booked in cash accounts (such as Umbrella Cash Accounts) which meet the requirements of the Regulations);
- (iv) the Depositary shall be responsible for certain fiduciary and oversight obligations in respect of the Company – see "Summary of Oversight Obligations" below.

Duties and functions in relation to (iii) and (iv) above may not be delegated by the Depositary.

Summary of Oversight Obligations:

The Depositary is obliged, among other things, to:

- (a) ensure that the sale, issue, repurchase, redemption and cancellation of Shares effected by or on behalf of the Company are carried out in accordance with the Regulations and the Constitution;
- (b) ensure that the value of Shares is calculated in accordance with the Regulations and the Constitution;
- (c) carry out the instructions of the Company unless they conflict with the Regulations or the Constitution;
- (d) ensure that in each transaction involving the Company's assets, any consideration is remitted to it within the usual time limits;
- (e) ensure that the Company's income is applied in accordance with the Regulations and the Constitution;
- (f) enquire into the conduct of the Company in each accounting period and report thereon to the Shareholders. The Depositary's report will be delivered to the Manager in good time to enable the Manager to include a copy of the report in the annual report of the Company. The Depositary's report will state whether in the Depositary's opinion the Company has been managed in that period:
 - (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Central Bank, the Constitution and the Regulations; and
 - (ii) otherwise in accordance with the provisions of the Regulations and the Constitution.

If the Company has not been managed in accordance with (i) or (ii) above, the Depositary will state why this is the case and will outline the steps that the Depositary has taken to rectify the situation.

- (g) notify the Central Bank promptly of any material breach by the Company or the Depositary of any requirement, obligation or document to which Regulation 114(2) of the Central Bank UCITS Regulations relates; and
- (h) notify the Central Bank promptly of any non-material breach by the Company or the Depositary of any requirement, obligation or document to which Regulation 114(2) of the Central Bank UCITS Regulations relates where such breach is not resolved within 4 weeks of the Depositary becoming aware of such non-material breach.

The duties provided for above may not be delegated by the Depositary to a third party.

In discharging its role, the Depositary shall act honestly, fairly, professionally, independently and in the interests of the Company and the Shareholders.

ADMINISTRATOR

Northern Trust International Fund Administration Services (Ireland) Limited has been appointed administrator, registrar and transfer agent under the Administration Agreement. The Administrator is a private limited liability company incorporated in Ireland on 15 June 1990 and is an indirect wholly owned subsidiary of Northern Trust Corporation. Northern Trust Corporation and its subsidiaries comprise the Northern Trust Group, one of the world's leading providers of global custody and administration services to institutional and personal investors. As at 31 March 2019, the Northern Trust Group's assets under custody totalled in excess of US\$10.9 trillion. The principal business activity of the Administrator is the administration of both Irish domiciled and non-Irish domiciled collective investment schemes. The Administrator is authorised and regulated by the Central Bank of Ireland. The registered office of Northern Trust International Fund Administration Services (Ireland) Limited is Georges Court, 54-62 Townsend Street, Dublin 2, Ireland.

The duties and functions of the Administrator include, inter alia, the calculation of the Net Asset Value and the Net Asset Value per Share, the keeping of all relevant records in relation to the Company as may be required with respect to the obligations assumed by it pursuant to the Administration Agreement, the preparation and maintenance of the Company's books and accounts, liaising with the auditor in relation to

the audit of the financial statements of the Company and the provision of certain Shareholder registration and transfer agency services in respect of shares in the Company.

As at the date of this Prospectus, the Administrator is not aware of any conflicts of interest in respect of its appointment as administrator to the Company. If a conflict of interest arises, the Administrator will ensure it is addressed in accordance with the Administration Agreement, applicable laws and in the best interests of the Shareholders.

The Administrator is not involved directly or indirectly with the business affairs, organisation, sponsorship or management of the Company and is not responsible for the preparation of this document other than the preparation of the above description and accepts no responsibility or liability for any information contained in this document except disclosures relating to it.

AUTHORISED PARTICIPANTS

The Company has appointed several entities as Authorised Participants who are authorised to subscribe for and redeem Shares of a Fund on a cash or in-kind basis.

PAYING AGENT

The Manager has appointed a Paying Agent for Shares in the Funds. In such capacity, the Paying Agent will be responsible for, among other things, ensuring that payments received by the Paying Agent from the Company are duly paid; maintaining independent records of securities, dividend payment amounts; and communicating information to the relevant ICSD. Payment in respect of the Shares will be made through the relevant ICSD in accordance with the standard practices of the applicable ICSD. The Manager may vary or terminate the appointment of the Paying Agent or appoint additional or other registrars or paying agents or approve any change in the office through which any registrar or paying agent acts. Citibank Europe plc is currently appointed by the Manager as Paying Agent, in accordance with a paying agency and account bank agreement dated on or about the date hereof between, inter alia, the Manager and the Paying Agent.

12. IRISH TAXATION

The following statements are by way of a general guide to potential investors and Shareholders only and do not constitute tax advice. Shareholders and potential investors are therefore advised to consult their professional advisers concerning possible taxation or other consequences of purchasing, holding, selling or otherwise disposing of the Shares under the laws of their country of incorporation, establishment, citizenship, residence or domicile.

Shareholders and potential investors should note that the following statements on taxation are based on advice received by the Directors regarding the law and practice in force in the relevant jurisdiction at the date of this Prospectus and proposed regulations and legislation in draft form. As is the case with any investment, there can be no guarantee that the tax position or proposed tax position prevailing at the time an investment is made in the Company will endure indefinitely as the basis for and rates of taxation can fluctuate.

Taxation of the Company

The Company will be regarded as resident in Ireland for tax purposes provided that the Company is incorporated in Ireland and is not, by virtue of a double taxation treaty between Ireland and another country, regarded as resident in a country other than Ireland. The Company should be regarded as resident in Ireland for tax purposes if it is managed and controlled in Ireland and the Company is not regarded as resident elsewhere.

It is the intention of the Directors that the business of the Company will be conducted in such a manner as to ensure that it is Irish resident for tax purposes.

The Directors have been advised that the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Act. Under current Irish law and practice, on that basis, the Company is not chargeable to Irish tax on its income and gains.

Notwithstanding the above, tax can arise for the Company in respect of Shareholders who are Irish Taxable Persons (generally persons who are resident or ordinarily resident in Ireland for tax purposes - see "**Definitions**" for further detail) , on the happening of a "chargeable event" in the company.

A chargeable event includes:

- (a) A payment of any kind to Shareholders by the Company in respect of their Shares;
- (b) any transfer, cancellation, encashment, redemption or repurchase of Shares; and
- (c) any deemed disposal (a deemed disposal will occur at the expiration of a Relevant Period) of Shares or the appropriation or cancellation of Shares by the Company for the purposes of meeting the amount of tax payable on a gain arising on a transfer.

A "Relevant Period" means a period of eight years beginning with the acquisition of Shares by a Shareholder, and each subsequent period of eight years beginning immediately after the preceding relevant period,

No chargeable events will arise in respect of a Shareholder who is neither Irish Resident nor Ordinarily Resident in Ireland at the time of the chargeable event provided that a Relevant Declaration is in place, in the form prescribed by the Irish Revenue Commissioners for the purpose of section 739D of the Taxes Act, and that the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct.

A chargeable event does not include:

- i. any transaction in relation to Shares held in a recognised clearing system as designated by the order of the Irish Revenue Commissioners;
- ii. any exchange by a shareholder effected by way of a bargain made at arm's length by the Company, of shares of one class in the Company for Shares of another class in the Company;
- iii. certain transfers of Shares between spouses or civil partners and former spouses or former civil partners
- iv. An exchange of shares arising on a qualifying amalgamation or reconstruction (within the meaning of Section 739H of the Taxes Act) of the Company with another investment undertaking; or

- v. the cancellation of Shares in the Company arising from an exchange in relation to a scheme of amalgamation (as defined in Section 739H(A) of the Taxes Act);
- vi. an exchange of shares arising on a scheme of amalgamation (within the meaning of Section 739D(8C) of the Taxes Act) subject to certain conditions.
- vii. Any transaction in relation to, or in respect of, relevant Shares (as defined in Section 739B(2A) of the Taxes Act) in an investment undertaking whereby the transaction only arises by virtue of a change of court funds manager for that undertaking

Equivalent Measures

The Taxes Act provides for measures commonly referred to as equivalent measures to amend the rules with regard to Relevant Declarations. No tax arises on an investment undertaking with regard to chargeable events in respect of a Shareholder who was neither Irish Resident nor Irish Ordinarily Resident at the time of the chargeable event, provided that a Relevant Declaration was in place and the Company was not in possession of any information which would reasonably suggest that the information contained therein was no longer materially correct. In the absence of a Relevant Declaration being in place there is a presumption that the investor is Irish Resident or Irish Ordinarily Resident.

Further provisions permit the above exemption in respect of Shareholders who are not Irish Resident nor Irish Ordinarily Resident to apply where the investment undertaking is not actively marketed to such investors and appropriate equivalent measures are put in place by the investment undertaking to ensure that such Shareholders are not Irish Resident nor Irish Ordinarily Resident and the investment undertaking has received approval from the Revenue Commissioners in this regard.

Where tax is payable on a chargeable event it is a liability of the Company which is recoverable by deduction or, in the case of a transfer and deemed disposal by cancellation or appropriation of Shares from the relevant Shareholders. In certain circumstances, and only after notification by the Company to a Shareholder, the tax payable on a deemed disposal can at the election of the Company become a liability of the Shareholder rather than the Company. In such circumstances the Shareholder must file an Irish tax return and pay the appropriate tax (at the rate set out below) to the Irish Revenue Commissioners.

In the absence of a Relevant Declaration being received by the Company or Equivalent Measures being in place, there is a presumption that the investor is Irish Resident or Irish Ordinary Resident and the Company would be obliged to pay tax on the occasion of a chargeable event. Tax at the rate of 41% will be deducted by the Company in respect of a chargeable event on any payment to a Shareholder, on a transfer of Shares or on a deemed disposal. In respect of a deemed disposal there is a mechanism for obtaining a refund of tax where the Shares are subsequently disposed of for a lesser value.

Personal Portfolio Investment Undertaking (“PPIU”)

There is an anti-avoidance provision that increases the 41% rate of tax to 60% (80% where details of the payment/disposal are not correctly included in the individual’s tax returns) where an investment in a Fund constitutes a personal portfolio investment undertaking (“PPIU”). Essentially, an investment undertaking will be considered a PPIU in relation to a specific investor where that investor can influence the selection of some or all of the property held by the investment undertaking either directly or through persons acting on behalf of or connected to the investor. Depending on individuals’ circumstances, an investment undertaking may be considered a PPIU in relation to some, none or all individual investors (i.e. it will only be a PPIU in respect of those individuals’ who can “influence” selection). Specific exemptions apply where the property invested in has been widely marketed and made available to the public or for non-property investments entered into by the investment undertaking. Further restrictions may be required in the case of investments in land or unquoted shares deriving their value from land.

In the case of a shareholder who is a company the rate of tax on a chargeable event is 25%.

Other than in the circumstances described above the Company will have no liability to Irish taxation on income or chargeable gains.

Shareholders

The Irish taxation treatment applying to Shareholders in the Company is set out below and is dependent on which of the following categories into which they fall:

(i) Shareholders whose Shares are held in a Recognised Clearing and Settlement System

Any payments to a Shareholder or any encashment, redemption, cancellation or transfer of Shares held in a Recognised Clearing and Settlement System will not give rise to a chargeable event in the Company (there is however ambiguity in the legislation as to whether the rules outlined in this paragraph with regard to Shares held in a Recognised Clearing and Settlement System, apply in the case of chargeable events arising on a deemed disposal, therefore, as previously advised, Shareholders should seek their own tax advice in this regard). Thus the Company will not have to deduct any Irish taxes on such payments regardless of whether they are held by Shareholders who are Irish Residents or Ordinarily Resident in Ireland, or whether a non-resident Shareholder has made a Relevant Declaration. However, Shareholders who are Irish Resident or Ordinarily Resident in Ireland or who are not Irish Resident or Ordinarily Resident in Ireland but whose Shares are attributable to a branch or agency in Ireland may still have a liability to account for Irish tax on a distribution or encashment, redemption or transfer of their Shares.

Where Shares are held in a Recognised Clearing and Settlement System, the obligation falls on the Shareholder (rather than the Company) to self-account for any tax arising on a chargeable event. In the case of an individual, tax currently at the rate of 41% should be accounted for by the Shareholder in respect of any distribution or gain arising to the individual Shareholder on an encashment, redemption or transfer of Shares by a Shareholder. Where the investment constitutes a "PPIU", tax at a rate of 60% should be accounted for by the Shareholder. These rates apply where the individual Shareholder has correctly included details of the income in a timely tax return.

Where Shares are held in a Recognised Clearing and Settlement System, the obligation falls on the Shareholder (rather than the Company) to self-account for any tax arising on a chargeable event if the Shareholder is Irish Resident, Ordinary Resident or a non Exempted Irish Investor. In the case of an individual, tax currently at the rate of 41% should be accounted for by the Shareholder in respect of any distribution or gain arising to the individual Shareholder on an encashment, redemption, cancellation or transfer of Shares by a Shareholder. Where the investment constitutes a "PPIU", tax at a rate of 60% should be accounted for by the Shareholder. These rates apply where the individual Shareholder has correctly included details of the income in a timely tax return (tax at a rate of 80% applies where details of the payment/disposal are not correctly included in the individual's tax returns).

Where the Shareholder is a company, any payment will be treated as income tax chargeable to tax under Case IV of Schedule D of the TCA.

A Relevant Declaration or approval in relation to appropriate equivalent measures is not required to be made where the Shares, , are held in a Recognised Clearing and Settlement System. It is the current intention of the Directors that all of the Shares will be held in a Recognised Clearing and Settlement System. If, in the future, the Directors permit Shares to be held in certificated form outside a Recognised Clearing and Settlement System, prospective investors for Shares on subscription and proposed transferees of Shares will be required to complete a Relevant Declaration as a prerequisite to being issued Shares in the Company or being registered as a transferee of the Shares (as the case may be). A Relevant Declaration will not be required to be completed in this regard where the Company has received approval from the Irish Revenue Commissioners where appropriate Equivalent Measures have been put in place.

(ii) Shareholders who are neither Irish Residents nor Irish Ordinary Residents and their Shares are not held in a Recognised Clearing and Settlement System

The Company will not have to deduct tax on the occasion of a chargeable event in respect of a Shareholder if (a) the Shareholder is neither Irish Resident nor Irish Ordinary Resident, (b) the Shareholder has made a Relevant Declaration and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct, or (c) where the Company has received approval from the Irish Revenue Commissioners that appropriate Equivalent Measures have been put in place to ensure that the Shareholders in the Company are neither Irish Resident nor Irish Ordinary Resident.

