

Fee Schedule

Effective from 31 March 2019

I. General Terms

1. Concorde Investments Ireland Ltd's (hereinafter "CII") is required to provide transparent information on its fees and charges to its clients. This Fee Schedule should be read in conjunction with CII's Terms of Business.

The Fee schedule is available in CII's office and also on its website www.ciireland.com.

The Fee Schedule contains maximum fee levels. CII may apply better terms subject to discounts, dependant on the overall size and/or nature of your account. CII can amend its fees and charges at its sole discretion giving you 30 days prior notice.

Where CII provides you with a service it will provide you with aggregated information on costs and charges at the outset of the relationship. Where this information is not available at that time we will provide you with a basis for calculation of the costs and charges. Actual costs and charges in this scenario, will be advised to you following settlement. CII's clients are entitled to request a detailed breakdown of applicable costs and charges which will be provided in line with this fee schedule.

Please note that all fees and charges are exclusive of Ireland's Value Added Tax rate ("VAT") (unless specified), which shall be charged (where applicable) at the rate in force at the date the tax falls due.

Depending on the nature of your account, charges under each of the headings below may apply simultaneously.

2. Transaction-based fees (Sections II and III) are applied on the actual consideration of the transmitted order and executed financial instrument. Note that where transactions are undertaken in other currencies, these fees may be charged in the foreign currency or its Euro equivalent.

Transaction based fees applied on transactions related to financial instruments, are charged to your account at the time of settlement of the transaction.

CII also offers an All-in transaction fee which is available to all clients on request. The All in transaction fee offers an unrestricted number of transactions as set in Section II.A and III during a single calendar year or part thereof.

3. Fees not related to actual transactions, for example Safekeeping and Administration fees, are charged monthly in arrears, and applied to the client's account on the first working day of the following month. These fees are calculated on a daily basis based on the value of the client's account and charged on a pro rata basis. In the case of account closures, the fee will be charged on a pro rata basis and debited prior to any payments being made to the client. These fees and Other Fees as set out in Sections V and VI below, are always charged in Euros.
4. Security transfer fees are applied per order and per security at the time of the transfer.
5. When calculating actual fees, CII maintains the right to round figures to the nearest Euro.
6. Volume based and penalty charges in case of account closure are calculated on a pro rata, time proportionate basis, considering the minimum level of charges (where applicable).
7. Interest charge (in case of any negative balance) penalties can be applied to negative client (money) balances. The rate set in this Fee Schedule is a maximum level and CII may agree more favourable terms with you. From time to time fee arrears ("arrears") may arise (i.e. for those accounts with insufficient cash to cover the fees). When the relevant account subsequently is in a positive cash position, CII reserves its right to apply the arrears at that time. Should the arrears continue for a period of time to be considered unreasonable by CII, CII retains the right to dispose of any investment held for you and/or exchange your non-Euro available cash balance to Euro to reduce or eliminate any liability arising from such arrears.

II. Transaction related fees

A. Transaction fees on receipt and transmission of orders

Mutual Funds All markets/types	0.35 %, min EUR 100	0.35 %, min EUR 100	Mutual Fund providers may charge penalties for early redemption.

Where a mutual fund is purchased/sold through a stock exchange the normal Equity transaction fee is applied.

IV. Third Party Fund Manager Fees

Third party charges associated with financial instruments will vary. In the case of Mutual Funds and ETFs it is important that you read their respective Prospectus, Supplement and any relevant documentation for full information on the fees and charges applicable to those vehicles. These fees and charges will be in addition to those of CII. Where applicable we will bring these to your attention.

These fees will not be charged by CII, but by the third party providers of those underlying collective investment vehicles. Also these charges will not be charged separately in your account, but are implicit in the price of, and built into, these vehicles.

CII will disclose to you any third party commissions it receives, at the outset of the relationship.
