A sub-fund of iShares V plc

**USD (Acc) Share Class**

ISIN: IE00BD3V0B10

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

**Objectives and Investment Policy**

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund’s assets, which reflects the return of the S&P 900 Banks (Industry) 7/4 Capped Index, the Fund’s benchmark index (Index).
  - ▶ The Share Class, via the Fund is passively managed, and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
  - ▶ The Index measures the performance of equity securities of companies included in the S&P 900 Index (the “Parent Index”) which are within the Global Industry Classification Standard (GICS) classification of the financial sector’s diversified banks and/or regional banks sub-sectors. Diversified banks include multinational banking companies that provide a diverse range of financial services but does not include investment banks and regional banks. Regional banks are banks located in local regions but does not include diversified banks and investment banks. The Parent Index is free-float adjusted market capitalisation weighted. Free float-adjusted means that only shares readily available in the market rather than all of a company’s issued shares are used in calculating the Parent Index. Free float-adjusted market capitalisation is the share price of a company multiplied by the number of shares readily available in the market.
  - ▶ The Index rebalances on a quarterly basis. The Index is free-float adjusted market capitalisation weighted subject to caps of 7% for the largest constituents and 4% for other constituents.
  - ▶ The Fund intends to replicate the Index by holding the equity securities, which make up the Index, in similar proportions to it.
  - ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
  - ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on, one or more underlying assets) to help achieve the Fund’s investment objective. FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
  - ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
  - ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
  - ▶ Your shares will be denominated in US Dollar, the Fund’s base currency.
  - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund’s prospectus, available on the product pages at [www.blackrock.com](http://www.blackrock.com)

**Risk and Reward Profile**

- ▶ The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political or regulatory events.
- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
  - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
  - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. “bail-in”) by relevant authorities to rescue the institution.

## Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

\*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

\*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

\*\* To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