To the extent that a Shareholder is acting as an Intermediary on behalf of persons who are neither Irish Resident nor Irish Ordinary Resident, no tax will have to be deducted by the Company on the occasion of a chargeable event provided that the Intermediary has made a Relevant Declaration that he/she is acting on behalf of such persons and the Company is not in possession of any

information which would reasonably suggest that the information contained therein is no longer materially correct.

Shareholders who are neither Irish Residents nor Irish Ordinary Residents and who have made Relevant Declarations or where the Equivalent Measures Regime applies will not be subject to tax on any distributions from the Company or in respect of any gain arising on repurchase, redemption, cancellation or transfer of their Shares provided the Shares are not held through a branch or agency in Ireland and the Shares, if unlisted, do not derive the greater part of their value from Irish land or mineral rights. No tax will be deducted from any payments made by the Company to those Shareholders who are not Irish Taxable Persons.

(iii) Shareholders who are Irish Resident or Irish Ordinary Resident and their Shares are not held in a Recognised Clearing and Settlement System

Unless (a) a Shareholder is an Exempted Irish Investor, makes a Relevant Declaration to that effect and the Company is not in possession of any information which would reasonably suggest that the information contained therein is not, or is no longer materially correct; or (b) if the Company has received approval from the Irish Revenue Commissioners, tax will be required to be deducted by the Company on any other distribution or gain arising to the Shareholder (other than an Exempted Irish Investor who has made a Relevant Declaration) on an encashment, redemption, cancellation or transfer of shares by a Shareholder who is Irish Resident or Irish Ordinary Resident (other than a Shareholder which is a company and has made the Relevant Declaration).

Tax at the rate of 25% will have to be deducted by the Company in respect of a Shareholder which is a company and has made a Relevant Declaration. There are a number of Irish Residents and Ordinary Residents who are exempted from the provisions of the above regime once Relevant Declarations are in place. These are Exempted Irish Investors. Additionally, where Shares are held by the Courts Service no tax is deducted by the Company on payments made to the Courts Service. The Courts Service will be required to operate tax on payments to it by the Company when they allocate those payments to the beneficial owners.

Irish Resident corporate Shareholders who receive distributions or realise gains on encashment, redemption, cancellation or transfer of their shares from which tax has been deducted will be treated as having received an annual payment chargeable to tax under Case IV of Schedule D of the TCA from which tax at the standard rate, currently 25%, has been deducted. In general, such Shareholders will be taxable on any income or gains as part of that trade with a set-off against corporation tax payable for any tax deducted by the Company. In general, non-corporate Shareholders who are Irish Resident or Irish Ordinary Resident will not be subject to further Irish tax on income from their Shares or gains made on disposal of the Shares where tax has been deducted by the Company on payments received. Where a currency gain is made by a Shareholder on the disposal of his/her Shares, such Shareholder may be liable to capital gains tax in the year of assessment in which the Shares are disposed of.

Any Shareholder who is Irish Resident or Irish Ordinary Resident and receives a distribution or receives a gain on an encashment, redemption, cancellation or transfer from which tax has not been deducted may be liable to income tax or corporation tax on the amount of such distribution or gain.

Refunds of tax where a Relevant Declaration could be made but was not in place at the time of a chargeable event are generally not available except in the case of certain corporate Shareholders within the charge to Irish corporation tax.

OTHER TAXES

Stamp Duty

No Irish stamp duty will be payable on the subscription, transfer or redemption of Shares on the basis that the Company qualifies as an investment undertaking within the meaning of section 739B TCA provided that no application or redemption for Shares or transfer of Shares is satisfied by an in specie transfer of any Irish situated property.

Capital Acquisitions Tax

No Irish gift tax or inheritance tax (capital acquisitions tax) liability will arise on a gift or inheritance of Shares provided that:

- (a) at the date of the disposition the transferor of the Shares is neither domiciled nor ordinarily resident in Ireland and at the date of the gift or inheritance the transferee of the Shares is neither domiciled nor ordinarily resident in Ireland; and
- (b) the Shares are comprised in the gift or inheritance at the date of the gift or inheritance and the valuation date.

U.S. Reporting and Withholding Requirements

The foreign account tax compliance provisions ("**FATCA**") of the Hiring Incentives to Restore Employment Act ("**HIRE Act**") constitute an expansive information reporting regime enacted by the United States aimed at ensuring that U.S. persons with financial assets outside the U.S. are paying the correct amount of U.S. tax. The new rules are effectively designed to require U.S. persons' direct and indirect ownership of non-U.S. accounts and non-U.S. entities to be reported to the IRS. The FATCA reporting regime is enforced through a 30% withholding tax with respect to certain U.S. source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce U.S. source interest or dividends ("**Withholdable Payments**"). The withholding rules apply to persons making Withholdable Payments after 30 June 2014 to foreign financial institutions ("**FFIs**"), including investment funds (such as the Company) and other non-U.S. entities that fail to comply with FATCA. In addition, FATCA imposes a 30% withholding tax on any passthru payments. A passthru payment is broadly defined as a Withholdable Payment or other payment to the extent attributable to a Withholdable Payment (the latter, "**Foreign Passthru Payments**"). The idea is to encourage FFIs to enter into an agreement (a "**FFI Agreement**") with the IRS if they hold investments that produce payments attributable to Withholdable Payments even if they do not hold assets that produce Withholdable Payments directly.

In recognition of both the fact that that the stated policy objective of FATCA is to achieve reporting (as opposed to being solely the collecting of withholding tax) and the difficulties which may arise in certain jurisdictions with respect to compliance by FFIs, the US developed an intergovernmental approach to the implementation of FATCA. On 21 December 2012, the governments of Ireland and the United States signed an intergovernmental agreement to Improve International Tax Compliance and to Implement FATCA (the "**Irish IGA**") and provisions were included in Finance Act 2013 for the implementation of the Irish IGA and also to permit regulations to be made by the Irish Revenue Commissioners with regard to registration and reporting requirements arising from the IGA. In this regard, the Revenue Commissioners (in conjunction with the Department of Finance) have issued Regulations – S.I. No. 292 of 2014 which is effective from 1 July 2014. Supporting Guidance Notes (which is updated on an ad-hoc basis) were first issued by the Irish Revenue Commissioners on 1 October 2014 with the most recent version being issued in January 2018.

The Irish IGA provides that Irish financial institutions will report to the Irish Revenue Commissioners by 30 June following the end of the relevant calendar year in respect of US account-holders and, in exchange, U.S. financial institutions will be required to report to the U.S. Internal Revenue Service in respect of any Irish-resident account-holders. The two tax authorities will then automatically exchange this information on an annual basis.

It is expected that the Company will constitute a reporting financial institution for the purposes of the Irish IGA, however; generally it should not have to report any information to the Irish Revenue Commissioners on the basis that the shares are expected to be regarded as regularly traded on an established securities market and should therefore not constitute a financial account under the Irish IGA, to the extent that the shares are listed and regularly traded on such securities market. Reporting may be required in respect of any shares that are not regarded as regularly traded.

The Company (and / or the Administrator or Investment Manager) shall be entitled to require investors to provide any information regarding their tax status, identity or residency in order to satisfy any reporting requirements which the Company may have as a result of the Irish IGA and investors will be deemed, by their subscription for or holding of Shares to have authorised the automatic disclosure of such information by the Issuer or any other person to the relevant tax authorities.

Each investor will agree in its Subscription Agreement to provide such information upon request from the Company. To the extent a Fund or the Company does suffer U.S. withholding tax on its investments as a result of FATCA, the Directors of the Manager may take any action in relation to an investor's investment in a Fund or the Company to ensure that such withholding is economically borne by the relevant investor whose failure to provide the necessary information gave rise to the withholding.

Each prospective investor should consult its own tax advisers regarding the requirements under FATCA or an inter-governmental agreement with respect to its own situation.

Common Reporting Standard

On 14 July 2014, the OECD issued the Standard for Automatic Exchange of Financial Account Information ("**the Standard**") which therein contains the Common Reporting Standard ("**CRS**"). The subsequent introduction of the Multilateral Competent Authority Agreement on Automatic Exchange of Financial Account Information and the EU Council Directive 2014/107/EU (amending Council Directive 2011/16/EU) provides the international framework for the implementation of the CRS by Participating Jurisdictions. In this regard, the CRS was implemented into Irish law by the inclusion of relevant provisions in Finance Act 2014 and 2015 and the issuance of Regulation S.I. No. 583 of 2015.

The main objective of the CRS is to provide for the annual automatic exchange of certain financial account information between relevant tax authorities of Participating Jurisdictions.

The CRS draws extensively on the intergovernmental approach used for the purposes of implementing FATCA and, as such, there are significant similarities between both reporting mechanisms. However, whereas FATCA essentially only requires reporting of specific information in relation to Specified US Persons to the IRS, the CRS has a significantly wider ambit due to the multiple jurisdictions participating in the regime.

It should also be noted that the exclusion of shares that are regularly traded on an established securities market from the definition of financial account for the purposes of FATCA does not apply in the case of the CRS.

Broadly speaking, the CRS will require Irish Financial Institutions to identify Account Holders resident in other Participating Jurisdictions and to report specific information in relation to the Account Holders to the Irish Revenue Commissioners on an annual basis (which, in turn, will provide this information to the relevant tax authorities where the Account Holder is resident). In this regard, please note that the Company will be considered an Irish Financial Institution for the purposes of the CRS.

IRISH RESIDENCE AND ORDINARY RESIDENCE FOR TAX PURPOSES

Residence - Company

A company which has its central management and control in the Republic of Ireland (the "**State**") is resident in the State irrespective of where it is incorporated. A company which does not have its central management and control in the State but which is incorporated in the State is resident in the State except where:-

- (a) the company or a related company carries on a trade in the State, and either the company is ultimately controlled by persons resident in EU Member States or, in countries with which the Republic of Ireland has a double taxation treaty, or the company or a related company are quoted companies on a recognised Stock Exchange in the EU or in a tax treaty country, provided that, in each case, the company is not centrally managed and controlled in a jurisdiction which does not apply a residency test based on central management and control; or
- (b) the company is regarded as not resident in the State under a double taxation treaty between the Republic of Ireland and another country.

It should be noted that the determination of a company's residence for tax purposes can be complex in certain cases and declarants are referred to the specific legislative provisions which are contained in section 23A TCA.

Residence - Individual

An individual will be regarded as being resident in Ireland for a tax year if s/he:

- (i) is present in the State for 183 days or more in that tax year; or
- (ii) has a combined presence of 280 days in the State, taking into account the number of days spent in the State in that tax year together with the number of days spent in the State in the preceding year.

Presence in a tax year by an individual of not more than 30 days in the State will not be reckoned for the purpose of applying the two year test. Presence in the State for a day means the personal presence of an individual at any point during the day.

Ordinary Residence - Individual

The term "**ordinary residence**" as distinct from "**residence**", relates to a person's normal pattern of life and denotes residence in a place with some degree of continuity.

An individual who has been resident in the State for three consecutive tax years becomes ordinarily resident with effect from the commencement of the fourth tax year.

An individual who has been ordinarily resident in the State ceases to be ordinarily resident at the end of the third consecutive tax year in which s/he is not resident. Thus, an individual who is resident and ordinarily resident in the State in 2011 and departs from the State in that tax year will remain ordinarily resident up to the end of the tax year ending 31 December 2014.

Intermediary

This means a person who:-

- (i) carries on a business which consists of, or includes, the receipt of payments from an investment undertaking resident in Ireland on behalf of other persons, or
- (ii) holds shares or units in an investment undertaking on behalf of other persons.

Other Jurisdictions

The income and/or gains of a Company from its securities and assets may suffer withholding tax in the countries where such income and/or gains arise. The Company may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in repayment to that Company, the Net Asset Value of the Company will not be restated and the benefit will be allocated to the existing Shareholders rateably at the time of repayment.

Publication of Information

The current Net Asset Value per Share of each Class of Shares is available daily after each Valuation Point, following its calculation from the Administrator and on the Website.

The Net Asset Value per Share for each Fund will be published in its respective Base Currency.

13. UK TAXATION

The statements on taxation below do not constitute legal or tax advice and are a general summary of the anticipated United Kingdom tax treatment of United Kingdom resident, ordinarily resident and domiciled investors holding Shares as an investment.

The summary is based on the taxation law in force and practice understood to be applicable in the United Kingdom on the date of this Prospectus, but prospective investors should be aware that the relevant fiscal rules and practice or their interpretation may change, possibly with retrospective effect. The summary is not a guarantee to any investor of the tax results of investing in a Fund of the Company.

The bases and levels of, and any relief from, taxation can change. Prospective investors should inform themselves of, and where appropriate take advice on, the tax consequences applicable to the subscription, purchase, holding and redemption of Shares in the country of their citizenship, residence or domicile.

Taxation of the Company

It is the intention of the Directors to conduct the affairs of the Company so that it does not become resident in the United Kingdom for taxation purposes. Accordingly, and provided that the Company does not exercise a trade in the United Kingdom through a fixed place of business or agent situated therein that constitutes a "permanent establishment" for UK tax purposes and all its trading transactions in the United Kingdom are carried out through a broker or investment manager acting as an agent of independent status in the ordinary course of their business,, the Company will not be liable to United Kingdom income tax or corporation tax on income or gains earned on or derived from the Company's investments other than withholding tax on certain UK source income.

The Directors intend that the affairs of the Company are conducted so that no such permanent establishment will arise insofar as this is within their control, but it cannot be guaranteed that the conditions necessary to prevent this will at all times be satisfied.

It is not expected that the activities of the Company will be regarded as trading activities for the purposes of UK taxation. However, to the extent that trading activities are carried on in the UK, they may in principle be liable to UK tax. The profit from such trading activities will not, based on Section 1146 of the Corporation Tax Act 2010 and Section 835M of the Income Tax Act 2007, be assessed to UK tax provided that the Company, the Manager and the Investment Adviser meet certain conditions. The Directors, the Manager and the Investment Advisers intend to conduct the respective affairs of the Company, the Manager and Investment Advisers so that all the conditions are satisfied, so far as those conditions are within their respective control. Certain interest and other income received by the Company, which has a UK source, may be subject to deduction of tax in the UK.

From April 2020, income that non-resident companies receive from UK property and gains that arise from the disposal of UK property by non-resident companies will be chargeable to corporation tax.

Income and gains received by the Company may be subject to withholding or similar taxes imposed by the country in which such returns arise.

