

**Key investor information**

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Xtrackers Russell 2000 UCITS ETF**

**Share class: 1C, ISIN: IE00BJZ2DD79, Security code: A1XEJT, Currency: USD**

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

**Objectives and investment policy**

The fund is passively managed. The aim is for your investment to track the performance, before fees and expenses, of the Russell 2000® Index (index) which is designed to reflect the performance of the shares of certain companies included on the Russell 3000® Index. The Russell 3000® Index comprises the 3000 largest shares of US companies, based on the combined value of a company's shares compared to other companies. The index comprises the 2000 smallest companies on the Russell 3000® Index. A company's weighting in the index depends on its relative size based on the combined value of a company's readily available shares as compared to other companies. The share must be listed on a major US stock exchange and must meet minimum trading price and activity criteria. Certain non US companies are permitted to be included. The composition of the index is reviewed at least

annually. The index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. The fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the fund. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

**Risk and reward profile**

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. DWS entities and related companies

may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. The fund follows a rules-based strategy which will deviate from the overall market or parent index performance. Your investment may be less diversified, with no guarantee that the strategy will be achieved. The fund invests in small and mid-sized companies, which potentially involves greater risks compared to investing in larger companies. The shares may have less liquidity and could experience more price swings (or volatility) which could adversely affect the value of your investment. The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

**Charges**

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
<b>Entry charge</b>	None
<b>Exit charge</b>	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
<b>Ongoing charges</b>	0.30 %
Charges taken from the fund under certain specific conditions	
<b>Performance fee</b>	None
<b>Securities lending fees</b>	0.02 %

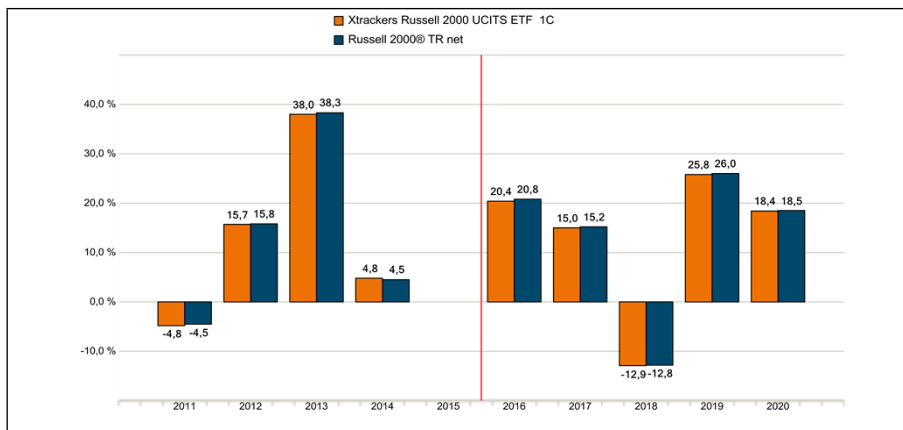

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2020. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

To the extent the fund undertakes securities lending to generate revenue, the fund will ultimately be allocated 70% of the associated revenue, the securities lending agent, which will be a DWS entity or other Deutsche Bank entity, will be allocated 15% and the remaining 15% will be allocated to the DWS entity which monitors such activities, as set out in the prospectus. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the ongoing charges.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the 1C share class of Xtrackers Russell 2000 UCITS ETF were deducted during the calculation. The 1C share class of Xtrackers Russell 2000 UCITS ETF was launched in 2015.

— PLEASE NOTE: The performance shown up to and including 2014 is not that of the fund, but that of db x-trackers Russell 2000 UCITS ETF, which merged into the fund on 18.06.2015. There is insufficient data available to provide you with useful information regarding 2015 performance.

## Practical information