Taxation of Shareholders

Subject to their personal tax position, Shareholders who are resident or ordinarily resident in the UK for taxation purposes should be aware that, under current rules, their Shares in each of the Funds are likely to constitute interests in an "offshore fund" for the purposes of Part 8 of the Taxation (International and Other provisions etc) Act 2010. Each share class within a fund is treated as an offshore fund for the purposes of United Kingdom taxation. Where such a person holds such an interest, any gain arising to that person on the sale, redemption or other disposal of that interest (including a deemed disposal on death) will be taxed at the time of such sale, redemption or other disposal as income ("offshore income gains") and not as capital gain, unless the relevant fund share class has been certified by HMRC as a "reporting fund" for each of its accounting periods during which the person has held that interest.

In broad terms, under the Offshore Funds (Tax) Regulations 2009 ("the **Offshore Regulations**"), a "reporting fund" is an offshore fund that meets certain upfront and annual reporting requirements to HMRC and its Shareholders. Such annual duties will include calculating and reporting the income returns of the offshore fund for each reporting period (as defined for UK tax purposes) on a per-share basis to all relevant Shareholders. UK Shareholders which hold their interests at the end of the reporting period to which the reported income relates will be subject to income tax or corporation tax on the higher of any cash

distribution paid and the full reported amount. The reported income will be deemed to arise to UK Shareholders six months following the end of the relevant holding period.

Once reporting fund status is obtained from HMRC for the relevant classes, it will remain in place permanently so long as the annual requirements are undertaken. Should investors require further information on the implications of the Funds obtaining such status, they should seek professional advice.

The Directors may seek certification of any of the Funds as a "reporting fund", as the effect of a fund being a "reporting fund" would be that any UK resident investors would be subject to UK income tax on the share of the Fund's income attributable to their interest in the Fund and capital gains tax will apply on disposal. When a Fund is not so certified, under current rules, any gain realised by UK resident or ordinarily resident investors on a sale, redemption or other disposal of their Shares (including a deemed disposal on death) will be taxed as income and not as capital gains. The precise consequences of such treatment will depend upon the individual tax position of each investor, but UK resident or ordinarily resident individual investors should be aware that, in particular, they may be subject to income tax and will not be able to take advantage of the capital gains tax annual exemption; and corporations may not be able to utilise indexation relief to reduce their liability to UK tax on any such gain. Such investors who are natural persons and resident but not domiciled in the UK and who elect to be taxed on a remittance basis will not however be subject to tax on such unremitted gains. UK pension funds should also be unaffected by these rules, since their exemption from UK tax on capital gains should extend to gains treated as income under these provisions.

Under the rules for the taxation of corporate and government debt contained in the Finance Act 1996, if the holding of any Fund in "qualifying investments" at any time exceeds 60% of the market value of all investments held by that Fund, a company resident in the United Kingdom for taxation purposes that holds Shares in that Fund will be subject to tax as income on all profits and gains arising from and fluctuations in the value (calculated at the end of each accounting period of the investor and at the date of disposal of the interest) of the Shares, or obtain tax relief on any equivalent decrease in value, as determined in accordance with a fair value accounting. "Qualifying Investments" are: (a) money placed at interest (other than cash awaiting investment); (b) securities (other than shares in a company); (c) shares in a building society; (d) qualifying holdings in a unit trust scheme, an offshore fund or an open-ended investment company (this can be interpreted as a holding in a unit trust, offshore fund or OEIC which would itself fail the non-qualifying investment test in respect of its holdings of investments listed in (a) to (c) above); (e) derivative contracts in respect of currency or any of the matters listed in (a) to (d) above; and (f) contracts for differences relating to interest rates, credit worthiness or currency. These rules will apply to a UK resident corporate investor if the 60% limit is exceeded at any time during that investor's accounting period, even if it was not holding Shares in the Fund at that time. Given the current investment policy of the Company and the Funds, these rules are likely to be relevant to UK resident corporate investors. Special rules apply to investors that are insurance companies and investment trusts, authorised unit trusts and open ended investment companies in the United Kingdom.

Shareholders subject to UK income tax will pay tax at their full income tax marginal rate on such "interest distributions" if the Funds hold more than 60% of their assets in qualifying investments at any time during the relevant period. Otherwise, income distributions received will be taxed as dividends at the lower dividend marginal rates. From 22 April 2009, individual Shareholders resident in the UK under certain circumstances may benefit from a non-refundable tax credit in respect of dividends or reported income received from corporate offshore funds invested largely in equities. However, where the offshore fund invests more than 60% of its assets in interest-bearing (or economically similar) assets, distributions or reported income will be treated and taxed as interest in the hands of the individual, with no tax credit.

Under Part 9A of the Corporation Tax Act 2009, dividend distributions by an offshore fund made to companies resident in the UK are likely to fall within one of a number of exemptions from UK corporation tax. In addition, distributions to non-UK companies carrying on a trade in the UK through a permanent establishment in the UK should also fall within the exemption from UK corporation tax on dividends to the extent that the Shares held by that fund are used by, or held for, that permanent establishment. Reported income will be treated in the same way as a dividend distribution for these purposes.

From 6 April 2016, the dividend tax credit regime has been replaced by a new tax-free dividend allowance. An exemption from tax on the first £5,000 of dividend income received will be available to individual shareholders resident in the UK under the new dividend allowance regardless of the non-dividend income they have received. Dividend income received in excess of the £5,000 limit will be taxed at the following rates:

- (i) 7.5% on dividend income within the basic rate band
- (ii) 32.5% on dividend income within the higher rate band
- (iii) 38.1% on dividend income within the additional rate band

Controlled Foreign Companies

The attention of UK resident corporate Shareholders is drawn to the provisions of Part 9A of the Taxation (International and Other Provisions) Act 2010. These provisions affect UK resident companies which are deemed to be interested, either alone or together with certain associated persons, in at least 25% of the "chargeable profits" of a non-resident company (such as the Company), which (i) is controlled by companies or other persons who are resident in the United Kingdom for taxation purposes, (ii) is subject to a "lower level" of taxation, and (iii) does not distribute substantially all of its income. Although it is anticipated that the Distributing Shares will distribute substantially all of the income of the Fund attributable to them, the Accumulation Shares will not, so this legislation may be relevant. The effect of these provisions could be to render such corporate Shareholder companies liable to United Kingdom corporation tax in respect of their share of the profits of the Company unless a number of available exemptions are met. Persons who may be treated as "associated" with each other for these purposes include two or more companies one of which controls the other(s) or all of which are under common control. The Fund's "chargeable profits" for this purpose do not include its capital gains.

Prevention of Avoidance of Income Tax

The attention of Shareholders resident in the UK is drawn to Chapter II of Part XIII of the Income Taxes Act 2007, which may render them liable to income tax in respect of undistributed income or profits of the Company. These provisions are aimed at preventing the avoidance of income tax by individuals through a transaction resulting in the transfer of assets or income to persons (including companies) resident or domiciled abroad and may render them liable to income or corporation tax in respect of undistributed income or profits of the Company on an annual basis. This legislation will, however, not apply if a Shareholder can satisfy HM Revenue & Customs that either:

- (i) it would not be reasonable to draw the conclusion from all the circumstances of the case, that the purpose of avoiding liability to taxation was the purpose, or one of the purposes, for which the relevant transactions or any of them were effected;
- (ii) all the relevant transactions are genuine commercial transactions and it would not be reasonable to draw the conclusion, from all the circumstances of the case, that any one or more of the transactions was more than incidentally designed for the purpose of avoiding liability to taxation; or
- (iii) all the relevant transactions were genuine, arm's length transactions and if the Shareholder were liable to tax under Chapter 2 of Part 13 in respect of such transactions such liability would constitute an unjustified and disproportionate restriction on a freedom protected by Title II or IV of Part Three of the Treaty on the Functioning of the European Union or Part II or III of the EEA Agreement.

Attribution of gains to persons resident in the UK

The attention of Shareholders resident in the UK is drawn to the provisions of Section 13 of the Taxation of Chargeable Gains 1992 ("Section 13"). Under this section, where a chargeable gain accrues to a Company that is not resident in the UK but would be a close company were it resident in the UK, a person may be treated as though a proportional part of that chargeable gain, calculated by reference to their interest in the company, has accrued to them. No liability under Section 13 can be incurred by such a person however, where such a proportion does not exceed one quarter of the gain. Exemptions also apply where none of the acquisition, holding or disposal of the assets had a tax avoidance main purpose or where the relevant gains arise on the disposal of assets used only for the purposes of genuine, economically significant business activities carried on outside the UK. These provisions could, if applied, result in a person being treated as if part of any gain accruing to the Company (such as on a disposal of its investments that constitutes a chargeable gain for those purposes) had accrued to that person directly; that part being equal to the proportion of the assets of the Company to which that person would be entitled on the winding up of the Company at the time when the chargeable gain accrued to the Company. The rules were extended by the provisions of Section 14A of Taxation of Chargeable Gains Act 1992, with effect from 6 April 2008, to individuals who are domiciled outside the UK, subject to the remittance basis in particular circumstances.

As disposals of certain Share classes are subject to tax as offshore income gains, the Regulations rather than Section 13 may apply. Regulation 24 substitutes 'offshore income gain' for any reference to 'chargeable

gain' in Section 13. There is some uncertainty as regards whether Regulation 24 actually operates in the way that it was intended, since it may be interpreted as only applying to offshore income gains generated by offshore funds, as opposed to any capital gains accruing to the offshore funds. Despite this uncertainty, it would be prudent to assume that Regulation 24 applies to all capital gains realised by offshore funds in the same way as Section 13, since this would appear to have been the intention of the UK tax authorities when the legislation was drafted.

UK STAMP DUTY AND STAMP DUTY RESERVE TAX

Liability to UK stamp duty and stamp duty reserve tax will not arise provided that any instrument in writing, transferring Shares in the Company, or shares acquired by the Company, is executed and retained at all times outside the UK. However, the Company may be liable to transfer taxes in the UK on acquisitions and disposals of investments. In the UK, stamp duty or stamp duty reserve tax at a rate of 0.5% will be payable by the Company on the acquisition of shares in companies that are either incorporated in the UK or that maintain a share register there.

Because the Company is not resident in the UK and the register of Shareholders will be kept outside the UK, no liability to stamp duty reserve tax will arise by the reason of the transfer, subscription for and/or redemption of shares except as stated above.

No UK stamp duty should be payable on the transfer, subscription for or redemption of Shares in dematerialised form through the electronic securities settlement systems provided that any such transfer, subscription or redemption will be effected electronically and will not be effected by any written instrument.

Shareholders should note that other aspects of UK taxation legislation may also be relevant to their investment in the Company.

If you are in doubt about your position, or if you may be subject to a tax in a jurisdiction other than the UK, you should consult your independent financial adviser.

14. FEES & EXPENSES

MANAGEMENT CHARGES AND EXPENSES

The Company may pay the fees and expenses of each Fund, which may include the fees and expenses of the Depositary, the Administrator, the Manager, the Promoter and the Investment Manager (each of these service providers may waive all or a portion of the fee it receives for any investor).

GENERAL CHARGES AND EXPENSES

- (a) Share dealing charges: Details of the In-kind Transaction Fee, Transfer Taxes, Subscription Charge, Redemption Charge and any other charges including the Exchange Charge payable on the exchange of Shares (if any) are set out in respect of the Shares of each Fund in the Supplement for the relevant Fund.
- (b) Directors' remuneration: The Directors who are not directors, officers or employees of the Promoter will be entitled to remuneration from the Company for their services as Directors, provided however that the fees that each Director shall receive in respect of any twelve month accounting period shall not exceed €125,000, plus VAT if applicable. In addition, the Directors will also be entitled to be reimbursed for their reasonable and vouched out of pocket expenses incurred in discharging their duties as Directors. Directors' remuneration shall be paid by the Manager.
- (c) Management Fee: In accordance with and subject to the terms of the Management Agreement, the annual Management Fee will be a percentage of the net assets of each Fund or Class of Shares (as will be indicated in the Supplement) payable to the Manager. Management Fees are payable periodically at a rate which is within a range specified in the relevant Supplement of each Fund. The Management Fee will be calculated upon each Dealing Day. Fees payable to the Investment Manager, the Depositary and the Administrator will be payable by the Manager.
- (d) Extraordinary Expenses: The Company shall be liable for Extraordinary Expenses including, without limitation, expenses relating to litigation costs and any tax, levy, duty or similar charge imposed on the Company or its assets that would otherwise not qualify as ordinary expenses. Extraordinary Expenses are allocated across each Class of Shares.
- (e) Setting Up Costs: The cost of establishing the Company and the Funds (including fees in connection with the incorporation and registration of the Company, listing the Funds on the Relevant Stock Exchanges and registering the Funds for sale in other jurisdictions) will be paid by the Manager and/or the Promoter. The cost of establishing subsequent Funds will also be paid by the Manager unless otherwise provided in the Supplement for the relevant Fund.
- (f) Fixed Fees: Fixed Fees means the fees which may be payable by the Company for each Fund in respect of the ordinary fees, expenses and costs incurred by that Fund that include Other Administrative Expenses and Transaction Fees as further described below. Unless a Fixed Fee Arrangement is disclosed in the Supplement for the relevant Fund, such Fixed Fees relating to that Fund will be paid by the Manager out of its fees and not out of the assets of the relevant Fund.
- (g) Other Administrative Expenses: Other Administrative Expenses include but are not limited to; ongoing organisation and registration costs; licence fees payable to licence holders of an index; expenses for legal and auditing services; stamp duties, all taxes and VAT, company secretarial fees, any costs incurred in respect of meetings of Shareholders; marketing and distribution costs, investment transaction charges; costs incurred in respect of the distribution of income to Shareholders; the fees and expenses of any paying agent (which shall be at normal commercial rates), clearing agent or representative appointed in compliance with the requirements of another jurisdiction; the fees and expenses of any consultant appointed to provide services to the Company or the Manager; any amount payable under indemnity provisions contained in the Constitution or any agreement with any appointee of the Company; cost of any proposed listings and maintaining such listings; all reasonable out-of-pocket expenses of the Board of Directors; foreign registration fees and fees relating to the maintenance of such registrations including translation costs and local legal costs and other expenses due to supervisory authorities in various jurisdictions and local representatives' remunerations in foreign jurisdictions; insurance; interest; the costs

of printing and distributing this Prospectus and any costs incurred as a result of periodic updates of this Prospectus or the relevant Supplement, reports, accounts and any explanatory memoranda, any necessary translation fees, any fees in respect of circulating details of the Net Asset Value and such other information which is required to be published in the different jurisdictions, or of a change in law or the introduction of any new law (including any costs incurred as a result of compliance with any applicable code, whether or not having the force of law) may also be paid out of the assets of the Company.

- (h) **Transaction Fees:** Transaction Fees are any fees and expenses incurred in buying and selling securities or other investments held by a Fund, e.g., brokerage costs and commissions and correspondence fees for transferring securities or investments or other interests, unless otherwise specified in the relevant Supplement.
- (i) **Duties and Charges:** Duties and Charges, in relation to any Fund, are all stamp and other duties, taxes, governmental charges, brokerage, bank charges, foreign exchange spreads, interest, depository or sub-custodian charges (relating to sales and purchases), transfer fees, registration fees and other duties and charges whether in connection with the original acquisition or increase of the assets of the relevant Fund or the creation, issue, sale, switching or repurchase of Shares or the sale or purchase of investments or in respect of certificates or otherwise which may have become or may be payable in respect of or prior to or in connection with or arising out of or upon the occasion of the transaction or dealing in respect of which such duties and charges are payable, which, for the avoidance of doubt, includes, when calculating subscription and redemption prices, any provision for spreads (to take into account the difference between the price at which assets were valued for the purpose of calculating the Net Asset Value and the estimated price at which such assets shall be bought as a result of a subscription and sold as a result of a redemption), but shall not include any commission payable to agents on sales and purchases of Shares or any commission, taxes, charges or costs which may have been taken into account in ascertaining the Net Asset Value of Shares in the relevant Fund. The Constitution empower the Directors at their discretion to apply to the Net Asset Value of a Fund a sum representing a provision for Duties and Charges relating to the acquisition and disposal of investments of a Fund. The level and basis of calculating Duties and Charges may also be varied depending on the size of the relevant dealing request and the costs relating to, or associated with, the primary market transactions.

FIXED FEE ARRANGEMENT

The Company may in respect of each Fund (as shall be specified in the relevant Supplement) enter into an arrangement with the Manager, where the Manager will in exchange for a Fixed Fee Payment (as defined in the relevant Supplement), pay the Fixed Fees (which covers the Other Administrative Expenses and Transaction Fees highlighted above but does not for the avoidance of doubt cover the Management Fee or Extraordinary Expenses highlighted above). Where applicable, the Fixed Fee Payment is calculated on the average daily Net Asset Value per Fund or per Class of Shares or the Initial Issue Price (as will be indicated in the Supplement) and is payable periodically.

As the Fixed Fee is determined in advance on an annual basis by the Company and the Manager, investors should note that the amount paid to the Manager may at the end of the year be greater than if the Company would have directly paid these expenses. Conversely, the expenses the Company would have had to pay might be greater than the Fixed Fee and the effective amount paid by the Company to the Manager would be less. The Fixed Fee will be determined and is intended to represent the expected costs to be incurred, on an arm's length basis by the Company and the Manager and will be disclosed in the relevant Supplement.

SOFT COMMISSIONS

It is not currently intended that any soft commission arrangements will be made in respect of the Company. In the event that the Investment Manager or any of its subsidiaries, Affiliates, associates, agents or delegates do enter into soft commission arrangement(s) they shall ensure that (i) the broker or counterparty to the arrangement will agree to provide best execution to the Company; (ii) the benefits under the arrangement(s) shall be those which assist in the provision of investment services to the relevant Fund and (iii) brokerage rates will not be in excess of customary institutional full service brokerage rates. Details of any such arrangements will be contained in the next following report of the Company. In the event that this is

the unaudited semi-annual report, details shall also be included in the following annual report. Any such arrangements will comply with the requirements of Article 11 of MiFID II.

15. DIVIDEND POLICY

The dividend arrangements relating to each Fund will be decided by the Directors at the time of the creation of the relevant Fund and details are set out where applicable in the relevant Supplement.

Under the Constitution, the Directors are entitled to declare such dividends on any Class of Shares at such times as they think appropriate and as appear to be justified out of the profits of the relevant Fund, being (i) the accumulated revenue (consisting of all revenue accrued including interest and dividends) less expenses and/or (ii) realised and unrealised capital gains on the disposal/valuation of investments and other funds less realised and unrealised accumulated capital losses of the relevant Fund and/or the capital of the relevant Fund. Where the dividends will be paid out of the capital of the relevant Fund, this will be disclosed in the relevant Supplement.

To the extent Shares are not held via a Recognised Clearing and Settlement System, the Company will be obliged and entitled to deduct an amount in respect of Irish tax from any dividend payable to any investor who is, or is deemed to be, or is acting on behalf of, an Irish Taxable Person and to pay such amount to the Revenue Commissioners in Ireland. Shareholders are referred to the Irish taxation section which sets out the tax implications for such shareholders.

Distributions of dividends and other payments with respect to Shares in the Company held through a Recognised Clearing and Settlement System will be credited to the cash accounts of such Recognised Clearing and Settlement System' participants in accordance with the relevant system's rules and procedures. Any information or Company communications to Shareholders holding Shares in a settlement system, including voting or proxy materials, Annual Reports etc., will be transmitted to those settlement systems capable of receiving and processing such information for transmission to Shareholders.

Dividends not claimed within six years from their due date will lapse and revert to the relevant Fund. Dividends payable in cash to Shareholders will be paid by electronic transfer at the expense of the payee and will be paid within 4 months of the date the Directors declared the dividend.

16. GENERAL

POTENTIAL CONFLICTS OF INTEREST

The Promoter, the Directors, the Manager, the Investment Manager, the Depositary, the Administrator, the Index Provider, any Shareholder, any Authorised Participant, any Approved Counterparty or market maker which has been appointed to offer prices for the Shares on any Relevant Stock Exchange on which the Classes to which the Shares belong are listed (for the purposes hereof, a Market Maker) and any of their respective subsidiaries, Affiliates, associates, agents or delegates (for the purposes hereof, Connected Persons and each a Connected Person) may:

- (a) contract or enter into any financial, banking or other transactions or arrangements with one another or with the Company including, without limitation, investment by the Company in securities or investment by any Connected Persons in any company or body any of whose investments form part of the assets of the Company or be interested in any such contracts or transactions;
- (b) invest in and deal with shares, securities, assets or any property of the kind included in the property of the Company for their respective individual accounts or for the account of a third party; and
- (c) deal as agent or principal in the sale or purchase of securities and other investments to or from the Company through or with any Connected Person.

The appointment of the Investment Manager, Administrator and Depositary in their primary capacity as service providers to the Company are excluded from the scope of these Connected Person requirements.

Any assets of the Fund in the form of cash or securities may be deposited, subject to the provisions of the Central Bank Acts, 1942 to 2010, of Ireland as amended by the Central Bank and Financial Services Regulatory Authority of Ireland Acts, 2003 to 2004, with any Connected Person. Any assets of the Fund in the form of cash may be invested in certificates of deposit or banking investments issued by any Connected Person. Banking or similar transactions may also be undertaken with or through a Connected Person.

Also, a conflict of interest may arise where the competent person valuing unlisted securities and/or OTC derivatives held by a Fund is the Investment Manager or any other related party to the Company. For example, because the Investment Manager's fees are calculated on the basis of a percentage of a Fund's Net Asset Value, such fees increase as the Net Asset Value of the Fund increases.

Each of the Promoter, the Directors, the Investment Manager, the Depositary, the Administrator, the Index Provider, any Approved Counterparty, the Calculation Agent under any FDI, any counterparty to securities lending arrangements and any other relevant party will use reasonable endeavours to ensure that for the purposes of this section, any conflicts which may arise will be resolved fairly.

There is no prohibition on dealings in the assets of a Fund by Related Parties and/or their respective officers, directors or executives, provided that the transaction is effected on normal commercial terms negotiated at arm's length. Such transactions must be in the best interests of the Shareholders.

Transactions permitted are subject to either:

- (i) a certified valuation by a person approved by the Depositary, or the Company in the case of transactions involving the Depositary, as independent and competent being obtained; or
- (ii) execution of the transaction on the best terms on an organised investment exchanges under their rules; or
- (iii) execution of such transactions is on terms which the Depositary or, in the case of a transaction involving the Depositary, the Manager is satisfied conform with the principle that such transactions be conducted at arm's length and in the best interest of Shareholders.

The Depositary or the Manager in the case of transactions involving the Depositary must document how paragraphs (i), (ii) or (iii) were complied with and, in the case of (iii) above, the rationale evidencing the basis for being satisfied the principles above were complied with.

CONFLICTS OF INTEREST

Subject to the provisions of this section, each Connected Person may contract or enter into any financial, banking or other transaction with one another or with the Company. This includes, without limitation, investment by the Company in securities of any Connected Person or investment by any Connected Persons in any company or bodies any of whose investments form part of the assets comprised in any Fund or be

interested in any such contract or transactions. In addition, any Connected Person may invest in and deal in Shares relating to any Fund or any property of the kind included in the property of any Fund for their respective individual accounts or for the account of someone else.

Any cash of the Company may be deposited, subject to the provisions of the Central Bank Acts, 1942 to 1998, of Ireland as amended by the Central Bank and Financial Services Regulatory Authority of Ireland Acts, 2003 to 2004 with any Connected Person or invested in certificates of deposit or banking instruments issued by any Connected Person. Banking and similar transactions may also be undertaken with or through a Connected Person.

The Manager and the Investment Manager may also, in the course of their respective businesses, have potential conflicts of interest with the Company in circumstances other than those referred to above. Each of the Manager and the Investment Manager will, however, have regard in such event to its obligations under their respective agreements and, in particular, to their obligations to act in the best interests of the Company and the Shareholders so far as practicable, having regard to its obligations to other clients when undertaking any investments where conflicts of interest may arise and will ensure that such conflicts are resolved fairly as between the Company, the relevant Funds and other clients. The Manager and the Investment Manager will ensure that investment opportunities are allocated on a fair and equitable basis between the Company and their other clients. In the event that a conflict of interest does arise the directors of the Manager or the Investment Manager will endeavour to ensure that such conflicts are resolved fairly.

As the fees of the Manager are based on the Net Asset Value of a Fund, if the Net Asset Value of the Fund increases so do the fees payable to the Manager and accordingly there is a conflict of interest for the Manager in cases where the Manager or its delegate is responsible for determining the valuation price of a Fund's investments.

The Directors may act as directors of other collective investment vehicles. Where any potential conflicts of interest arise between their duties to the Company and to third parties, the Directors will endeavour to ensure that any such conflicts will not unfairly prejudice the Company.

Katten Muchin Rosenman LLP is U.S. securities, commodities and tax counsel to the Promoter, as well as to the Company. Because Katten Muchin Rosenman LLP acts as counsel to the Promoter and the Company, certain conflicts of interest exist and may arise. The Company understands the nature of potential conflicts that exist or might develop between them and the Promoter. Based on that knowledge, the Company has agreed that should a conflict of interest develop between the Company and the Promoter, the Company will allow Katten Muchin Rosenman LLP to resign from its representation of the Company and will execute conflict waivers to permit Katten Muchin Rosenman LLP to represent the Promoter against the interests of the Company. Katten Muchin Rosenman LLP may also in the future render services to the Promoter with respect to activities relating to the Company as well as other unrelated activities. Katten Muchin Rosenman LLP is not representing any prospective investors in any Fund in connection with the offering and will not be representing any Shareholders of Shares. Prospective investors are advised to consult their own independent counsel with respect to the legal and tax implications of an investment in one or more Funds.

The Depositary may act as the depositary of other open-ended investment companies and as trustee or custodian of other collective investment schemes. The Depositary has delegated custody services and asset verification services to The Northern Trust Company, London Branch. The Northern Trust Company has sub-delegated custody services and asset verification services to sub-custodians in certain eligible markets in which a Fund may invest. The Depositary has delegated to its global sub-custodian, The Northern Trust Company, London branch, responsibility for the safekeeping of the Company's financial instruments and cash. The global sub-custodian proposes to further delegate these responsibilities to sub-delegates, the identities of which are set forth in Appendix V attached.

It is therefore possible that the Depositary and/or its delegates and sub-delegates may in the course of its or their business be involved in other financial and professional activities which may on occasion have potential conflicts of interest with the Company or a particular Fund and/or other funds managed by the Manager or other funds for which the Depositary acts as the depositary, trustee or custodian. The Depositary will, however, have regard in such event to its obligations under the Depositary Agreement and the Regulations and, in particular, will use reasonable endeavours to ensure that the performance of its duties will not be impaired by any such involvement it may have and that any conflicts which may arise will be resolved fairly and in the best interests of Shareholders collectively so far as practicable, having regard to its obligations to other clients.

LITIGATION AND ARBITRATION

The Company is not involved in any litigation or arbitration nor are the Directors aware of any pending or threatened litigation or arbitration.

DIRECTORS' INTERESTS

- (a) There are no service contracts in existence between the Company and any of its Directors, nor are any such contracts proposed.
- (b) At the date of this Prospectus, no Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and save as disclosed below no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company.
- (c) At the date of this Prospectus none of the Directors nor any Associated Person have any beneficial interest in the share capital of the Company or any options in respect of such capital.
- (d) Barry McGrath is a director of the Company, the Manager and a former partner of the Irish legal advisors to the Company, Maples and Calder. Feargal Dempsey is a director of the Company and the Manager. Gary Buxton is a director of the Company, the Manager and an employee of the Promoter.

DATA PROTECTION

Prospective investors should note that, by virtue of making an investment in the Company and the associated interactions with the Company and its affiliates and delegates (including completing the Application Form, and including the recording of electronic communications or phone calls where applicable), or by virtue of providing the Company with personal information on individuals connected with the investor (for example directors, trustees, employees, representatives, shareholders, investors, clients, beneficial owners or agents) such individuals will be providing the Company and its affiliates and delegates with certain personal information which constitutes personal data within the meaning of the Data Protection Legislation.

The Company has prepared a Privacy Notice ("**PN**") outlining the Company's data protection obligations and the data protection rights of individuals under the Data Protection Legislation. The full PN is available on our website <https://etf.invesco.com>.

The PN contains information on the following matters in relation to data protection:

- that investors will provide the Company with certain personal information which constitutes personal data within the meaning of the Data Protection Legislation;
- that the Company shall act as a data controller in respect of this personal data and the fact that affiliates and delegates, such as the Administrator, the Investment Manager and the Distributor may act as data processors;
- a description of the lawful purposes for which the personal data may be used, namely (i) where this is necessary for the performance of the contract to purchase Shares in the Company; (ii) where this is necessary for compliance with a legal obligation to which the Company is subject; and/or (iii) where this is necessary for the purposes of the legitimate interests of the Company or a third party and such legitimate interests are not overridden by the individual's interests, fundamental rights or freedoms;
- details on the transmission of personal data, including (if applicable) to entities located outside the EEA;
- details of data protection measures taken by the Company;
- an outline of the various data protection rights of individuals as data subjects under the Data Protection Legislation;
- information on the Company's policy for retention of personal data; and
- contact details for further information on data protection matters.

Given the specific purposes for which the Company envisages using personal data, under the provisions of the Data Protection Legislation, it is not anticipated that individual consent will be required for such use. However, as outlined in the PN, individuals have the right to object to the processing of their data where the Company has considered this to be necessary for the purposes of its or a third party's legitimate interests.

17. MATERIAL CONTRACTS

The following contracts have been entered into otherwise than in the ordinary course of the business intended to be carried on by the Company and are or may be material:

- (a) The **Management Agreement** dated 22 December 2008 between the Company and the Manager. The Management Agreement provides that the appointment of the Manager will continue unless and until terminated by either the Manager or the Company giving to the other party not less than 90 days' written notice although in certain circumstances the Management Agreement may be terminated forthwith by notice in writing by either the Manager or the Company to the other party. The Management Agreement contains certain indemnities payable out of the assets of the relevant Fund in favour of the Manager which are restricted to exclude matters resulting from the fraud, bad faith, wilful default or negligence of the Manager in the performance or non-performance of its obligations and duties.

The Management Agreement contains limited recourse provisions under which the recourse against the Company of the Manager in respect of any claims arising under or in relation to the Management Agreement is expressed to be limited to the Fund established in respect of the Shares to which such claims relate, and the Manager will have no recourse to any other assets of the Company. If following the realisation of the assets of the relevant Fund and the application of such realisation proceeds in payment of all claims of the Manager relating to the relevant Fund and all other liabilities (if any) of the Company ranking *pari passu* with or senior to such claims which have recourse to the relevant Fund (the "**Relevant Date**"), such claims are not paid in full, (a) the amount outstanding in respect of such claims will be automatically extinguished, (b) the Manager will have no further right of payment in respect thereof and (c) the Manager will not be able to petition for the winding-up of the Company or the termination of any other Fund as a consequence of any such shortfall provided however that (a) and (b) above shall not apply to any assets of the Fund that may be subsequently held or recouped by the Fund between the Relevant Date and the date of termination of the Fund in accordance with the requirements of the Central Bank.

- (b) The **Investment Management Agreement** dated 22 December 2008 between the Manager and the Investment Manager. The Investment Management Agreement provides that the appointment of the Investment Manager will continue unless and until terminated by either party giving to the other not less than 90 days' written notice although in certain circumstances the Investment Management Agreement may be terminated forthwith by notice in writing by either party to the other. The Investment Management Agreement contains certain indemnities in favour of the Investment Manager which are restricted to exclude matters resulting from the fraud, bad faith, wilful default or negligence of the Investment Manager in the performance or non-performance of its obligations and duties.

The Investment Management Agreement contains limited recourse provisions under which the recourse against the Manager of the Investment Manager in respect of any claims arising under or in relation to the Investment Management Agreement is expressed to be limited to the assets of the Manager and any claims the Manager has in relation to the relevant Fund established in respect of the Shares to which such claims relate, and the Investment Manager will have no recourse to any other assets of the Company or any other Fund. If following the realisation of all of the assets of the Manager and any claims the Manager has in relation to the relevant Fund and the application of such realisation proceeds in payment of all claims of the Investment Manager relating to the relevant Fund (if any) and all other liabilities (if any) of the Company ranking *pari passu* with or senior to such claims which have recourse to the assets of the Manager (the "**Relevant Date**"), such claims are not paid in full, (a) the amount outstanding in respect of such claims will be automatically extinguished, (b) the Investment Manager will have no further right of payment in respect thereof and (c) the Investment Manager will not be able to petition for the winding-up of the Manager, the Company or the termination of any other Fund as a consequence of any such shortfall provided however that (a) and (b) above shall not apply to any assets of the Fund payable to the Manager that may be subsequently held or recouped by the Fund between the Relevant Date and the date of termination of the Fund in accordance with the requirements of the Central Bank.

- (c) The **Depository Agreement** dated 10 October 2016 between the Company and Northern Trust Fiduciary Services (Ireland) Limited.

The Depository shall act as depository of the Company's assets and shall be responsible for the oversight of the Company to the extent required by and in accordance with applicable law, rules and regulations. The Depository shall exercise the supervisory duties in accordance with applicable law, rules and regulations as well as the Depository Agreement.

The Depository shall perform its obligations with due skill, care and diligence as determined in accordance with the standards and practices of a professional depository for hire in the markets or jurisdictions in which the Depository performs services under the Depository Agreement. Under the terms of the Depository Agreement, the Depository may delegate its safekeeping obligations provided that (i) the services are not delegated with the intention of avoiding the requirements of the Regulations, (ii) the Depository can demonstrate that there is an objective reason for the delegation and (iii) the Depository has exercised all due, skill, care and diligence in the selection and appointment of any third party to whom it wants to delegate parts of the relevant services, and keeps exercising all due skill, care and diligence in the periodic review and ongoing monitoring of any third party to whom it has delegated parts of its safekeeping services and of the arrangements of the third party in respect of the matters delegated to it. The Depository has delegated to its global sub-custodian, The Northern Trust Company, London branch, responsibility for the safekeeping of the Company's financial instruments and cash.

The Depository shall be liable to the Company and to the Shareholders, for the loss by the Depository or a duly appointed third party of any financial instruments held in custody (determined in accordance with the Regulations) and in the event of such a loss, the Depository shall return financial instruments of identical type or the corresponding amount to the Company without undue delay. The Depository shall not be liable if it can prove that the loss of a financial instrument held in custody has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary pursuant to the Regulations. In case of a loss of financial instruments held in custody, the Shareholders may invoke the liability of the Depository directly or indirectly through the Manager or the Company provided that this does not lead to a duplication of redress or to unequal treatment of the Shareholders. The Depository's liability shall not be affected by any delegation of its safekeeping functions under the Depository Agreement. Subject to the Depository's liability for the loss by the Depository or a duly appointed third party of any financial instruments held in custody (determined in accordance with the Regulations), the Depository will be liable to the Company, the Manager and the Shareholders for loss suffered by them arising from the Depository's negligent or intentional failure to properly fulfil its obligations pursuant to the Depository Agreement and/or the Regulations. The Depository shall not be liable for consequential or indirect or special damages or losses, arising out of or in connection with the performance or non-performance by the Depository of its duties and obligations. The Depository Agreement contains indemnities in favour of the Depository for certain losses incurred but excluding circumstances where the Depository is liable for the losses incurred.

The Depository Agreement shall continue in force unless and until terminated by either party giving not less than 90 days' prior written notice to the other, although termination may be immediate in certain circumstances, such as the insolvency of the Depository. Upon an (envisaged) removal or resignation of the Depository, the Company shall with due observance of the applicable requirements of the Central Bank, appoint a successor Depository. The Depository may not be replaced without the approval of the Central Bank.

The Depository Agreement shall be governed by the laws of Ireland and the courts of Ireland shall have non-exclusive jurisdiction to hear any disputes or claims arising out of or in connection with the Depository Agreement.

- (d) The **Administration Agreement** dated 12 May 2014 between the Manager, the Company and the Administrator. The Administration Agreement provides that the appointment of the Administrator will continue unless and until terminated by either party giving to the other not less than 90 days' written notice although in certain circumstances the Administration Agreement may be terminated forthwith by notice in writing by either party to the other.

The Administration Agreement contains certain indemnities payable by the Manager or out of the assets of the relevant Fund in favour of the Administrator which are restricted to exclude matters arising by reason of the negligence, fraud, or wilful default of the Administrator, its officers, employees, agents, subcontractors and representatives in the performance of its or their obligations.

The Administration Agreement contains limited recourse provisions under which the recourse against the Company or the Manager of the Administrator in respect of any claims arising under or in relation to the Administration Agreement is expressed to be limited to the assets of the Manager and the Fund established in respect of the Shares to which such claims relate, and the Administrator will have no recourse to any other assets of the Company or any other Fund. If following the realisation of the assets of the relevant Fund and the application of such realisation proceeds in payment of all claims of the Administrator relating to the relevant Fund (if any) and all other liabilities (if any) of the Company ranking pari passu with or senior to such claims which have recourse to the relevant Fund (the "Relevant Date"), such claims are not paid in full, (a) the amount outstanding in respect of such claims will be automatically extinguished, (b) the Administrator will have no further right of payment in respect thereof and (c) the Administrator will not be able to petition for the winding-up of the Company or the termination of any other Fund as a consequence of any such shortfall provided however that (a) and (b) above shall not apply to any assets of the Fund that may be subsequently held or recouped by the Fund.

- (e) **Additional Contracts.** In addition to the above, local laws or regulations in certain EEA countries may require that the Company appoints a local paying agent. The role of the paying agent may entail, for example maintaining accounts through which subscription and repurchase proceeds and dividends are paid. Investors who choose or are obliged under local regulations to pay/receive subscription/repurchase monies via the intermediary entity rather than directly to the Depositary or the Company bear a credit risk against that entity with respect to a) subscription monies and b) repurchase monies. The appointment of a paying agent (including a summary of the agreement appointing such paying agent) will be detailed in a Country Supplement. The provision of such services shall be on arm's length commercial terms for the Company for which fees shall be charged at normal commercial rates and expenses are to be reimbursed.

18. COMPANY INFORMATION

REPORTS AND ACCOUNTS

The Company's year end is 30th November of each year. The annual report and audited accounts of the Company will be sent to Shareholders and the Central Bank within four months after the conclusion of each accounting year and at least 21 days before the general meeting of the Company at which they are to be submitted for approval. The Company will also send a semi-annual report and unaudited accounts to Shareholders and the Central Bank within two months after the end of each semi-annual period which will be 31st May in each year.

Such reports and accounts will contain a statement of the Net Asset Value of each Fund and of the investments comprised therein as at the year end or the end of such semi-annual period.

TRANSFER OF SHARES

Shares in each Fund will be transferable by instrument in writing signed by (or, in the case of a transfer by a body corporate, signed on behalf of or sealed by) the transferor provided always that the transferee completes an Application Form to the satisfaction of the Administrator and furnishes the Administrator with any documents required by it. In the case of the death of one of joint Shareholders, the survivor or survivors will be the only person or persons recognised by the Company as having any title to or interest in the Shares registered in the names of such joint Shareholders. Shares may also be transferred in accordance with the rules of a clearing system as the Constitution permits the transfer of Shares in Dematerialised Form.

Shares may not be transferred to a United States Person.

Persons dealing through a clearing system may be required to provide a representation that any transferee is not a Prohibited Person.

To the extent the Shares are not held through a Recognised Clearing and Settlement System, if the transferor is, or is deemed to be, or is acting on behalf of, an Irish Taxable Person the Company may redeem and cancel a sufficient portion of the transferor's Shares as will enable the Company to pay the tax payable in respect of the transfer to the Revenue Commissioners in Ireland.

NOTIFICATION OF PRICES

The Net Asset Value per Share of each Class in each Fund will be available from the Administrator, and will be published daily on the Website with respect to the Net Asset Value of the previous day.

The Net Asset Value will be notified to the Irish Stock Exchange immediately upon calculation.

COMMUNICATIONS WITH SHAREHOLDERS

Communications with Shareholders may be effected by electronic mail or by any other means of communication provided that the Shareholder has consented to such method of communication. Copies of any documents sent to Shareholders will be available for inspection at the office of the Administrator. Communications with Shareholders will also be published on the Website. Investor should regularly visit the Website, or request that their stockbrokers or other financial agents or advisers do so on their behalf, to ensure that they obtain such information on a timely basis.

INCORPORATION AND SHARE CAPITAL

The Company was incorporated and registered in Ireland as an investment company with variable capital on 16 October 2008 with registered number 463397.

At the date hereof the authorised share capital of the Company is 2 subscriber shares ("subscriber shares") of €1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares and available for issue as Shares.

There are no rights of pre-emption attaching to the Shares.

SUMMARY OF CONSTITUTION

Clause 2 of the Constitution provides that the sole object of the Company is the collective investment in Transferable Securities and/or other liquid financial assets of capital raised from the public operating on the principle of risk-spreading in accordance with the Regulations.

The Constitution contains provisions to the following effect:

Directors' Authority to Allot Shares The Directors are generally and unconditionally authorised to exercise all powers of the Company to allot relevant securities, including fractions thereof, up to an amount equal to the authorised but as yet unissued share capital of the Company.

Variation of rights The rights attached to any Class may be varied or abrogated with the consent in writing of the Shareholders of three-quarters in number of the issued shares of that Class, or with the sanction of a special resolution passed at a separate general meeting of the Shareholders of the shares of the Class, and may be so varied or abrogated either whilst the Company is a going concern or during or in contemplation of a winding-up but such consent or sanction will not be required in the case of a variation, amendment or abrogation of the rights attached to any shares of any Class if, in the view of the Directors, such variation, amendment or abrogation does not materially prejudice the interests of the relevant shareholders or any of them. Any such variation, amendment or abrogation will be set out in a supplement to (or re-statement of) the relevant Supplement originally issued in connection with the relevant shares, a copy of which will be sent to the relevant Shareholders entered on the register on the date of issue of such document and will be binding on the relevant Shareholders. The quorum at any such separate general meeting, other than an adjourned meeting, shall be two persons holding or representing by proxy at least one third of the issued Shares of the Class in question and the quorum at an adjourned meeting shall be one person holding Shares of the Class in question or his proxy.

Voting Rights The Company may issue Voting Shares and Non-Voting Shares. The Non-Voting Shares do not carry any rights to notice of, attend or vote at general meetings of the Company or any Fund. In respect of the Voting Shares, subject to any rights or restrictions for the time being attached to any Class or Classes of Voting Shares, on a show of hands every Shareholder who is present in person or by proxy shall have one vote and the Shareholder(s) of subscriber shares present in person or by proxy shall have one vote in respect of all the subscriber shares in issue and on a poll every Shareholder present in person or by proxy shall have one vote for every Voting Share of which he is the Shareholder and every Shareholder of a subscriber share present in person or by proxy shall have one vote in respect of his holding of subscriber shares. On a poll of all the Shareholders of Shares in a Fund, where there is more than one Class of Shares in existence in that Fund, the voting rights of such Shareholders may at the discretion of the Directors be adjusted in such manner, determined by the Directors, so as to reflect the most recently calculated price at which the Shares of each of the Classes in question may be repurchased by the Company. Shareholders who hold a fraction of a Voting Share may not exercise any voting rights, whether on a show of hands or on a poll, in respect of such fraction of a Voting Share. In accordance with the requirements of the Central Bank, the decision to subscribe for any Class of Shares in respect of which the voting rights are restricted shall be made solely by the investor and any Shareholder of Non-Voting Shares shall have the right to switch their holding to Voting Shares without incurring any fee or charge on such exchange;

Change in Share Capital The Company may from time to time by ordinary resolution increase the share capital by such amount and/or number as the resolution may prescribe. The Company may also by ordinary resolution, consolidate and divide all or any of its share capital into shares of larger amount, subdivide its shares, or any of them, into shares of smaller amount or value or cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and reduce the amount of its authorised share capital by the amount of the shares so cancelled or redenominate the currency of any Class of Shares.

Directors' Interests Provided that the nature and extent of his interest shall be disclosed as set out below, no Director or intending Director shall be disqualified by his office from contracting with the Company nor shall any such contract or arrangement entered into by or on behalf of any other company in which any Director shall be in any way interested be avoided nor shall any Director so contracting or being so interested be liable to account to the Company for any profit realised by any such contract or arrangement by reason of such Director holding that office or of the fiduciary relationship thereby established.

The nature of a Director's interest must be declared by him at the meeting of the Directors at which the question of entering into the contract or arrangement is first taken into consideration, or if the Director was not at the date of that meeting interested in the proposed contract or arrangement at the next meeting of the Directors held after he became so interested, and in a case where the Director becomes interested in a contract or arrangement after it is made, at the first meeting of the Directors held after he becomes so interested.

A Director shall not vote at a meeting of the Directors or a committee established by the Directors on any resolution concerning a matter in which he has, directly or indirectly an interest which is material (other than

an interest arising by virtue of his interest in shares or debentures or other securities or otherwise in or through the Company) or a duty which conflicts or may conflict with the interest of the Company. A Director shall not be counted in the quorum present at a meeting in relation to such resolution on which he is not entitled to vote.

A Director shall be entitled to vote and be counted in the quorum in respect of any resolutions concerning the following matters, namely:

- (i) the giving of any security, guarantee or indemnity to him in respect of money lent by him to the Company or any of its subsidiary or associated companies or obligations incurred by him at the request of or for the benefit of the Company or any of its subsidiary or associated companies;
- (ii) the giving of any security, guarantee or indemnity to a third party in respect of a debt or obligation of the Company or any of its subsidiary or associated companies for which he himself has assumed responsibility in whole or in part and whether alone or jointly with others under a guarantee or indemnity or by the giving of security;
- (iii) any proposal concerning any offer of shares or debentures or other securities of or by the Company or any of its subsidiary or associated companies for subscription, purchase or exchange in which offer he is or is to be interested as a participant in the underwriting or sub-underwriting thereof;
- (iv) any proposal concerning any other company in which he is interested, directly or indirectly and whether as an officer, shareholder or otherwise howsoever.

The Company by ordinary resolution may suspend or relax the provisions described above to any extent or ratify any transaction not duly authorised by reason of a contravention thereof.

Borrowing Powers Subject to the Regulations, the Directors may exercise all the powers of the Company to borrow or raise money and mortgage or charge its undertaking, property and assets (both present and future) and uncalled capital or any part thereof and to issue securities, whether outright or as collateral security for any debt, liability or obligation of the Company, provided that all such borrowings shall be within the limits and conditions laid down by the Central Bank.

Delegation to Committee The Directors may delegate any of their powers to any committee whether or not consisting of Directors. Any such delegation may be made subject to any conditions the Directors may impose, and either collaterally with or to the exclusion of their own powers and may be revoked. Subject to any such conditions, the proceedings of a committee with two or more members shall be governed by the provisions of the Constitution regulating the proceedings of Directors so far as they are capable of applying.

Retirement of Directors The Directors shall not be required to retire by rotation or by virtue of their attaining a certain age.

Directors' Remuneration Unless otherwise determined from time to time by the Company in general meeting, the ordinary remuneration of each Director shall be determined from time to time by resolution of the Directors. Any Director who is appointed as an executive director (including for this purpose the office of chairman or deputy chairman) or who serves on any committee, or who otherwise performs services which in the opinion of the Directors are outside the scope of the ordinary duties of a Director, may be paid such extra remuneration by way of fees, commission or otherwise as the Directors may determine. The Directors may be paid all travelling, hotel and other out-of-pocket expenses properly incurred by them in connection with their attendance at meetings of the Directors or committees established by the Directors or general meetings or separate meetings of the Shareholders of any Class of Shares of the Company or otherwise in connection with the discharge of their duties.

Transfer of Shares Subject to the restrictions set out below, the Shares of any Shareholder may be transferred by instrument in writing in any usual or common form or any other form, which the Directors may approve.

The Directors in their absolute discretion and without assigning any reason therefore may decline to register any transfer of a Share to (i) a Prohibited Person or; (ii) an individual under the age of 18 (or such other age as the Directors may think fit) or of unsound mind; or (iii) any person unless the transferee of such Shares would, following such transfer, be the Shareholder of Shares equal to or greater than the Minimum Initial Subscription; or (iv) any person in circumstances where as a result of such transfer the transferor or transferee would hold less than the Minimum Holding; or (v) any person where in respect of such transfer any payment of taxation remains outstanding.

The Directors may decline to recognise any instrument of transfer unless it is accompanied by the certificate for the Shares to which it relates (if issued), is in respect of one class of Share only, is in favour of not more than four transferees and is lodged at the registered office or at such other place as the Directors may appoint.

Right of Redemption Shareholders have the right to request the Company to redeem their Shares in accordance with the provisions of the Constitution.

Dividends The Constitution permits the Directors to declare such dividends on any Class of Shares as appears to the Directors to be justified by the profits of the relevant Fund. The Directors may, satisfy any dividend due to Shareholders of Shares in whole or in part by distributing to them in specie any of the assets of the relevant Fund, and in particular any investments to which the relevant Fund is entitled. A shareholder may require the Directors instead of transferring any assets in specie to him, to arrange for a sale of the assets and for payment to the shareholder of the net proceeds of same. Any dividend unclaimed after a period of six years from the date of declaration of such dividend shall be forfeited and shall revert to the relevant Fund.

Funds The Directors are required to establish a separate portfolio of assets for each Fund created by the Company from time to time, to which the following shall apply:-

- (i) the proceeds from the allotment and issue of Shares of each Class in the Fund shall be applied to the Fund established for that purpose, and the investments and the liabilities and income and expenditure attributable thereto shall be applied to such Fund subject to the provisions of the Constitution;
- (ii) any asset derived from any other asset(s) (whether cash or otherwise) comprised in any Fund, shall be applied in the books and records of the Company to the same Fund as the asset from which it was derived and any increase or diminution in the value of such an asset shall be applied to the relevant Fund;
- (iii) in the event that there are any assets of the Company which the Directors do not consider are attributable to a particular Fund or Funds, the Directors shall, with the approval of the Depositary, allocate such assets to and among any one or more of the Funds in such manner and on such basis as they, in their discretion, deem fair and equitable; and the Directors shall have the power to and may from time to time, with the approval of the Depositary vary the basis in relation to assets previously allocated;
- (iv) no Shares will be issued on terms that entitle the Shareholder of any Fund to participate in the assets of the Company other than the assets (if any) of the Fund relating to such Shares. If the proceeds of the assets of the relevant Fund are not sufficient to fund the full repurchase proceeds payable to each Shareholder for the relevant Fund, the proceeds of the relevant Fund will, subject to the terms for the relevant Fund, be distributed equally among each Shareholder of the relevant Fund pro rata to the amount paid upon the Shares held by each Shareholder. If the realised net assets of any Fund are insufficient to pay any amounts due on the relevant Shares in full in accordance with the terms of the relevant Fund, the relevant Shareholders of that Fund will have no further right of payment in respect of such Shares or any claim against the Company, any other Fund or any assets of the Company in respect of any shortfall;
- (v) each Fund shall be charged with the liabilities, expenses, costs, charges or reserves of the Company in respect of or attributable to that Fund; and
- (vi) in the event that any asset attributable to a Fund is taken in execution of a liability not attributable to that Fund, the provisions of section 1406(6) of the Companies Act shall apply.

Fund Exchanges Subject to the provisions of the Constitution, a Shareholder holding Shares in any Class in a Fund on any Dealing Day shall have the right from time to time to exchange, subject to an exchange fee being applied (as described in this Prospectus), all or any of such Shares for Shares of another Class in a separate Fund (such Fund being an existing Fund or a Fund agreed by the Directors to be brought into existence with effect from that Dealing Day).

Termination of a Fund Any Fund may be terminated by the Directors, in their sole and absolute discretion, by notice in writing to the Depository in any of the following events:-

- (A) if at any time the Net Asset Value of the relevant Fund shall be less than the Minimum Fund Size as may be determined by the Directors in respect of that Fund and disclosed in the relevant Supplement; or
 - (B) if any Fund shall cease to be authorised or otherwise officially approved; or
 - (C) if any law shall be passed which renders it illegal or in the opinion of the Directors impracticable or inadvisable to continue the relevant Fund; or
 - (D) if there is a change in material aspects of the business, in the economic or political situation relating to a Fund which the Directors consider would have material adverse consequences on the Investments of the Fund; or
 - (E) if the Directors shall have resolved that it is impracticable or inadvisable for a Fund to continue to operate having regard to prevailing market conditions and the best interests of the Shareholders.
- (i) the Directors shall give notice of termination of a Fund to the Shareholders in the relevant Fund and by such notice fix the date at which such termination is to take effect, which date shall be for such period after the service of such notice as the Directors shall in their sole and absolute discretion determine;
- (ii) with effect on and from the date as at which any Fund is to terminate or in the case of (A) below such other date as the Directors may determine:-
- (A) No Shares of the relevant Fund may be issued or sold by the Company;
 - (B) The Investment Manager shall, on the instructions of the Directors, realise all the assets then comprised in the relevant Fund (which realisation shall be carried out and completed in such manner and within such period after the termination of the relevant Fund as the Directors think advisable);
 - (C) The Depository shall, on the instructions of the Directors from time to time, distribute to the Shareholders in proportion to their respective interests in the relevant Fund all net cash proceeds derived from the realisation of the relevant Fund and available for the purpose of such distribution, provided that the Depository shall not be bound (except in the case of the final distribution) to distribute any of the monies for the time being in its hands the amount of which is insufficient to pay €1 or its equivalent amount in the relevant currency in respect of each Share of the relevant Fund and provided also that the Depository shall be entitled to retain out of any monies in its hands as part of the relevant Fund full provision for all costs, charges, expenses, claims and demands incurred, made or apprehended by the Depository or the Directors in connection with or arising out of the termination of the relevant Fund and out of the monies so retained to be indemnified and saved harmless against any such costs, charges, expenses, claims and demands; and
 - (D) Every such distribution referred to at (C) above shall be made in such manner as the Directors shall, in their sole and absolute discretion, determine but shall be made only against production of the certificates or warrants relating to the Shares of the relevant Fund if issued in respect of which the same is made and upon delivery to the Depository of such form of request for payment as the Depository shall in its absolute discretion require. All certificates shall in the case of an interim distribution be enfaced by the Depository with a memorandum of payments made and in the case of the final distribution shall be surrendered to the Depository. Any unclaimed proceeds or other cash held by the Depository may at the expiration of twelve months from the date upon which the same were payable be paid into court subject to the right of the Depository to deduct therefrom any expenses it may incur in making such payment;

- (iii) the Directors shall have the power to propose and implement a reconstruction and/or amalgamation of the Company or any Fund(s) on such terms and conditions as are approved by the Directors subject to the following conditions namely:
 - (A) that the prior approval of the Central Bank has been obtained; and
 - (B) that the Shareholders in the relevant Fund or Funds have been circulated with particulars of the scheme of reconstruction and/or amalgamation in a form approved by the Directors and a special resolution of the Shareholders in the relevant Fund or Funds has been passed approving the said scheme.

The relevant scheme of reconstruction and/or amalgamation shall take effect upon such conditions being satisfied or upon such later date as the scheme may provide or as the Directors may determine whereupon the terms of such scheme shall be binding upon all the Shareholders and the Directors shall have the power to and shall do all such acts and things as may be necessary for the implementation thereof.

Winding up The Constitution contains provisions to the following effect:

- (i) If the Company shall be wound up the liquidator shall, subject to the provisions of the Companies Act, apply the assets of each Fund in such manner and order as he thinks fit in satisfaction of creditors' claims relating to that Fund.
- (ii) The assets available for distribution amongst the Shareholders shall be applied as follows: first the proportion of the assets in a Fund attributable to each Class of share shall be distributed to the Shareholders of Shares in the relevant Class in the proportion that the number of shares held by each Shareholder bears to the total number of shares relating to each such Class of Shares in issue as at the date of commencement to wind up, secondly, in the payment to the Shareholder(s) of the Subscriber Shares of sums up to the nominal amount paid thereon out of the assets of the Company not attributable to any Class of Share. In the event that there are insufficient assets to enable such payment in full to be made, no recourse shall be had to the assets of the Company attributable to each Class of Shares; and thirdly, any balance then remaining and not attributable to any of the Classes of Shares shall be apportioned pro-rata as between the Classes of shares based on the Net Asset Value attributable to each Class of Shares as at the date of commencement to wind up and the amount so apportioned to a Class shall be distributed to Shareholders pro-rata to the number of Shares in that Class of Shares held by them.
- (iii) A Fund may be wound up pursuant to section 1406 of the Companies Act and in such event the winding up provisions of the Constitution shall apply mutatis mutandis in respect of that Fund.
- (iv) If the Company shall be wound up (whether the liquidation is voluntary, under supervision or by the court) the liquidator may, with the authority of a special resolution of the relevant Shareholders and any other sanction required by the Companies Act, divide among the Shareholders of Shares of any Class or Classes within a Fund in specie the whole or any part of the assets of the Company relating to that Fund, and whether or not the assets shall consist of property of a single kind, and may for such purposes set such value as he deems fair upon any one or more Class or Classes of property, and may determine how such division shall be carried out as between all the Shareholders of the Company or the Shareholders of different Classes of Shares in a Fund. The liquidator may, with the like authority, vest any part of the assets in trustees upon such trusts for the benefit of Shareholders as the liquidator, with the like authority, shall think fit, and the liquidation of the Company may be closed and the Company dissolved, but so that no Shareholder shall be compelled to accept any assets in respect of which there is a liability. A Shareholder may request the liquidator, instead of transferring the assets in specie to it, to dispose of them and to pay the net sales proceeds instead.

Share Qualification The Constitution does not contain a share qualification for Directors.

Change of Name In the event that Invesco Investment Management Limited ceases to be Manager of the Company, and a company within the Promoter's group is not appointed in its place as the Manager of the Company, then, prior to or immediately following such termination becoming effective, the Directors will arrange to convene an extraordinary general meeting to propose that the name of the Company be changed to a name which will not reflect any involvement on the part of Invesco Investment Management Limited (or any of its Affiliates) with the Company. At any such extraordinary general meeting called to change the name, those Shareholders who (being individuals) are present in person or by proxy or (being corporations) are present by proxy or by a duly authorised representative and entitled to vote and who vote on a poll in favour of the resolution proposed to change the name of the Company shall collectively have such total number of votes as is one or more than the number of votes which are required to be cast on such a poll for the said special resolution to be carried. Such a change of name shall take place in accordance with the provisions of the Companies Act and the requirements of the Central Bank.

MISCELLANEOUS

As of the date of this Prospectus, the Company does not have any loan capital (including term loans) outstanding or created but unissued or any outstanding mortgages, charges, debentures or other borrowings or indebtedness in the nature of borrowings, including bank overdrafts, liabilities under acceptances or acceptance credits, hire purchase or finance lease commitments, guarantee or other contingent liabilities.

Save as disclosed under the heading "Directors' Interests" above, no Director has any interest in the promotion of or in any property acquired or proposed to be acquired by the Company.

Save as may result from the entry by the Company into the agreements listed under the heading "Material Contracts" above or any other fees, commissions or expenses discharged, no amount or benefit has been paid or given or is intended to be paid or given to any promoter of the Company.

No commissions, discounts, brokerages or other special terms have been paid or granted by the Company, or are payable by the Company for subscribing or agreeing to subscribe, or procuring or agreeing to procure subscriptions, for any Shares or loan capital of the Company.

The Manager may pay a portion of its fee to distributors, dealers or other entities that assist it in the performance of its duties or provide services, directly or indirectly, to the Funds or their Shareholders and may enter into private arrangements on a negotiated basis with a holder or prospective holder of Shares. The selection of holders or prospective holders of Shares with whom such private arrangements may be made and the terms on which the Manager or their respective affiliates, designees or placement agents may enter into such private arrangements are a matter for the relevant entity, except that as a condition of any such arrangements, the Company will not thereby incur any obligation or liability whatsoever.

DOCUMENTS FOR INSPECTION

Copies of the documents at (a), (f) - (i) below may be inspected free of charge during usual business hours on any week day (Saturday, Sunday and public holidays excepted) at the offices of the Company Secretary and the documents at (a) - (e) below at the offices of Portman Square House, 43-45 Portman Square, London, W1H 6LY, United Kingdom.

- (ii) a description of any safe-keeping functions delegated by the Depositary, a list of delegates and sub-delegates and any conflicts of interest that may arise from such delegation.

REMUNERATION POLICY

The Manager has a remuneration policy in place in compliance with UCITS V. This remuneration policy imposes remuneration rules on staff and senior management within the Manager whose activities have a material impact on the risk profile of the Funds. The Manager is responsible for awarding remuneration and benefits and will ensure that its remuneration policies and practices are consistent with sound and effective risk management, will not encourage risk-taking which is inconsistent with the risk profile of the Funds and the Constitution of the Manager, and will be consistent with the Regulations. The Manager will ensure that the remuneration policy is at all times consistent with the business strategy, objectives, values and interests of the Manager, the Funds and Shareholders, and includes measures to ensure that all relevant conflicts of interest may be managed appropriately at all times. Further details with regard to the remuneration policy, including a description of how remuneration and benefits are calculated and the identities of persons responsible for awarding remuneration and benefits, are available at the following website: <https://etf.invesco.com>. The remuneration policy may be obtained free of charge on request from the Manager.

Appendix II - Investment Restrictions Applicable to the Funds under the Regulations

This Appendix II outlines the permitted investments and general investment restrictions applying to each Fund. Please see the relevant Supplement for each Fund for details of any investment restrictions specific to that Fund. For the avoidance of doubt, any additional Fund specific investment restrictions outlined in the relevant Supplement for that Fund may be more restrictive than the investment restrictions set out in this Appendix II.

1 PERMITTED INVESTMENTS

Investments of each Fund are confined to:

- 1.1 Transferable Securities and Money Market Instruments (in each case as defined in the Central Bank Regulations) which are either admitted to official listing on a stock exchange in a Member State or non-Member State or which are dealt on a market which is regulated, operates regularly, recognised and open to the public in a Member State or non-Member State (and which in each case is listed in Appendix I).
- 1.2 Recently issued Transferable Securities which will be admitted to official listing on a stock exchange or other market (as described above) within a year.
- 1.3 Money market instruments other than those dealt on a regulated market.
- 1.4 Units of UCITS.
- 1.5 Units of non-UCITS.
- 1.6 Deposits with credit institutions.
- 1.7 FDI.

2 INVESTMENT RESTRICTIONS

- 2.1 A UCITS may invest no more than 10% of net assets in transferable securities and money market instruments other than those referred to in paragraph 1.
- 2.2 A UCITS may invest no more than 10% of net assets in recently issued transferable securities which will be admitted to official listing on a stock exchange or other market (as described in paragraph 1.1) within a year. This restriction will not apply in relation to investment by the UCITS in certain US securities known as Rule 144A securities provided that:
 - (i) the securities are issued with an undertaking to register with the SEC within one year of issue; and
 - (ii) the securities are not illiquid securities i.e. they may be realised by the UCITS within seven days at the price, or approximately at the price, at which they are valued by the UCITS.
- 2.3 A UCITS may invest no more than 10% of net assets in transferable securities or money market instruments issued by the same body provided that the total value of transferable securities and money market instruments held in the issuing bodies in each of which it invests more than 5% is less than 40%.
- 2.4 With the prior approval of the Central Bank the limit of 10% (in 2.3) may be raised to 25% in the case of bonds that are issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bond-holders. If a UCITS invests more than 5% of its net assets in these bonds issued by one issuer, the total value of these investments may not exceed 80% of the net asset value of the UCITS.

- 2.5 The limit of 10% (in 2.3) is raised to 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State or its local authorities or by a non-Member State or public international body of which one or more Member States are members.
- 2.6 The transferable securities and money market instruments referred to in 2.4. and 2.5 shall not be taken into account for the purpose of applying the limit of 40% referred to in 2.3.
- 2.7 A UCITS may not invest more than 20% of net assets in deposits made with the same credit institution.

Deposits with any one credit institution, other than

- (i) a credit institution authorised in the EEA (European Union Member States, Norway, Iceland, Liechtenstein);
- (ii) a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988 (Switzerland, Canada, Japan, United States); or
- (iii) a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand

held as ancillary liquidity, must not exceed 10% of net assets.

This limit may be raised to 20% in the case of deposits made with the trustee/depositary.

- 2.8 The risk exposure of a UCITS to a counterparty to an OTC derivative may not exceed 5% of net assets.

This limit is raised to 10% in the case of a credit institution authorised in the EEA; a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1988; or a credit institution authorised in Jersey, Guernsey, the Isle of Man, Australia or New Zealand.

- 2.9 Notwithstanding paragraphs 2.3, 2.7 and 2.8 above, a combination of two or more of the following issued by, or made or undertaken with, the same body may not exceed 20% of net assets:

- (i) investments in Transferable Securities or Money Market Instruments;
- (ii) deposits, and/or
- (iii) risk exposures arising from OTC derivatives transactions.

- 2.10 The limits referred to in paragraphs 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9 above may not be combined, so that exposure to a single body shall not exceed 35% of net assets.

- 2.11 Group companies are regarded as a single issuer for the purposes of 2.3, 2.4, 2.5, 2.7, 2.8 and 2.9. However, a limit of 20% of net assets may be applied to investment in transferable securities and money market instruments within the same group.

- 2.12 A UCITS may invest up to 100% of net assets in different transferable securities and money market instruments issued or guaranteed by any Member State, its local authorities, non-Member States or public international body of which one or more Member States are members.

The individual issuers may be drawn from the following list:

OECD Governments (provided the relevant issues are investment grade), Government of the People's Republic of China, Government of Brazil (provided the issues are of investment grade), Government of India (provided the issues are of investment grade), Government of Singapore,

European Investment Bank, European Bank for Reconstruction and Development, International Finance Corporation, International Monetary Fund, Euratom, The Asian Development Bank, European Central Bank, Council of Europe, Eurofima, African Development Bank, International Bank for Reconstruction and Development (the "World Bank"), The Inter American Development Bank, European Union, Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac"), Government National Mortgage Association ("Ginnie Mae"), Student Loan Marketing Association ("Sallie Mae"), Federal Home Loan Bank, Federal Farm Credit Bank, Tennessee Valley Authority, Straight-A Funding LLC, Export-Import Bank.

The UCITS must hold securities from at least 6 different issues, with securities from any one issue not exceeding 30% of net assets.

3 INVESTMENT IN CIS

- 3.1 Each Fund may not invest more than 20% of net assets in any one CIS.
- 3.2 Investments in Non-UCITS may not in aggregate exceed 30% of net assets.
- 3.3 The CIS is prohibited from investing more than 10% of net assets in other open-ended CIS.
- 3.4 When a Fund invests in the units of other CIS that are managed, directly or indirectly by the Fund's investment manager or by any other company with which the investment manager is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or votes, neither the investment manager nor that other company may charge subscription, conversion or redemption fees on account of that Fund's investment in the units of such other CIS. Moreover, only a reduced all in management fee of 0.25% may be charged in respect of such investment.
- 3.5 Where a commission (including a rebated commission) is received by a Fund's investment manager by virtue of an investment in the units of another CIS, this commission must be paid into the property of the Fund.

4 INDEX TRACKING FUNDS

- 4.1 Each Fund may invest up to 20% of net assets in shares and/or debt securities issued by the same body where the investment policy of the relevant Fund is to replicate an index which satisfies the criteria set out in the Regulations and is recognised by the Central Bank.
- 4.2 The limit in 4.1 may be raised to 35%, and applied to a single issuer, where this is justified by exceptional market conditions.

5 GENERAL PROVISIONS

- 5.1 The Company may not acquire any shares carrying voting rights which would enable it to exercise significant influence over the management of an issuing body.
- 5.2 Each Fund may acquire no more than:
 - (i) 10% of the non-voting shares of any single issuing body;
 - (ii) 10% of the debt securities of any single issuing body;
 - (iii) 25% of the units of any single CIS;
 - (iv) 10% of the Money Market Instruments of any single issuing body.

NOTE: The limits laid down in (ii), (iii) and (iv) above may be disregarded at the time of acquisition if at that time the gross amount of the debt securities or of the Money Market Instruments or the net amount of the securities in issue cannot be calculated.

- 5.3 Paragraphs 5.1 and 5.2 shall not be applicable to:

- (i) Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or its local authorities;
 - (ii) Transferable Securities and Money Market Instruments issued or guaranteed by a non-Member State;
 - (iii) Transferable Securities and Money Market Instruments issued by public international bodies of which one or more Member States are members;
 - (iv) shares held by each Fund in the capital of a company incorporated in a non-member State which invests its assets mainly in the securities of issuing bodies having their registered offices in that State, where under the legislation of that State such a holding represents the only way in which each Fund can invest in the securities of issuing bodies of that State. This waiver is applicable only if in its investment policies the company from the non-Member State complies with the limits laid down in paragraphs 2.3 to 2.11, 3.1, 3.2, 5.1, 5.2, 5.4, 5.5 and 5.6 and provided that where these limits are exceeded, paragraphs 5.5 and 5.6 are observed;
 - (v) shares held by the Fund in the capital of subsidiary companies carrying on only the business of management, advice or marketing in the country where the subsidiary is located, in regard to the redemption of shares at Shareholders' request exclusively on their behalf.
- 5.4 A Fund need not comply with the investment restrictions herein when exercising subscription rights attaching to Transferable Securities or Money Market Instruments which form part of their assets.
- 5.5 The Central Bank may allow recently authorised Funds to derogate from the provisions of paragraphs 2.3 to 2.12, 3.1, 3.2, and paragraphs (a) and (b) under the section above entitled "Index Tracking Funds" for six months following the date of their authorisation, provided they observe the principle of risk spreading.
- 5.6 If the limits laid down herein are exceeded for reasons beyond the control of a Fund, or as a result of the exercise of subscription rights, the Fund must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of its shareholders.
- 5.7 A Fund may not carry out uncovered sales of:
- (i) Transferable Securities;
 - (ii) Money Market Instruments¹;
 - (iii) units of CIS; or
 - (iv) FDIs.
- 5.8 A Fund may hold ancillary liquid assets.

6 FINANCIAL DERIVATIVE INSTRUMENTS

- 6.1 A Fund's global exposure relating to FDI must not exceed its total Net Asset Value.
- 6.2 Position exposure to the underlying assets of FDI, including embedded FDI in Transferable Securities or Money Market Instruments, when combined where relevant with positions resulting from direct investments, may not exceed the investment limits set out in the Central Bank Regulations. (This provision does not apply in the case of index based FDI provided the underlying index is one which meets with the criteria set out in the Central Bank Regulations).
- 6.3 A Fund may invest in FDIs dealt in OTC provided that:
- (i) The counterparty is a credit institution authorised in the EEA or a credit institution authorised within a signatory state (other than an EEA Member State) to the Basle Capital Convergence Agreement of July 1998 or a credit institution authorised in Jersey, Guernsey,

¹ Any short selling of money market instruments by UCITS is prohibited

the Isle of Man, Australia and New Zealand; or an investment firm, authorised in accordance with the Markets in Financial Derivative Instruments Directive, in an EEA Member State, or is any entity subject to regulation as a Consolidated Supervised Entity ("CSE") by the Securities and Exchange Commission.

- (ii) The counterparty has a minimum credit rating of A2/P2 or equivalent, or is deemed by the Company to have an implied rating of A2/P2. Alternatively, an unrated counterparty will be acceptable where each Fund is indemnified against losses suffered as a result of a failure by the counterparty, by an entity which has and maintains a rating of A2/P2.
- (iii) The Investment Manager must be satisfied that the counterparty will value the transactions within reasonable accuracy and on a reliable basis and will close out the transactions at any time at the request of the Investment Manager at fair value.

6.4 Each Fund's global exposure measured in accordance with the "commitment approach" under the Central Bank Guidance entitled UCITS Financial Derivative Instruments and Efficient Portfolio Management, relating to FDI must not exceed its total net asset value.

6.5 A transaction in FDI which gives rise to a future commitment on behalf of each Fund must be covered as follows:

- (i) in the case of FDI which require physical delivery of the underlying asset, the asset must be held at all times by the Fund;
- (ii) in the case of FDI which automatically, or at the discretion of the Fund, are cash settled, each Fund must hold, at all times, liquid assets which are sufficient to cover the exposure.

6.6 The total amount of premium paid or received for options, initial margin paid for futures contracts and initial outlay paid to a counterparty in the case of an OTC derivative transaction, may not exceed 15% of the net assets of the Fund.

It is intended that each Fund should have the power to avail of any change in the law, regulations or guidelines which would permit investment in assets and securities on a wider basis.

The Company will not amend such investment restrictions except in accordance with the requirements of the Central Bank.

Appendix III - Use Of Financial Derivative Instruments And Efficient Portfolio Management

Subject to the Regulations and to the conditions within the limits laid down by the Central Bank, the Company, on behalf of a Fund may invest in FDIs dealt on a regulated market and/or OTCs which will be used for investment purposes, hedging and/or efficient portfolio management purposes.

The FDIs in which a Fund may invest are swaps, further details of which will be set out in the relevant Supplement.

The Company must employ through its service providers a risk management process which enables it to monitor, measure and manage at any time the risks attached to a Fund's FDI positions and their contribution to the overall risk profile of the portfolio of assets of a Fund. It must employ a process for accurate and independent assessment of the value of OTC FDI. The Company must provide the Central Bank with details of its FDI activity and risk assessment methodology and, in accordance with particular requirements of the Central Bank shall specify, for that purpose, the permitted types of FDI, the underlying risks, the quantitative limits and how these will be monitored and enforced and the methods which are chosen in order to estimate the risks associated with transactions in any FDI applicable to a Fund. A Fund may only employ FDIs that have been specified in the risk management process that the Company has submitted to the Central Bank. The Company will ensure that a Fund's global exposure to FDIs is measured using the either the "commitment" or the "value-at-risk" approach in accordance with the Central Bank Guidance entitled UCITS Financial Derivative Instruments and Efficient Portfolio Management and does not exceed the total net asset value of its portfolio and that counterparty risk exposure to any OTC derivative transactions never exceeds the limits permitted under the Regulations.

The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

A Fund may also employ techniques and instruments relating to Transferable Securities and/or other financial instruments in which it invests for efficient portfolio management purposes, a list of which are set out in the relevant Supplement. Use of such techniques and instruments should be in line with the best interests of the Shareholders and will generally be made for one or more of the following reasons:

- (a) the reduction of risk;
- (b) the reduction of cost; or
- (c) the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund as described in this Prospectus and the relevant Supplement and the risk diversification rules set out in the Central Bank Regulations.

For example, such use may, where provided in the Supplement for the relevant Fund, include using swaps to exchange the performance of the securities held by a Fund for the Target Performance.

In addition, the use of such techniques and instruments must be realised in a cost-effective way and must not result in a change to the investment objective of the Fund or add supplementary risks not covered in this Prospectus. Please refer to the section of this Prospectus entitled "Risk Factors: EPM Risk" for more details. The risks arising from the use of such techniques and instruments shall be adequately captured in the Company's risk management process.

Such techniques and instruments may also include foreign exchange transactions which alter the currency characteristics of assets held by the relevant Fund.

Assets of a Fund may be denominated in a currency other than the Base Currency of the Fund and changes in the exchange rate between the Base Currency and the currency of the asset may lead to a depreciation of the value of the Fund's assets as expressed in the Base Currency. The Investment Manager may seek to mitigate this exchange rate risk by using FDI.

SECURITIES FINANCING TRANSACTIONS AND TOTAL RETURN SWAPS

SFTR

A Fund may use certain Securities Financing Transactions in accordance with normal market practice and subject to the requirements of the SFTR and the Central Bank Rules where provided for in the relevant

Supplement. Such Securities Financing Transactions may be entered into for any purpose that is consistent with the investment objective of the relevant Fund, including to generate income or profits in order to increase portfolio returns or to reduce portfolio expenses or risks. A general description of the types of Securities Financing Transactions a Fund may engage in is set out below.

Any type of assets that may be held by each Fund in accordance with its investment objective and policies may be subject to such Securities Financing Transactions and/or Total Return Swaps. Subject to each Fund's investment objective and policies, there is no limit on the proportion of assets that may be subject to Securities Financing Transactions and Total Return Swaps. Therefore, the maximum and expected proportion of each Fund's assets that may be subject to Securities Financing Transactions and Total Return Swaps is 100%. In any case the most recent semi-annual and annual accounts of the Company will express the amount of the Fund's assets subject to Securities Financing Transactions and Total Return Swaps.

Securities lending means transactions by which one party transfers securities to the other party subject to a commitment that the other party will return equivalent securities on a future date or when requested to do so by the party transferring the securities, that transaction being considered as securities lending for the party transferring the securities. Repurchase agreements are a type of securities lending transaction in which one party sells a security to the other party with a simultaneous agreement to repurchase the security at a fixed future date at a stipulated price reflecting a market rate of interest unrelated to the coupon rate of the securities. A reverse repurchase agreement is a transaction whereby a Fund purchases securities from a counterparty and simultaneously commits to resell the securities to the counterparty at an agreed upon date and price.

Total Return Swaps may be entered into for any purpose that is consistent with the investment objective of the relevant Fund, including efficient portfolio management (such as hedging purposes or the reduction of portfolio expenses), speculative purposes (in order to increase income and profits for the portfolio), or to gain exposure to certain markets. The reference obligation of a total return swap may be any security or other investment in which the relevant Fund is permitted to invest.

A Fund may enter Total Return Swaps with banks or other financial counterparties which may take the form of swaps of any kind, including contracts for difference, portfolio swaps, index swaps, credit default swaps and variance and volatility swaps, any kind of option, warrant, forward and future transaction and any other kind of derivative in accordance with its investment objectives.

Any Fund that seeks to engage in securities lending should ensure that it is able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.

Any Fund that enters into a reverse repurchase agreement should ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is callable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the Net Asset Value of the Fund.

A Fund that enters into a repurchase agreement should ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase and reverse repurchase agreements that do not exceed seven days shall be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

All the revenues arising from Securities Financing Transactions and any other efficient portfolio management techniques shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees (which are all fully transparent), which shall not include hidden revenue, shall include fees and expenses payable to repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company from time to time. Such fees and expenses of any repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the Fund in respect of which the relevant party has been engaged. Details of Fund revenues arising and attendant direct and indirect operational costs and fees as well as the identity of any specific repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company from time to time shall be included in the Company's semi-annual and annual reports.

While the Company will conduct appropriate due diligence in the selection of counterparties, including consideration of the legal status, country of origin, credit rating and minimum credit rating (where relevant),

it is noted that the Central Bank Rules do not prescribe any pre trade eligibility criteria for counterparties to a Fund's Securities Financing Transactions.

From time to time, a Fund may engage repurchase/reverse repurchase agreements counterparties and/or securities lending agents that are related parties to the Depositary or other service providers of the Company. Such engagement may on occasion cause a conflict of interest with the role of the Depositary or other service provider in respect of the Company. Please refer to section "Potential Conflicts of Interest" for further details on the conditions applicable to any such related party transactions. The identity of any such related parties will be specifically identified in the Company's semi-annual and annual reports.

Repurchase/reverse repurchase agreements or securities lending do not constitute borrowing or lending for the purposes of Regulation 103 and Regulation 111 of the Regulations respectively.

The Manager will, at least annually, review and/or confirm the arrangements for securities lending and repurchase/reverse repurchase agreements and associated fees invoiced to the relevant Fund, if any.

Please refer to the "Risk Factors" sections in respect of the risks related to Securities Financing Transactions. The risks arising from the use of Securities Financing Transactions shall be adequately captured in the Company's risk management process.

Structured notes

For efficient portfolio management purposes, a Fund may also invest in structured notes which are listed or traded on a Market. Where a Fund is permitted to invest in structured notes, this will be set out in the Supplement for the relevant Fund. Investing in such notes would enable the Fund to gain an economic exposure to an equity security, a combination of equity securities or securities which are components of the Reference Index or Reference Asset, whilst the Fund's primary credit risk would be to the issuer of the note. A Fund may, if disclosed in the Supplement for the relevant Fund, also invest in other collective investment undertakings (including undertakings linked by common management or control) and hold ancillary liquid assets, in each case subject to the Investment Restrictions set out above and in accordance with the requirements of the Central Bank.

Collateral Policy

In the context of efficient portfolio management techniques for hedging or investment purposes, collateral may be received from a counterparty for the benefit of a Fund or posted to a counterparty by or on behalf of the Company. Any receipt or posting of collateral by the Company will be conducted in accordance with the requirements of the Central Bank and the terms of the Company's collateral policy outlined below.

Collateral – Received by the Fund

Collateral posted by the counterparty for the benefit of a Fund may be taken into account as reducing the exposure to such counterparty. A Fund will require receipt of the necessary level of collateral so as to ensure counterparty exposure limits are not breached. Counterparty risk may be reduced to the extent that the value of the collateral received corresponds with the value of the amount exposed to counterparty risk at any given time.

The Manager will liaise with the Depositary in order to manage all aspects of the counterparty collateral process.

Risks linked to the management of collateral, such as operational and legal risks, shall be identified, managed and mitigated by the Manager's risk management process. If a Fund receives collateral for at least 30% of its assets it will put in place an appropriate stress testing policy to ensure regular stress tests are carried out under normal and exceptional liquidity conditions to enable the Company to assess the liquidity risk attached to the collateral. The liquidity stress testing policy will at least prescribe the components set out in Regulation 24 paragraph (8) of the Central Bank Regulations.

For the purpose of providing margin or collateral in respect of transactions in techniques and instruments, a Fund may transfer, mortgage, pledge, charge or encumber any assets or cash forming part of the Fund in accordance with normal market practice.

Non-Cash Collateral

Collateral received must, at all times, meet with the following criteria:

- (i) Liquidity: Collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can

be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of Regulation 74 of the Regulations.

- (ii) Valuation: Collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place. Subject to any agreement on valuation made with the counterparty, collateral posted to a recipient counterparty will be valued daily at mark-to-market value
- (iii) Issuer credit quality: Collateral received should be of high quality. The Manager shall ensure that:
 - (a) where the issuer was subject to a credit rating by an agency registered and supervised by ESMA that rating shall be taken into account by the Manager in the credit assessment process; and
 - (b) where an issuer is downgraded below the two highest short-term credit ratings by the credit rating agency referred to in (a) this shall result in a new credit assessment being conducted of the issuer by the Manager without delay.
- (iv) Correlation: Collateral received should be issued by an entity that is independent from the counterparty. There should be a reasonable ground for the Manager to expect that it would not display a high correlation with the performance of the counterparty.
- (v) Diversification (asset concentration):
 - (a) Subject to paragraph (b), Collateral should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure to a given issuer of 20% of the Fund's Net Asset Value. When the Fund is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer.
 - (b) A Fund may be fully collateralised in different Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, one or more of its local authorities, a third country, or a public international body to which one or more Member States belong. Such Fund should receive securities from at least 6 different issues, but securities from any single issue should not account for more than 30% of the Fund's net value. A Fund that intends to be fully collateralised in securities issued or guaranteed by a Member State should disclose this fact in the supplement of the Fund. The Member States, local authorities, or public international bodies or guaranteeing securities which a Fund is able to accept as collateral for more than 20% of their net asset value are those listed in section 2.12 of Appendix II to the Prospectus.
- (vi) Immediately available: Collateral received should be capable of being fully enforced by a Fund at any time without reference to or approval from the counterparty.
- (vii) Safe-keeping: Collateral received on a title transfer basis should be held by the Depository or its agent. For other types of collateral arrangement, the collateral can be held by a third party depository which is subject to prudential supervision, and which is unrelated to the provider of the collateral. Assets provided by the Fund on a title transfer basis shall no longer belong to the Fund and shall pass outside the custodial network. The counterparty may use those assets at its absolute discretion. Assets provided to a counterparty other than on a title transfer basis shall be held by the Depository or a duly appointed sub-depository
- (viii) Haircuts: The Company, on behalf of a Fund, shall apply suitably conservative haircuts to assets being received as collateral where appropriate on the basis of an assessment of the characteristics of the assets such as the credit standing or the price volatility, as well as the outcome of any stress tests performed as referred to above. The Company has determined that generally if issuer or issue credit quality of the collateral is not of the necessary quality or the collateral carries a significant level of price volatility with regard to residual maturity or other factors, a conservative haircut must be applied in accordance with more specific guidelines as will be maintained in writing by the Company on an ongoing basis. However, the application of such a haircut will be determined on a case by case basis, depending on the exact details of the assessment of the collateral. The Company, in its discretion, may consider it appropriate in certain circumstances to resolve to accept certain collateral with more conservative, less conservative or no haircuts applied if it so determines, on an

objectively justifiable basis. Any extenuating circumstances that warrant the acceptance of relevant collateral with haircut provisions other than the guideline levels must be outlined in writing. Documentation of the rationale behind this is imperative.

Non-cash collateral cannot be sold, pledged or re-invested.

Cash Collateral

Cash collateral may not be invested other than in the following:

- (i) deposits with relevant institutions;
- (ii) high-quality government bonds;
- (iii) reverse repurchase agreements provided the transactions are with credit institutions subject to prudential supervision and the Fund is able to recall at any time the full amount of cash on an accrued basis;
- (iv) short-term money market funds as defined in the ESMA Guidelines on a Common Definition of European Money Market Funds (ref CESR/10-049).

Invested cash collateral should be diversified in accordance with the diversification requirement applicable to non-cash collateral outlined above in (v) above under the heading "Non-Cash Collateral". Invested cash collateral may not be placed on deposit with the counterparty or a related entity. Exposure created through the reinvestment of collateral must be taken into account in determining risk exposures to a counterparty. Re-investment of cash collateral in accordance with the provisions above can still present additional risk for a Fund. Please refer to the section of the Prospectus entitled "Risk Factors; Reinvestment of Cash Collateral Risk" for more details.

Collateral – Posted by the Fund

Collateral posted to a counterparty by or on behalf of a Fund must be taken into account when calculating counterparty risk exposure. Collateral posted to a counterparty and collateral received by such counterparty may be taken into account on a net basis provided the Fund is able to legally enforce netting arrangements with the counterparty. Collateral posted to a counterparty by or on behalf of a Fund will consist of such collateral as is agreed with the counterparty from time to time and may include any types of assets held by the Fund.

Contracts for Differences

Futures and options contracts can also be referred to, as well as include, contracts for differences. These can be options and futures on any index, as well as currency and interest rate swaps. However, unlike other futures and options, these contracts can only be settled in cash. Investing in a contract for differences carries the same risks as investing in a future or option. Transactions in contracts for differences may also have a contingent liability and an investor should be aware of the implications of this as set out below.

Contingent Liability Transactions

Contingent liability transactions which are margined require the Fund to make a series of payments against the purchase price, instead of paying the whole purchase price immediately. If the Fund trades in futures, contracts for differences or sells options, the Fund may sustain a total loss of the margin it deposits with the broker to establish or maintain a position. If the market moves against the Fund, the Fund may be called upon to pay substantial additional margin at short notice to maintain the position. If the Fund fails to do so within the time required, its position may be liquidated at a loss and the Fund will be liable for any resulting deficit. Even if a transaction is not margined, it may still carry an obligation to make further payments in certain circumstances over and above any amount paid when the contract was entered into. Contingent liability transactions which are not traded on or under the rules of a recognised or designated investment exchange may expose you to substantially greater risks.

The Company on behalf of each Fund has filed with the Central Bank its risk management policy which enables it to accurately measure, monitor and manage the various risks associated with the use of FDIs. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments.

The Company unless otherwise specified in the supplement for the relevant Fund will use the commitment approach for the purposes of calculating global exposure for each Fund. A Fund's total exposure to its underlying assets will be limited to 100% of its Net Asset Value unless otherwise stated in the supplement for the relevant Fund.
